The interest paid on bonds during 1888 was the total amount which accrued on all bonds outstanding, as per bond statement. The rentals paid leased lines were as follows: Boonville, St. Louis and Southern, $25,000; Hannibal and St. Joseph, $13,500; Osage Division M., K. & T., $40,000; Central Branch U. P., $7,382.04; Verdigris Valley, Independence and Western Ry., $37,450; Le Roy and Caney Valley Air-Line RR., $25,975—total, as per Income Account, $149,307.04.

The Pacific RR. of Missouri first mortgage bonds are secured on the main line from St. Louis to Kansas City, 283 miles, with rolling stock, machine shops and depots—about $25,000 per mile. Denomination of bonds $1,000; coupon with privilege of registration. These bonds were extended for 50 years from date of maturity (August, 1888) at 4 per cent. gold. The Pacific RR. of Missouri second mortgage bonds are secured on the same line subject to the first mortgage; are for $1,000 each, and have a sinking fund of $50,000 per annum. The real estate mortgage bonds are secured on real estate in the city of St. Louis. The Carondelet Branch bonds are secured on that branch of the company's line; are of $500 each coupon with privilege of registration. The Lexington Division and Leavenworth, Atchison and Northwestern bonds are secured on these respective divisions. The third mortgage seven per cent. bonds of 1906 were issued on the organization of the original Missouri Pacific Ry. Co. as successor to the Pacific RR. of Missouri in 1876; are secured on main line and and Carondelet Branch; total issued, $4,500,000, of which $672,000 exchanged for consolidated mortgage bonds; denomination, $1,000; trustee, Central Trust Co., New York. The consolidated mortgage bonds are for $30,000,000, the unissued amount, $15,286,000, being reserved to meet prior liens. Trustees, John F. Dillon and Edward D. Adams; bonds are coupon or registered and $1,000 each.

The Trust five per cent. bonds were issued under authority of a resolution of the stockholders, adopted December 10, 1886, and are secured by a deposit in trust of first mortgage bonds of railway companies controlled or operated as part of its system by the Missouri Pacific Ry. Co. The issue of this series of bonds is limited to actually completed mileage of railroads whose first mortgage bonds are deposited in trust as above. These bonds are for $1,000 each and coupon with registration privilege. Trustee, Union Trust Co., New York. There were listed on the New York Stock Exchange bonds of this class to the amount of $14,376,000.

All of the lines of railway referred to above, the securities of which have been deposited with the Union Trust Company, are complete and in operation.

The Trust five per cent. bonds are issued at the rate of $12,000 per mile of completed road, in all cases except the Fort Scott, Wichita and Western Railway Company (the successor of the St. Louis, Fort Scott and Wichita Railway Company), which is at the rate of $15,000 on 311 miles.

EXTENSIONS AND BRANCH LINES.—In 1886 the Missouri Pacific Ry. Co. began the construction of a series of branch lines and extensions "in order to protect the present traffic of your (the company's) railway and insure its future growth." To provide the means necessary for this purpose the stock was increased during 1886–7, at various times, from $30,000,000 to $45,000,000, of which there was outstanding December 31, 1888, $43,974,850.

The following statement shows the terminal points, mileage, dates of opening, cost of construction to December 31, 1888, etc., of the various lines recently built and added to the Missouri Pacific system proper, aggregating 1,708 miles, as shown elsewhere:

Add purchase of coal properties, $834,273 ; real estate, St. Louis and other points, $500,593 ; new equipment, $5,179,534 ; Iron Mountain RR. of Memphis, $256,960—total cost, including equipment, coal properties and terminals, $37,362,688.

The cost of above construction, etc., was paid from the following sources :

Capital Stock, the Missouri Pacific Ry. Co., at par	$14,000,000
Trust 5 per cent. Bonds, the Missouri Pacific Ry. Co	14,376,000
Guaranteed Bonds	1,333,000
Other sources	1,653,688
Advanced by Directors	6,000,000
	$37,362,688

" When the foregoing construction was entered upon, a ready market existed for railway securities, the capital stock of the Missouri Pacific Ry. Co. was selling above par, and it was the reasonable expectation to repay these expenditures by allotting shares to the stockholders at par ; an additional allotment of $5,000,000 of stock, making the capital stock of the company $50,000,000, was intended, which, with the $1,000,000 of the stock then in the treasury, would have liquidated the entire expenditure. The general decline in railway securities has postponed the carrying out of this plan, and the financial depression of the past year was so great that, to avoid any sacrifice of the assets of the company, several of the directors, who are the largest stockholders of the company, advanced the necessary amount to complete the lines, under an agreement by which the company can repay the loans at its convenience, with interest not exceeding 6 per cent.

" The company has in its treasury, as an offset to the foregoing construction accounts, and inclusive of securities underlying the Trust 5 per cent. bonds, $29,000,000 of the first mortgage bonds of the branch lines, and $66,587,607, nominal value, of shares ; a portion of these securities could be sold, if deemed advisable, and thus liquidate the debt without further issue of bonds or stock by the company for that purpose. The total cash cost of the securities in the treasury amounts to $46,744,258.

" The company has no floating debt, except that arising from the current operation of the road.

" The gross and net earnings of the properties during the past year have been less satisfactory than those of former years, chiefly from the causes stated in the report of the first Vice-President and General Manager, to which reference is made for specific information relative to the details of the operation and maintenance of the lines.

" The prospects for the coming year are more favorable. Rates, both passenger and freight, in the territory traversed by your lines, are better maintained and the volume of traffic to be moved is increasing, as is evidenced by the increase in earnings for the first two months of the present year, amounting to $365,000 in gross and $246,000 in net earnings during the months of January and February, 1889."

The gross earnings, operating expenses and surplus earnings of all lines for the year 1888, compared with the previous year, were :

Average mileage operated for year ending December 31, 1888.....363 miles.
Sidings, 53.40 miles. Gauge, 4 ft. 8½ in. Rail (steel), 50 and 60 lbs.

History.—Chartered August 28, 1884, with a capital of $1,000,000, to build a railroad from San Antonio, Tex., to Aransas Bay, 150 miles. Tracklaying commenced August 20, 1885. Charter amended March 29, 1886, increasing the capital to $5,000,000 and authorizing an extension of the road from San Antonio northwesterly, and also an extension from Kenedy to a connection with the G., C. and S. Fé at Wallis, with branches to Waco, to a connection with the Texas-Mexican road, and to Corpus Christi, Tex. On May 24, 1888, the charter was further amended, authorizing the extension of the line from a connection with the G.,

C. and S. Fé at Wallis, through Houston northeast in the direction of Shreveport, La., with a further extension from Kenedy station to Laredo, Tex., with a branch from some point in Lavaca County to Austin, Tex. The total mileage proposed to be built is about 1,100 miles. The work of constructing these several lines has been continuous from their inception, and on May 1, 1889, 518 miles were completed and nearly ready for operation as shown above.

ST. JOSEPH AND GRAND ISLAND RAILROAD COMPANY.

Line of Road.—St. Joseph, Mo., to Grand Island, Neb.....252.52 miles. Sidings, about 18.66 miles. Gauge, 4 ft. 8½ in. Rail (steel, 251.7 miles), 54 and 60 lbs.

History.—On the 11th of June, 1885, the St. Joseph and Western Railroad was sold under foreclosure, the sale of the Hastings and Grand Island following on the 19th of the same month, both lines being purchased by a committee of the bondholders. The St. Joseph and Marysville RR. Co., and the Grand Island and Marysville RR. Co., two new corporations, were organized in the States of Kansas and Nebraska, and consolidated under the present title. The property of the new company includes the St. Joseph's Bridge Building Company's bridge at St. Joseph and the entire line between St. Joseph, Mo., and Grand Island, Neb. The new company issued $4,600,000 stock, $7,000,000 first mortgage bonds, and $1,680,000 income bonds. The first mortgage bonds were issued in exchange for the old divisional bonds and back coupons and for improvements, the income bonds in exchange for the second mortgage bonds at 70 per cent., and the stock in exchange share for share for the stocks of the railroad and bridge companies. (See MANUAL for 1886 for full historical statement.)

Remarks.

1. Total amount authorized and originally issued, $7,250,000; secured by a first lien mortgage on the company's original main line, Pacific to Seneca, Mo., 292.27 miles, and Granby Branch, 1.50 miles, together 293.77 miles, or at the rate of $24,320 per mile. All of these bonds, except a few not yet presented, were paid at maturity, and cancelled, or the money deposited with the United States Trust Company for payment of the same.

2. Total amount authorized and originally issued, $5,700,000; retired and cancelled, $33,500. These bonds were originally designated "seconds," but upon payment of the "South Pacific" bonds, as above stated, the mortgage for the "A," "B," and "C" bonds became and is the first lien on 293.77 miles above mentioned, being at the rate of $19,288 per mile.

3. Total amount authorized and originally issued, $1,100,000; retired and cancelled, $16,000; mortgage is first lien on road Pierce City, Mo., to Oswego, Kan., 72.91 miles, and Oronogo to Joplin, Mo., 9.32 miles, together 82.23 miles, or at the rate of $13,183 per mile. Commencing in 1884, the bonds are subject to being drawn for payment (if not purchased) at 105 and interest, $5,000 each year.

4. Originally issued $1,400,000; retired and cancelled $212,000. Secured by deposit in trust of $1,400,000 of first mortgage 7 per cent. bonds on roads Plymouth (Monett) Mo., to Fayetteville, Ark., 71.18 miles. Carl Junction, Mo., to Girard, Kan., 29.14 miles, and Litchfield Junction to Litchfield, Kan. (Carbon Branch), 3.25 miles, together 103.57 miles, being at the rate of $11,470 per mile. Bonds have till maturity to run. Sinking Fund consists of difference between interest on the $1,400,000 of first mortgage sevens, and that on the trust sixes outstanding.

5. Total amount authorized and originally issued, $1,000,000; retired and cancelled, $530,000. In June and December of each year, $40,000 are drawn for payment at 105 and interest (if not purchased) and are cancelled. Secured by a first lien (till all bonds are paid) on rolling stock, costing over $1,100,000. All bonds due June, 1895.

6. Total amount authorized and originally issued, $464,000; retired and cancelled, $207,000. Bonds due in series of designated numbers, $23,000 each April and October. Secured by first lien (till all bonds are paid) on rolling stock, costing $527,386. Last series due April, 1894.

7. Authorized issue limited not to exceed $30,000 per mile of newly constructed or acquired roads, and equipment, connecting with the system of, and operated and controlled by the San Francisco Co. Secured by deposit in trust of all first mortgage bonds and not less than a majority of the capital stock of various companies, whose roads are so operated and controlled. Roads now are Springfield, Mo., Belt Line, 3.18; Red River, I. T., to Paris, Tex., 16.94; Jenson to Mansfield, Ark., 18.34; Powell to St. Paul, Ark., 7.68; Pittsburg to Weir City, Kan., 8.81, together 54.95 miles, being at the rate of $30,000 per mile of bonds.

8. Both classes issued under one and the same mortgage and all equally secured. Total amount authorized, $30,000,000, of which $17,261,000 are appropriated and set aside to provide at maturity or before for a like amount of prior first mortgage bonds. The security for these bonds at present consists of first lien of the mortgage on various roads and equipment and on the company's real estate and terminals in St. Louis, built or acquired, and for which the $7,727,000 of sixes now outstanding and $5,000,000 of fives were issued, and also of a second lien on all the rest of the company's roads, equipment and property. The roads under the first lien of the mortgage are as follows: St. Louis to Pacific, Mo., 34.01 miles; Springfield to Bolivar, Mo., 38.79; Springfield to Chadwick, Mo., 34.86; Fayetteville, Ark., to Red River, I. T., 214.95; Fayetteville to Powell, Ark., 25.61; Joplin, Mo., to Galena, Kan. (and Belt Line, Joplin), 10.59; Joplin to Carl Junction, Mo., 6.70, in all 365.51 miles. The second lien of the mortgage is on 964 miles additional. Of the fives outstanding, $7,144,000 were issued to retire the South Pacific sixes in July, 1888, and $159,000 in place of other six per cent. first mortgage bonds paid and cancelled.

9. Amount authorized, $2,000,000. These bonds are guaranteed and indorsed by the San F. Co. for due payment of principal and interest and are secured by the first lien of the mortgage on the road. Oswego to Wichita, Kan., 144.49 miles, being at the rate of $13,843 per mile.

409,000 second mortgage 6 per cent. 50-year $1,000 coupon bonds, dated May 1, 1886, due May 1, 1936, interest payable May and November. These bonds are a lien on the entire road.

In October, 1888, the company sold to Jay Gould and Russell Sage for $2,000,000 cash, $6,000,000 of its 2d mortgage bonds, increasing the amount of those bonds outstanding to $16,409,000. Under the plan of reorganization a bondholders' committee of five was appointed with authority to select the board of directors for five years. The purchasers of the above-mentioned 2d mortgage bonds were given the privilege naming three of the five, which privilege they availed themselves of by selecting George J. Gould, Russell Sage and Louis Fitzgerald, all Missouri Pacific. This arrangement gives to the Missouri Pacific practical control of this company.

Annual meeting, Monday preceding first Wednesday in May. Interest on first mortgage bonds payable at the office of the trustee, Central Trust Co., New York, N. Y.; on second mortgage bonds, at Mercantile Trust Co., New York, N. Y., trustee. Voting power attaches to stock after 30 days' ownership.

Area of terminal grounds (in St. Louis, 34.19; in East St. Louis, 81.67).....115.86 acres.

History.—Formerly the Illinois and St. Louis Bridge Co., which was sold under foreclosure, and a new company formed under the above title March 17, 1879.

The bridge has two roadways, one above the other, the lower one for steam railway traffic only, and the upper one for wagons and foot passengers.

On July 1, 1881, the bridge was leased to the Missouri Pacific and the Wabash, St. Louis and Pacific Ry. Cos, at an annual rental equalling interest on bonds, semi-annual dividends on 1st preferred stock at the rate of 5 per cent. per annum for three years to and ending in July, 1885, and thereafter at the rate of 6 per cent.; and semi-annual dividends of 3 per cent. on 2d preferred stock, the first payment to be made July 1, 1884. Dividends payable in gold, free of all charges. The lessees further agree to pay all taxes, assessments and other charges; to pay $2,500 a year for maintaining organization, and to provide and maintain offices for this company in St. Louis and New York. In addition it is provided that the bonds of the company as they mature shall be paid by the lessee companies.

The bridge and the tunnel (see Tunnel RR. St. Louis), with all their terminal properties, are operated by the above lessee for the accommodation of the local and interchanging freight and passenger traffic of the thirteen roads on the east side, and the five roads on the west side, which centre at St. Louis.

Rolling Stock.—Locomotive engines, 22. Cars—passenger, 8; working, 3.

Operations.—The operations of the Bridge and Tunnel in 1888 were as follows: Tons freight moved, 3,143,183. Passengers carried, 1,475,264. Cars moved—loaded freight cars,

These income bonds bear interest at the rate of 7 per cent. per annum, payable if earned, in March of each year, and accumulative. The *general consolidated railway and land grant mortgage* covers all the property and franchises of the company. The amount originally provided was $32,036,000 or $2,000,000 more than the then existing bonded debt of the company, to retire which an equal amount of these bonds was set apart, the excess being used in improving the road. Trustee, Mercantile Trust Co., New York. Bonds of all classes are $1,000 (seconds of 1872–97 are also £200), and coupon with privilege of registration. Interest on all bonds payable at office of Mercantile Trust Co., New York; on sterling seconds in London.

In addition to the several issues of bonds above enumerated, there are outstanding $57,000 Iron Mountain Car Trust bonds (authorized amount, $3,000,000; original issue, $1,441,000), dated July, 1880, interest 6 per cent., payable quarterly on the 1st days of March, June, September and December, at the office of the Trustees, 195 Broadway, New York City, annual payments about $200,000 and interest on outstanding certificates, until December 31, 1887, thereafter, $19,000 and interest until September 1, 1891, at which time all outstanding certificates will be paid off and cancelled, and the St. Louis, Iron Mountain and Southern Ry. Co. will become absolute owner of all rolling stock now owned by the Iron Mountain Car Trust. (See statement of rolling stock.)

History.—Organized under Act of Congress, March 3, 1871, and the general railroad laws of the State of Texas. Acquired the properties of the Southern Pacific, the Southern Transcontinental, and the Memphis, El Paso and Pacific RR. Companies. The Southern Pacific RR. Co. was a consolidation of the Vicksburg, Shreveport and Texas, chartered in Louisiana, and the Southern Pacific, organized under the laws of Texas. Consolidated June 21, 1881, with the New Orleans Pacific Ry. Co. Between Sierra Blanca and El Paso, 92 miles, the track is used jointly with the Galveston, Harrisburg and San Antonio RR., this company paying one-half taxes, station expenses, and cost of maintenance, and, in addition, 6 per cent. on $10,000 per mile.

Default was made in June, 1884, and receivers appointed December 16, 1885. Sold under foreclosure November 8, 1887, and company reorganized without change of name. For plan of reorganization, see MANUAL for 1887, page 791. See also MANUAL for 1888, page 822.

First Mortgage, Eastern Division	1875	1875	1905	3,784,000	3,784,000	6	Mar. & Spt.

Following is a detailed description of the bonds:

First Mortgage Bonds, $25,000,000, each bond being for $1,000 with interest at 5 per cent.; coupons payable in June and December, principal due June 1, 2000; and numbered from 1 to 25,000 inclusive. (Numbers 1 to 3,951 are reserved in accordance with Art. 1 of the mortgage, to retire outstanding first mortgage Eastern Division bonds, amounting to $3,784,000, and the School Fund Loan of the State of Texas of $167,000.) The request to list therefore, covers only the bonds numbered from 3,952 to 25,000 inclusive, or $21,049,000.

These bonds are secured by a mortgage of even date (February 1, 1888) to the Fidelity Insurance Trust and Safe Deposit Company of Philadelphia, Trustee, covering the entire line, including leaseholds, rights of joint use, terminals, transfer boats and rolling stock, from New Orleans, La., to El Paso, Texas, and from Marshall, *via* Texarkana, to Sherman and Fort Worth, in all 1,487 miles, subject only to the old first mortgage on the Eastern Division from Texarkana and Marshall to Fort Worth, amounting to $3,784,000 and the School Fund Loan of the State of Texas, of $167,000, to retire which an amount of bonds of equal number are set aside.

Second Mortgage Bonds, $25,000,000, each bond for $1,000, numbered from 1 to 25,000 inclusive, interest 5 per cent.; coupons payable annually on March 1; principal due December 1, 2000. Interest being payable only to the extent that the net income will permit, and is non-cumulative. 1,773 of these bonds remain in the company's treasury, leaving $23,227,000, numbered from 1 to 23,227 inclusive, to be issued in accordance with the statement of the distribution, which is herewith subjoined, showing in detail the distribution of the new first and second mortgage bonds under the modified plan of reorganization of the Texas and Pacific Railway Company, adopted August 13, 1886.

These bonds are secured by a mortgage of even date therewith (February 1, 1888), to the Mercantile Trust Company of New York, Trustee, being a second lien on the entire line, subject to the above first mortgage, and bearing even date.

The 1st mortgage Eastern Division bonds are limited to an issue of $4,192,000, being $8,000 per mile upon 524 miles of road west of Fort Worth; $408,000 of these bonds have been retired by sinking fund.

LAND GRANT.—Under the reorganization the lands of this company were disposed of to a LAND TRUST organized by the holders of Land Bonds for the purpose of acquiring those lands. In June, 1888, it was announced that this TEXAS PACIFIC LAND TRUST had issued, or had provided for an issue of not exceeding $10,370,000 of certificates of proprietary interest issued in accordance with a declaration of trust, dated February 1, 1888, made by

Charles J. Canda, Simeon J. Drake and William Strauss, filed with the Central Trust Company of New York. See MANUAL for 1888, page 824.

Annual meeting held in City of New York on first Wednesday in March. No fixed time for closing books. Directors elected at each biennial meeting. All stock and bonds listed on New York Exchange. History.—On May 8, 1888, the Galveston, Sabine and St. Louis Ry., from Longview Junction to Martin's Creek, 22 miles, was purchased at foreclosure sale by a committee of the bondholders, and subsequently conveyed to the present company, which had, under a contract with the Texas Construction Company, built the extension from Martin's Creek to Carthage, completing it March 17, 1888. (See MANUAL for 1888, page 825.)

The surplus earnings over operating expenses and bond-interest were applied to the improvement of the property, together with large additional sums, the proceeds from sale of bonds, for which $475,000 ($12,500 per mile) have been deposited with the financial agency at New York.

UNION DEPOT COMPANY OF KANSAS CITY, MO.

Yard tracks.....About 2.45 miles.

Gauge, 4 ft. 8½ in. Rail (steel), 56 and 60 lbs.

History.—Incorporated November 29, 1875; depot opened April, 1878. Shortly after its incorporation this company made contracts with the railroads, stockholders, intending to use the property, and issued $210,000 in first mortgage 8 per cent. bonds, due 1899. The contracts provided that the railroads should pay an amount equal to 10 per cent. of this sum per annum ($21,000) in monthly instalments as a fixed rental, out of which the bonded interest should be paid, and the remainder create a sinking fund for the annual redemption of a certain amount of these bonds, as required by the mortgage; also that they should pay all operating expenses and taxes on monthly bills being rendered for the same, but that all miscellaneous revenues of the property should first be applied to the payment of these expenses. By authority of the board of directors, however, this miscellaneous revenue has been retained and partly applied on new construction; stock dividends having been made on this account. The surplus is at present $246,882.65, which is held in view of probable additions being made to the property.

Income Account, December 31, 1888.—Receipts—rents, $21,000; miscellaneous, $72,850.40; from railroads for expenses, $136,295.18—total, $280,145.58. Operating expenses, $136,295.18. Net income, $93,850.40. Payments: Interest on bonds, $12,160; sinking fund, $8,840; construction and improvement, $169.83—total, $21,169.83. Balance, surplus, $72,680.57; surplus from last year, $174,202.08—total, $246,882.65.

Sidings, etc., 123.43 miles. Gauge, 4 ft. 8½ in. Rail—iron, 50 to 56; steel (916.13 miles), 52 lbs.

History.—This company was organized June 19, 1876, as successor to the Burlington, Cedar Rapids and Minnesota RR. Co. Included in the main line are 12.5 miles of the Minneapolis and St. Louis Ry., from Iowa Line to Albert Lea, Minn., leased in perpetuity on guaranty of $150,000 7 per cent. bonds, due June 1, 1927. When the bonds are paid off that link becomes the property of this company.

The company nominally leases but actually owns the following named railroads, and guarantees principal and interest of the bonds issued upon them: Iowa City and Western Ry., Iowa City to What Cheer and Montezuma, Ia., 73.02 miles; Cedar Rapids, Iowa Falls and Northwestern Ry., Holland, Ia., to Worthington, Minn., 181.51 miles; Lake Park, Minn., to Watertown, Dak., 164.12 miles; Ellsworth, Minn., to Sioux Falls, Dak., 42.50 miles, and Dows to Forest City, Ia., 48.29 miles—a total of 436.42 miles; Cedar Rapids and Clinton Ry., Iowa City to Clinton, Ia., 81.94 miles; Chicago, Decorah and Minnesota Ry., Postville Junction to Decorah, Ia., 23.30 miles. Total miles leased, including Minneapolis and St. Louis Ry., leased section and trackage, 620.86 miles.

In the case of holders of bonds of the Burlington, Cedar Rapids and Minnesota Co. who claimed the right to redeem the property and entered suit against this company in furtherance of that claim, the United States Circuit Court rendered a decision in May, 1889, declaring that the bonds were illegally issued.

On June 30, 1887, this company entered into an agreement with the Minneapolis and St. Louis Ry. Co. for the use of the latter's tracks from Hayfield to Forest City, 7 miles, for a term of five years.

History.—The Central Ohio Ry. Co. defaulted in 1884, and road sold under foreclosure in September and November, 1887, and March, 1888, and the Iowa Central Ry. Co. organized by the purchasers. The plan of reorganization was published on page 836 of the Manual for 1888. It provided for $11,000,000 common stock, $6,000,000 preferred, $1,379,625 temporary debt certificates, convertible into preferred stock, and $7,500,000 5 per cent. first mortgage bonds. New firsts to the amount of $5,900,000 were listed early in January, 1889, and old bonds stricken off, and the committee on stock list was authorized to list the new stock when issued and to strike from the list old stock and debenture certificates. The road is still in the hands of the receiver, as the reorganization is not yet quite completed.

The first mortgage bonds, M. & N. W. RR., are secured by mortgage on the road between Chicago and St. Paul, 400 miles, and other lines—total, 511 miles, with bridge at St. Paul, and extensive terminals in St. Paul, Minneapolis and Dubuque. Of the first mortgage bonds of 1936, $5,919,000 have been issued at the rate of $20,000 per mile against completed railroad, and constitute a first charge upon the 296 miles, Oelwein to St. Joseph, with terminals, and are a further charge upon the remaining 514 miles of the system, subject only to the bonds outstanding of the old Minnesota and Northwestern Railroad Company; $2,006,000, at the rate of $2,476 per mile, against the cost of equipment; $881,000 against the cost of right of way, depot grounds and terminal facilities at St. Joseph, Missouri, Des Moines, and Marshalltown, Iowa. The mortgage limits the issue to $20,000 per mile of single track railroad actually constructed and in operation; an additional amount, not exceeding $5,000 per mile, for providing equipment, for right of way, depot grounds and terminal facilities; an additional amount, not exceeding $8,000 per mile, for double track. After 1896 the company has the right to redeem the bonds at 105 and interest.

Annual meeting, first Thursday in September. Books close thirty days prior thereto, and same time prior to payment of dividends. The income bonds are convertible into five per cent. preference stock. Interest payable in New York City and London, England. Trustees of bonds: Metropolitan Trust Co., New York, N. Y., and Robert Benson, London, England. Registrar of stock, Metropolitan Trust Co., New York City.

The entire issue of M. & N. W. RR. bonds, and $8,580,000 (June 30) of the C., St. P. & K. C. RR. bonds are listed on the New York and London Stock Exchanges.

The Minneapolis and Duluth bonds (*a*) were originally guaranteed by this company, and by the consolidation of May, 1881, became an obligation of the M. & S. L. Ry. Co. The $455,000 seven per cents of Jan. 1, 1877 (*b*), are issued at rate of $20,500 per mile. The total issue of seven per cents of Feb. 1, 1877 (*c*), is $1,100,000, of which $150,000 are assumed by Burlington, Cedar Rapids and Northern RR. The Iowa Extension bonds (*d*) are issued at $10,000 per mile. The Southwestern Extension bonds (*e*) are $12,000 per mile. The Pacific Extension (*f*) bonds are $15,000 per mile. The improvement and equipment bonds (*h*) were issued in October, 1882, the company having made provision for an issue of improvement and equipment bonds in two series to the amount of $4,000,000, secured by a first lien on all the rolling stock of the company, and also covering all other property of the company, subject to existing liens. Of these the first series (*h*) of $2,000,000 was issued as above.

The second series (*i*) of $2,000,000, as above, was issued in 1887 in order to retire the outstanding obligations on account of real estate purchased and the equipment trust, and the issue was made subject to the consent of a majority of holders of first series.

The Minneapolis and Duluth bonds are $500 and $1,000 each ; all others $1,000 each. Interest on all bonds payable at Continental National Bank, New York : on bonds marked *a*, *b*, *c*, *d*, and *f* in gold. Principal of bonds marked *a* and *b* payable in Philadelphia ; all others in New York.

Annual meeting, first Tuesday in October ; books close September 1, and reopen day after the meeting. Registrar of stock, Central Trust Co., New York. Stocks and bonds listed on New York Stock Exchange.

In June, 1888, this company defaulted on its interest obligations, and the president of the company was appointed receiver.

History.—The Northern Pacific RR. Co. was chartered by Act of Congress in 1864. The construction of the road was begun in July, 1870, and early in 1874 there had been completed 530.50 miles of its line. The depression following the panic of 1873 caused a suspension of construction on the main line until the spring of 1879. Default was made in January, 1874, and in 1875 the company was reorganized. On August 22, 1883, the main line was completed from N. P. Junction to Wallula Junction, and on the 9th of September following, that event was formally celebrated. The line between N. P. Junction and Duluth, 23.50 miles, is owned jointly with the St. Paul and Duluth RR. Co., each company contributing to its maintenance on the basis of train mileage. (See MANUAL for 1885, page 718, for full history of this company.) For statement showing the progress of construction on the main line and branches, see MANUAL for 1886, page 10, and MANUAL for 1888, page 861.

A traffic contract with the Wisconsin Central, going into effect July 1, 1889, and to endure for 99 years, provides for the joint working of the two lines as a through route to and from Chicago. If the net earnings of the Wisconsin Central exceed 35 per cent., one-half the excess goes to the Northern Pacific; but if the net earnings fall below 32½ per cent., one-half of the deficiency is charged to the Northern Pacific and is only paid out of future profits received under the contract.

The following is from the report for the year ending June 30, 1888:

It was stated in the last report that arrangements had been made with Hon. S. T. Hauser and associates for the construction of four branch roads in Montana, aggregating 118.3 miles in length. The contractors were paid one-half their cost in the bonds of the branch companies at par, and it was agreed that the other half should be paid in freights over the branch roads, and the Northern Pacific Railroad. There has been already paid to the contractors in freights $359,549.07, leaving $893,676.93 to be paid. This last amount appears in the Balance Sheet in Accounts Payable.

At the date of this report arrangements have been made for the acquisition of these four branch roads by the Northern Pacific and Montana Railroad Company, and the issue by the latter company of its 6 per cent. first mortgage bonds at the rate of $25,000 per mile secured by a mortgage on the roads above named, and certain other branch roads in Montana, the construction of which is proposed. The total amount of Northern Pacific and Montana Railroad Company's bonds on the 118.3 miles now constructed is $2,957,500. The sale of these bonds is under negotiation, and when sold the proceeds will be applied to pay off the outstanding bonds of the four branch companies, and the balance of the indebtedness to Hauser and associates.

The bonds are dated September 1, 1888, due September 1, 1938, interest payable in gold in New York, March and September. Principal and interest guaranteed by the Northern Pacific RR. Co. There is provision for a sinking fund for purchase of bonds after September 1, 1898, if they can be bought in the market at 105 and accrued interest, but no bonds can be called before maturity. Trustee, Farmers' Loan and Trust Co., New York.

The St. Paul and Northern Pacific Ry. and the lines built by the Oregon and Transcontinental Co. are controlled under agreements, the terms of which are given in the statements for the several lines. The results of their operations during the past fiscal year and the concurrent liability of the Northern Pacific RR. Co. are shown elsewhere in this statement.

The preferred stock is convertible, at par, into any lands of the company, east of the Missouri, in Minnesota and Dakota, and is also extinguished by the proceeds of all such lands sold. This stock is entitled to 8 per cent. non-cumulative dividends from surplus earnings, after payment of all interest and sinking fund charges, cost of betterment and new equipment. Of the original issue of preferred stock—$51,000,000—$13,511,881.83 have been cancelled by land sales.

Construction.

Main Line.—The tunnel through the Cascade Mountains has been completed, and regular trains commenced to run through the tunnel May 27, 1888.

The bridge across the Columbia River at Kennewick has been completed. There is now an unbroken rail connection from Ashland, on Lake Superior, to Tacoma, on Puget Sound.

Branch Roads.—The Duluth and Manitoba Railroad has been extended from Grand Forks to the international boundary line. The total length of the road is 201.75 miles, with two spurs each 2½ miles long.

The Spokane and Palouse Ry. has been extended from Belmont to Genesee in Idaho, 61 miles.

A spur has been constructed from a point on the main line near Livingston, to the coal mines at Cokedale, 3.6 miles.

The Helena, Boulder Valley and Butte RR., 30 miles, the Helena and Northern RR., 12¼ miles, the Drummond and Philipsburg RR., 25.8 miles, and the Missoula and Bitter Root Valley RR., 50 miles, have been completed. These four roads have been sold to the Northern Pacific and Montana RR. Co., as before stated, and will be here after known under that name.

Land Grant.—This company received from Congress a land grant of 20 sections, or 12,800 acres to the mile within the States (Wisconsin, Minnesota and Oregon), and of 40 sections, or 25,600 acres to the mile within the Territories (Dakota, Montana, Idaho and Washington), through which its road passes. The nominal extent of this land grant is about 42,000,000 acres. By the construction of its road previous to June 30, 1879, the company claimed to have earned 10,579,200 acres—7,891,200 in Minnesota and Dakota, and 2,688,000 in Oregon and Washington Territory. Against this there had been certified to the company 746,390 acres. The total sales to same date had been 2,312,129 acres, of which 686,000 were sold before the reorganization. By the completion of the main line of road the company acquires title to the total extent of the grant.

* Deficit in town-lot sales, amount of cancellations of previous years' sales being greater than amount of sales this year by $17.10.

† Pend d'Oreille Division, 352 town-lots and 219.72 acres.

The total number of purchasers of land during the year was 2,213, showing an average of 177.25 acres to each. The receipts from Minnesota and Dakota Division land sales included $297,581 in preferred stock, which is received at par for lands sold on that division. The amount of preferred stock received for lands was, in 1887, $272,111.82; in 1886, $552,273.33; in 1885, $1,196,484.08; in 1884, $1,725,570.70; in 1883, $159,668.30; and in 1882, $403,456.75.

The land grant to the company was conditioned upon the completion of its road prior to July 7, 1876; but subsequently an extension of three years was granted.

Within the States the company was allowed to go beyond the 20-mile limits, provided the 20 sections of the public or unoccupied lands could not be found within those limits, and within the Territories the company was allowed to go beyond the 40-mile limits.

Sales during 1887–88, 407,969.83 acres; amount, $1,450,040.71; average per acre, $3.52. Sales cancelled, 15,713.82 acres, representing $63,972.06 deferred payments; rebates for improvements, $5,201.11. Town lot sales, 525 lots and 219.72 acres, for $114,105.50. Timber and miscellaneous sales, $96,903.55.

Following is the acreage selected and certified to the company up to June 30, 1888:

State or Territory.	Place Limits.	Indemnity Limits.	Total.
Wisconsin	2,195.30	6,436.75	8,632.05

The dividend certificates fell due January 1, 1888, and $1,274,500 were extended to January 1, 1907, the company, however, reserving the right to pay off the principal on any interest day after 1892, and agreeing to include them in any mortgage prior to their redemption.

The *Missouri Division bonds*, in addition to being a first lien on that division of the *railroad* are further secured by a mortgage on the lands appertaining thereto; and these bonds are receivable at par and accrued interest in purchase of said lands. The bonds may also be retired at any time with proceeds of land sales, or may be called in after five years from date of bonds to the amount of one per cent. per annum for sinking fund. The original issue provided for was $2,500,000, being at the rate of about $12,000 per mile. The decrease from this amount to that shown above was the result of the application of proceeds of land sales, etc. Denominations, $100, $500 and $1,000. Holders of coupon bonds may register same. The amount of bonds provided under the *Pend d'Oreille Division* mortgage was $4,500,000—$20,000 per mile. Denominations, $100, $500 and $1,000. Similar conditions apply to these bonds as to those of the Missouri Division. The *general mortgage bonds* are issued at the rate of $25,000 per mile of finished road only, secured by mortgage on the entire property (Central Trust Co., trustee), except the lands in Minnesota and Dakota east of the Missouri River, which, until default shall occur in any of the provisions of the general mortgage, are pledged to the redemption of the preferred stock. Provision is also made for a reserve of these bonds sufficient to retire the issue of bonds under the Missouri and Pend d'Oreille Divisions mortgages. A cumulative sinking fund of *one* per cent. per annum of their amount, commencing five years after the date of the bonds, payable to the trustees, is also provided. Redemptions for the sinking fund will be made by purchase at the current market price, not, however, exceeding 110 and interest, and if bonds cannot be purchased at that price, the trustees may designate by lot and call in bonds for redemption at 110 and interest. These bonds are receivable for lands at 110. Denominations—coupon, $1,000, with provision for registration; registered certificates (principal and interest), $5,000. The *second* and *third mortgage bonds* are of similar denominations.

In addition to its bonded debt, as above, the Northern Pacific RR. Co. is liable under lease agreement for interest on bonds of the St. Paul and Northern Pacific RR. Co., of which there were outstanding on June 30, 1888, $7,188,000; and, under joint guarantee, for interest on $2,853,000 bonds of the Northern Pacific Terminal Co. of Oregon; and, under guarantee, for interest and sinking fund charges on bonds of branch roads, amounting to $18,768,000 on the 1,084.82 miles in operation at the close of fiscal year, as shown in the following statement:

FARGO AND SOUTHWESTERN RAILROAD.—Fargo, Dak., to La Moure, Dak., 87.40 miles. Completed to La Moure, July 30, 1883. Projected to Fort Yates, 200 miles from Fargo. This road, the Helena and Jefferson County Railroad, the Jamestown and Northern Railroad, the Little Falls and Dakota Railroad, the Northern Pacific, Fergus and Black Hills Railroad, the Rocky Mountain Railroad of Montana, and the Sanborn, Cooperstown and Turtle Mountain Railroad constitute a system of branch roads constructed in the interests of the Northern Pacific RR. Co. by the Oregon and Transcontinental Co., and operated by the Northern Pacific Company, which agrees that, after the expiration of two years from the completion of each section of the branch roads, the net earnings thereof shall amount in each year to enough to pay the interest on the bonds issued for construction, and the sinking fund charges as they become payable, until the bonds are paid. The capital stock of each branch company is deposited in trust until the bonds of that company shall be paid, when its entire stock becomes the property of the Northern Pacific RR. Co., free from all charges, that company in the meantime having the sole power of voting the stocks and receiving dividends thereon. Capital stock, $20,000 per mile; funded debt, 1st mortgage 6 per cent. 40-year gold bonds, due October 1, 1922, interest April and October, $20,000 per mile. Robert Harris, *President;* George H Earl, *Secretary;* Geo. S. Baxter, *Treasurer*, New York, N. Y.

HELENA AND JEFFERSON COUNTY RAILROAD.—Jefferson Junction to Wickes, Mont., 20.10 miles. Road completed December, 1883. Operated by Northern Pacific RR. Co. See Fargo and Southwestern RR. ST. PAUL AND NORTHERN PACIFIC RAILWAY.—Brainerd, Minn., to St. Paul, Minn., 139.78 miles; total track, including branches, etc. (steel), June 30, 1888, 218.42 miles. Chartered as Western RR. of Minnesota, January 29, 1874; road opened from Brainerd to Sauk Rapids, 60.5 miles, November 1, 1877. The company has a land grant adjacent to the line between Brainerd and Sauk Rapids, of which about 210,000 acres remain unsold. On May 9, 1883, company was reorganized under the present name, and the road leased for 999 years to the N. P. RR. Co., at a rental of 40 per cent. of gross earnings, guaranteed to be equal to bond interest. In 1882, the N. P. RR. Co. purchased, in the interest of this company, 43 feet of the right of way of the St. Paul, Minneapolis and Manitoba RR. Co., from Sauk Rapids, southeast to Manitoba Junction, and shortly after its reorganization this company began the construction of an extension of its line from Sauk Rapids *via* Manitoba Junction and Minneapolis to St. Paul, which was completed and opened to Minneapolis July 1, 1884, and to St. Paul (an addition of 12.28 miles) February 1, 1886. To pay for the construction of the extension to Minneapolis and St. Paul, for the purchase of real estate, to provide terminal facilities in and between those cities, and for various other purposes authorized by the amended Articles of Incorporation, the company made provision for an issue of $10,000,000 1st mortgage 6 per cent. 40-year gold bonds (coupon or registered), due February 1, 1933, interest payable, coupon, February and August, and registered, February, May, August and November, at office of Winslow, Lanier & Co., New York. Of these bonds, $6,750,000 have been issued to provide for the extension and improvements above mentioned. The prior lien Western Minnesota bonds (original issue, $740,000), outstanding July 1, 1888, amounted to $438,000, and for their redemption an equal amount of general mortgage bonds is reserved by the trustee. The entire outstanding capital stock of the company ($5,000,000) is held in trust by the Farmers' Loan and Trust Co., and power to vote it has been given to the Northern Pacific RR. Co. Cost of road to June 30, 1888, $12,103,666.92. Since 1877, regular cash dividends have been paid, averaging over 6 per cent. per annum, as shown in the following statement:

Funded debt consists of $1,000,000 1st mortgage 5 per cent. 50-year $1,000 coupon bonds, due August 1, 1931, interest payable February and August, and $1,875,000 2d mortgage 5 per cent. 30-year $1,000 coupon bonds, due October 1, 1917, interest payable April and October. The bonds are secured by a first lien on the whole main line (subject to joint ownership of 23.3 miles by Northern Pacific RR.) and the Knife Falls Branch. Capital stock authorized, $12,000,000—common, $6,000,000, and preferred, $6.000,000. The preferred stock is entitled to dividends, payable semi-annually on the first days of January and July, equal to the net income of the company from all sources, but such dividend is limited to seven per cent. per annum. This dividend is a first charge on the net profits of the road, and it is provided that in the event of a deficiency of such net profit to pay the stipulated seven per cent., the net income from stumpage and land sales shall be applied to the dividend fund. Provision is also made that when not so applied the net income from stumpage and land sales each year, when equal to at least $10,000, shall be used in the purchase of preferred stock, if said stock be below par in the market, and to be drawn as in the operation of the sinking fund if it be above par. In addition to this provision for its gradual reduction, preferred stock is receivable for lands at par. Common stock is entitled to dividends from the earnings of the railroad, limited to six per cent. in any one year, after the payment of preferred stock dividends, any surplus then remaining to be applied to purchase of preferred stock. Each share of preferred and every three shares of common stock is entitled to one vote at all meetings of the company.

Annual meeting, third Monday in June. Books close for annual meeting and for dividend payment twenty or thirty days prior to either. Registrar of stock and trustee of bonds, Central Trust Company, New York. Transfer agent, Fourth National Bank of New York. Stocks and bonds listed on New York Stock Exchange.

DIVIDENDS.—The company paid its first dividend on preferred stock Nov. 1, 1881, being at the rate of 10 per cent. in preferred stock, and amounting to $470,560.69, such dividend being in full to July 1, 1881. Cash dividends of 7 per cent. per annum were regularly paid thereafter upon the preferred stock, except for two semi-annual periods, for which 7 per cent. was paid in preferred stock, amounting to $350,203, on Aug. 1, 1884. On July 5, 1887, a stock dividend of 15 per cent. was paid on the common stock, amounting to $604,800, and being in full to January, 1887; on same date, 3 per cent. cash dividend No. 1 was paid on common stock; for six months to July 1, 1887, $120,960. Total amount paid in dividends to January 15, 1889, $3,942,900.19, of which common stock, $604,800; preferred stock, $820,763.69, and cash, $2,517,336.50.

Land Department.—Congressional grant, 815,482.75 acres, and State (swamp land) grant, 655,473.71 acres—total, 1,470,956.46 acres. Grants yet to inure: Congressional, 176,517.25; State, 38,926 29 —total, 215,443.54 acres. Total grants received and to inure, 1,686,400 acres. Unsold December 31, 1887, 1,110,394.80 acres. During the year 1888 there were received from the State, 1,048.98 acres. Land contracts cancelled during 1888, 382.26 acres; sold, 35,494.73 acres for $185,789.46, leaving 1,076,331.31 acres unsold December 31, 1888. Preferred stock is received at par for lands sold.

Land and Stumpage Income Account for 1888.—Cash receipts from stumpage, $33,868.68; from land sales, $11,279.69; from land contracts, $153,542.41; from land notes, $58,479.76; from stumpage notes, $111,669.61; land and stumpage interest, $17,195.66—total, $386,035.81. Expenses, $18,089.34. Net land receipts, $367,946.47. Add balance from last year, $546,537.72. Available revenue, $914,484.19. Deduct the following amounts which were expended during the years 1887 and 1888 for improvements, construction, etc., charged during the year 1888 to cost of road and equipment, and placed to credit in an account entitled "Land and Stumpage Income expended on improvements, construction, etc., prior to July 1, 1888," viz.: Balance to credit of Land and Stumpage income, January 1, 1887, $4,611.85; net receipts from Land and Stumpage for six months ending June 30, 1887, $296,182.89; net receipts from Land and Stumpage for six months ending December 31, 1887, $245,742.98; balance to credit of Land and Stumpage income, June 30, 1888, $242,028.68—total, $788,566.40. Net income, $125,917.79. Less (dividend No. 13, payable July 5, 1888, on preferred stock, $63,-

566.52; dividend No. 14, payable January 15, 1889, on preferred stock, $14,811.82), $78,378.44—balance to credit of Land and Stumpage income, December 31, 1888, $47,539.45.

Railroads Owned or Operated by the St. Paul and Duluth RR. Co.

DULUTH SHORT LINE RAILWAY.—Thompson, Minn., to Oneota, Minn., 13.74 miles; West Superior Junc., Minn., to West Superior, Wis., 3.84 miles, including bridge over St. Louis River. Gauge, 4 ft. 8½ in. Rail (steel), 67 lbs. Chartered July 1, 1886. Construction contracts were let in December, 1886, and the road was completed in Sept., 1888. It is leased for 99 years from September 1, 1886, to the St. Paul and Duluth RR. Co. at an annual rental of $25,000, being 5 per cent. interest on bonds. Capital stock ($100 shares), $600,000 (all owned by the St. P. & D. RR. Co.); funded debt, first mortgage 5 per cent. 30-year bonds, due September 1, 1916, interest payable March and September, $500,000—total, $1,100,000. Cost of road, $1,100,000. The bonds are guaranteed, principal and interest, by the St. Paul and Duluth RR. Co.; principal payable at the office of the Central Trust Co., New York. Coupon payable at New York office, 32 Nassau Street. They are for $1,000 each, and are coupon, with privilege of registration. Trustee, Central Trust Co., New York. Annual meeting, first Monday in June. R. S. Hayes, *President*; William H. Coleman, *Secretary and Treasurer*. Corporate Office, St. Paul, Minn.

MINNEAPOLIS AND DULUTH RAILROAD.—White Bear Lake to East Minneapolis, 13.50 miles. The construction of this road was originally authorized under the charter granted to the Minnesota Western RR. Co., dated March 3, 1857. By Act of February 4, 1870, that company was empowered to divide into separate and distinct companies and to adopt different names. (See Minneapolis and St. Louis RR.) The construction of this road was begun in April, 1871, and on August 15 of that year it was opened for business On its completion it was leased to the Lake Superior and Mississippi RR. Co., but on the default of that company it reverted to the control of its stockholders, who subsequently leased it to the Minneapolis and St. Louis Company. In May, 1881, it was merged into the latter corporation, and shortly thereafter the St. Paul and Duluth acquired control of it under the terms of a lease by which the rental is a percentage of gross earnings on local business—in 1888, $17,176.59.

STILLWATER AND ST. PAUL RAILROAD.—White Bear to Stillwater, Minn., 12.50 miles. Incorporated January 24, 1867; road opened December 9, 1870. Leased to St. Paul and Duluth RR. Co. for 999 years from January 1, 1871, for $28,000 a year. Rental reduced to $20,000 a year, January 1, 1878. Capital stock, (owned chiefly by St. P. & D. RR. Co.), $400,000; funded debt, 1st mortgage 7 per cent. 30-year gold bonds, due December 1, 1900, $400,000—total, representing cost of road, etc., $800,000. Bonds outstanding December 31, 1888, $262,500, interest on which is paid from annual rental. State land grant, 65,113 acres. Sold and contracted to be sold to December 31, 1888, 63,226 acres for $217,890.93, leaving unsold, 1,887.05 acres. R. S. Hayes, *President*; P. S. Harris, *Secretary and Treasurer*, St. Paul, Minn.

TAYLOR'S FALLS AND LAKE SUPERIOR RAILROAD.—Wyoming to Taylor's Falls, Minn., 20.50 miles; total track, 22 miles. Chartered February 5, 1875, with power to construct a line from a point on the line of the Lake Superior and Mississippi RR. (now St. Paul and Duluth) to the St. Croix River at Taylor's Falls. The control of this organization afterward became vested in the Minneapolis and St. Louis RR. Co., and, about 1880, steps were taken toward the construction of the road from the St. Paul and Duluth line at White Bear Lake to Taylor's Falls, the object being to complete a connection between the Minneapolis Road and the St. Paul and Omaha's North Wisconsin line, or ultimately to establish an independent line to Lake Superior. At this time the St. Paul and Duluth had under construction a branch line to Taylor's Falls from Wyoming on its main line, and to obviate the construction of a competitive line to the same point, it entered into an agreement with the Minneapolis Company May 1, 1880, under which the construction of the line from White Bear Lake to Taylor's Falls was abandoned, and the line from Wyoming to Taylor's Falls was built in its place. By this agreement the rights, franchises, land grant, etc., attached to the proposed branch of the St. Paul and Duluth RR. Co. were transferred to the Taylor's Falls and Lake Superior RR. Co., under whose charter the line was built. The road was completed and opened November 8, 1880, its cost having been $203,064.58, which was advanced jointly by the Duluth and the Minneapolis Companies, each of which was to receive, as representing such half interest, one-half of an issue of bonds, to the amount of $246,000, made by the Minneapolis and St. Louis and secured on the Taylor's Falls Road, and one-half of the stock of the Taylor's Falls Company. On October 12, 1880, the line was leased to the Minneapolis Company at 30 per cent. of the gross earnings, from local business. Later in the same year the Duluth Company acquired a half-interest in this lease, and on August 1, 1888, acquired the remaining half interest that lease, as well as full title to the proportion of the Taylor's Falls stock previously owned by the Minneapolis Company. Immediately following this transfer the St. Paul and Duluth purchased and cancelled the $246,000 Minneapolis and St. Louis bonds, which were secured by a lien on the road, the Taylor's Falls and Lake Superior RR. Co. issuing, in order to meet the liability thus incurred, to repay the St. P. & D. for its share of of construction expenses, $210,000 1st mortgage 6 percent. 30-year $1,000 coupon bonds, due January 1, 1914, interest payable from rental January and July (guaranteed by lessee). Capital stock (all owned by St. P. & D. RR. Co.), $405,000. The company has a land grant of seven sections per mile of road—of which unsold December 31, 1888, 67,440 acres. R. S. Hayes, *President*; E. L. Dudley, *Vice-President*; Philip S. Harris, *Treasurer*, St. Paul, Minn.; George W. Seymour, *Secretary*, Taylor's Falls, Minn.

Since the close of the fiscal year the company has made an issue of $8,000,000 collateral trust gold bonds, dated August 1, 1888, due August 1, 1898, interest at 5 per cent. payable February and August.

The first mortgage St. Paul and Pacific bonds (St. Anthony to Watab) are also secured by a 2d mortgage (now a first lien) on the line from St. Anthony to St. Paul.

The first mortgage sinking fund bonds are redeemable at 105 and accrued interest from proceeds of land sales. They are $100, $500 and $1,000 bonds, interest payable January and July, principal and interest payable in gold in New York or in London. Trustees, John S. Kennedy, James A. Roosevelt and R. B. Angus. The second mortgage bonds are for $1,000 each, and are payable in gold in New York; interest payable April and October in New York. Trustees, John S. Kennedy and Samuel Thorne. The Dakota Extension bonds were issued in November, 1880, and are secured on certain lines in Dakota and on the Morris and Brown's Valley and the Barnesville and Moorhead branches in Minnesota. They are

limited to an issue of $5,676,000 at the rate of $12,000 per mile of single track. They are $1,000 gold coupon bonds, with privilege of registration, principal and interest payable in New York, interest payable May and November. Trustee, Central Trust Co., New York.

The consolidated mortgage bonds are limited in issue to $50,000,000, of which $19,426,000 are reserved to retire prior liens, $574,000 were sold, $10,000,000 were issued to stockholders in the nature of a dividend at the rate of 10 per cent. of their par value, and the remaining $20,000,000 were reserved to be issued only on new road at the rate of $15,000 per mile of main track and $12,000 per mile additional for second track. They are $1,000 bonds, coupon with registration privilege, principal and interest payable in New York. Trustee, Central Trust Co., New York.

In July, 1886, bonds to the amount of $300,000 were issued under the consolidated mortgage upon 20 miles of new railroad, making the total amount bearing 6 per cent. interest, $13,344,000. Since then, at various times, additional bonds to the amount of $12,100,000 have been issued under this mortgage on 808 miles of new road, the interest on these latter bonds being at the reduced rate of 4½ per cent. per annum.

On June 1, 1887, this company executed a new mortgage to the Central Trust Co. of New York, Trustee, to secure an issue of $25,000,000 first mortgage 50-year bonds, to be known as Montana Extension bonds, in order to make provision for the extension of the line westward through the Territory of Montana. On June 30, 1888, $7,000,000 of these had been issued. The remainder of these bonds ($18,000,000) are to be issued only for the construction of new branches and extensions and for improvements, to an amount not exceeding the actual cost, and limited to $25,000 per mile. These bonds are gold, coupon ($1,000), and registered ($1,000 and $5,000), with provision for registration of coupon certificates. Interest payable June and December at Company's Office or Agency, New York, N. Y.

Annual meeting, third Thursday in August, in St. Paul, Minn. Books close about ten days before annual meeting and about two weeks before dividend payments, and reopen the day after each event. Stock may be voted if held at the time of the closing of the books before the meeting. Interest and dividends payable at the Company's Office, 40 Wall Street, New York, N. Y. Registrar of stock, Central Trust Co., New York. Stock and bonds listed on the New York and Amsterdam (Holland) Stock Exchanges.

THE KEOKUK AND HAMILTON BRIDGE COMPANY.

The Keokuk and Hamilton Bridge Company owns the bridge across the Mississippi River at Keokuk, Iowa, to Hamilton, Illinois, a substantial iron bridge built with a draw next the Iowa stem.

The Keokuk and Hamilton Bridge Company is a consolidation of the Hancock County Bridge Company, a corporation organized by the Legislature of the State of Illinois, approved February 18, 1865, and of the Keokuk and Hamilton Mississippi Bridge Company, a corporation organized under the general incorporation laws of Iowa, January 15, 1886, at Keokuk, Iowa.

By contract dated January 19, 1869, made between the Toledo, Peoria and Warsaw Railroad Company, the Des Moines Valley Railway Company, the Columbus, Chicago and Indiana Central Railway Company, and the Toledo, Wabash and Western Railway Company and the Keokuk and Hamilton Bridge Company (the liability of the Columbus, Chicago and Indiana Central Railway Company having been assumed by the Pittsburgh, Cincinnati and St. Louis Railway Company and the Pennsylvania Railway Company by agreement signed for those companies January 22, 1869), and by a modification of said contract of January 19, 1869 by a supplement agreement June 6, 1871, it was agreed that the Keokuk and Hamilton Bridge Company should build, maintain and operate the bridge and pay taxes and expenses of operation, and the other four parties should use it in perpetuity, and pay tolls for use as by a schedule made part of the agreement. And should any deficiency arise in the income of the bridge to produce a sufficient amount to pay operating expenses and 8 per cent. interest on $1,000,000 of bonds issued for construction, that the four parties, each for itself and not for the others, should pay one-fourth part of the deficiency, settlement to be made each six months.

Since that time the Des Moines Valley Railway Company, the Toledo, Peoria and Western Railroad Company, and the Toledo, Wabash and Western Railroad Company have all become insolvent and passed out of existence, and no longer pay the deficiency required by the agreement. The Toledo, Peoria and Western Railroad Company (the present owner of the Toledo, Peoria and Warsaw Railroad) and the Wabash, St. Louis and Pacific Railroad Company (the present owner of the Toledo, Wabash and Western Railroad) are the only com-

panies which use the bridge for railway purposes. The bridge is also used for wagon and foot passengers.

The Pittsburgh, Cincinnati and St. Louis Railroad Company and the Pennsylvania Company were sued in the United States Circuit Court for deficiency under the contract of January 19, 1869, and its modifications; and judgments being entered against them for one-fourth the deficiency, the defendants appealed to the United States Supreme Court, where a decision in the case was rendered May 18, 1889, affirming the decree of the lower court, and giving the opinion of the Supreme Court that "the bridge contract is valid and binding as between the parties to this suit."

Financial Statement.—Capital stock, $1,000,000; funded debt, 8 per cent. bonds, $1,000,000.

NOTE.—The amounts afloat of Kansas Pacific bonds, only, are given in the above statement. The following are held by the trustees of the consolidated mortgage: Leavenworth Branch bonds, $583,000; income bonds, $217,750; income (subordinated) bonds, $3,948,400; Cheyenne Branch bonds, $1,967,000—total, $6,715,150. Amount issued and unpaid December 31, 1888, $37,174,805. Of the Denver Extension bonds, $796,000; of the Eastern Division, $48,000, and of the Middle Division, $41,000, on which the Union Pacific pays interest, are held in the Kansas Pacific Denver Extension mortgage trust as an investment of the sinking fund.

The first mortgage 6 per cent. bonds were issued during construction, and are secured on the road and equipment. They are $1,000 gold coupon bonds; interest in New York and Boston; quoted also at London and Dublin.

The U. P. land grant bonds are secured by first mortgage on 10,514,789 acres of land. They are $1,000 coupon bonds, principal and interest payable in New York and Boston; quoted at London and Dublin. They are redeemable by purchase out of proceeds of sale of mortgaged lands.

The sinking fund bonds are third mortgage on 1,038 miles of main line, and second mortgage on the lands. Of the total issue as above, $11,789,000 are coupon and $2,426,000 registered. They are redeemable September 1, 1893. Principal and interest at New York and Boston; quoted at London. $1,000,000 of these bonds, on which the company pays interest, are held by the Union Trust Company, trustee, under the sinking fund mortgage indenture of the Union Pacific RR. Co., bought in with funds deposited with it by the trustee under the land grant mortgage of the Union Pacific RR. Co.

The Omaha Bridge bonds are secured by first mortgage, specially authorized by Act of Congress, on the bridge across the Missouri from Omaha to Council Bluffs, and approaches thereto. They are coupon $1,000 or £200 bonds redeemable in April, 1896, principal and interest at London Agency, or in New York and Boston, at the option of the holder. They bear the indorsement of the London and San Francisco Bank. They are quoted at London and Glasgow. Interest is free from government tax.

The 6 per cent. collateral trust bonds are limited in issue to 80 per cent. of 1st mortgage bonds of Omaha and Republican Valley, Colorado Central, and Utah and Northern, deposited in trust as security. They are $1,000 coupon bonds, dated July 1, 1879, due in 29 years, interest in New York and Boston. Whenever the trustees have $10,000 in hand they are to purchase these bonds at par and 5 per cent. premium; to be drawn for redemption at that price if not offered at par. Trustee, Union Trust Co.

The Kansas Pacific Eastern Division, Middle Division, and Leavenworth Branch bonds are for $1,000 gold each; principal and interest payable in New York.

The Denver Extension bonds are also a 1st mortgage on 3,000,000 acres of land. They are $1,000 coupon bonds; interest, free of government tax, in New York, London or Frankfort, at option of holder; principal in New York.

The Kansas Pacific consols are $1,000 gold coupon or registered bonds. They are secured by mortgage on the line from Kansas City to Denver, and upon the Leavenworth branch, 673 miles in all, subject to the divisional first mortgages and the government subsidy bonds; also upon the lands lying west of the 380th mile post, subordinate to the Denver Extension bonds. They are a first lien on the lands adjacent to the first 380 miles of road. They are further secured by deposit in trust of bonds and stocks ($3,158,000 bonds and $1,780,000 stock) of tributary roads, aggregating 227 miles, and about $2,000,000 in land notes. The authorized issue is $29,500,000, of which $24,000,000 are to be used for the conversion and consolidation of prior mortgages, and the balance, together with any surplus of the $24,000,000, to be issued for construction and equipment of new roads. Trustees, Jay Gould and Russell Sage.

The collateral trust of 1883 are gold $1,000 bonds dated April 2, 1883, due December 1, 1907, interest at New England Trust Co., Boston. They are limited in issue to 90 per cent. of bonds of the Colorado Central, Utah and Northern, Omaha and Republican Valley, Utah Southern Extension RR. Co., Denver, South Park and Pacific, and Kansas Central, deposited in trust as security.

Government Sinking Fund.—Under the Act incorporating the company, it was required to pay over to the government 5 per cent. of its net earnings ; and also one-half of the charges on account of the government transportation. By an Act of Congress, known as the Thurman Bill, passed May 7, 1878, it was provided that

"There shall be carried to the credit of the said sinking fund, on the first day of February in each year, the one-half of the compensation for services hereinbefore named, rendered for the government by the said Union Pacific RR. Co., not applied in liquidation of interest ; and in addition thereto, the said company shall, on said day in each year, pay into the treasury, to the credit of said sinking fund, the sum of $850,000, or as much thereof as shall be necessary, to make the 5 per centum of the net earnings of its said road payable to the United States under said Act of 1862, and the whole sum earned by it, as compensation for services rendered for the United States, together with the sum by this section required to be paid, amount in the aggregate to 25 per centum of the whole net earnings of Railroad Company, ascertained and defined as hereinbefore provided, for the year ending on the 31st day of December next preceding."

With a view to simplifying the system and reducing the number of auxiliary companies, it is proposed, as soon as it can legally and conveniently be done, to consolidate into one corporation the Oregon Short Line, the Utah and Northern, the Utah Central, the Salt Lake and Western, the Utah and Nevada, and the Ogden and Syracuse Ry. Cos. Those corporations own or control, in the aggregate, 1,436 miles of road. A controlling interest in the stock of the consolidated company will be held in the treasury of the Union Pacific, and harmony and co-operation between the two will therefore be assured.

* For purposes of comparison, the figures for 1885 have been revised by deducting the earnings of that portion of the railroad of the Utah and Northern Railway Company north of the Silver Bow, and of the railroad of the Montana Railway Company, for the months of August to December, inclusive, this portion of the Union Pacific system having been operated by the Montana Union Railway Company since August 1, 1886: the earnings of the Montana Union Railway Company are not included in those of the system. † For the same reason, the figures for 1888 have been revised by deducting the earnings and expenses of that portion of the railroad of the Utah & Northern Railway Co. north of Silver Bow, and of the railroad of the Montana Railway Co., for the months of January to July, inclusive.

COMPANIES OTHER THAN RAILROAD COMPANIES IN WHICH THE UNION PACIFIC RAILWAY COMPANY HAS A PROPRIETARY INTEREST, AND MISCELLANEOUS INVESTMENTS.

The Union Pacific Railway Co. has $194,842.42 invested in coal and other lands which are not a part of the lands originally granted to the company by the Government. It also has investments in the Kansas & Eastern Railroad Construction Co. and the Nevada Improvement Co., which have little, if any, value. During the past year it has received the entire capital stock (100 shares of $100 each) of the Morrison Stone, Lime & Town Co., in partial settlement of accounts in its favor. The assets of the Town Company consist of certain lands in Colorado, which are estimated to be worth about $13,000. The company retains its interest in the contract with Pullman's Palace Car Co. It also owns certain precinct and county bonds.

Atchison Union Depot and Railroad Company.—The Union Pacific is interested in this company only through the Central Branch Union Pacific RR. Co., which owns one-eighth of the capital stock of $72,000, seven other railroad companies owning the remaining seven-eighths.

Co. came into control by purchase of stock and completed the line.

The Union Pacific refused in 1888 to advance funds to meet interest charges, and default was consequently made on November interest on first mortgage bonds. A plan of reorganization has been agreed upon, whereby the Denver, South Park and Pacific will be foreclosed and a new company organized under the name of the *Denver, Leadville and Gunnison Ry. Co.* That company will issue $11,100 per mile 4½ per cent. bonds, and the Union Pacific will issue against them $10,000 per mile of its 4½ per cent. collateral trust bonds, $1,800,000 of which will be given in exchange for first mortgage bonds of the Denver, South Park and Pacific, and the balance will be held in the treasury of the Union Pacific as an equipment and improvement fund. The Union Pacific will cancel and surrender the consols held by it, receiving in exchange the entire capital stock, $3,000,000, of the new company. The Union Pacific also surrenders all claims against the Denver, South Park and Pacific for floating debt.

History.—Consolidation December 28, 1881, of the California Southern RR. Co., chartered October 12, 1880, and the California Southern Extension RR. Co., chartered May 23, 1881. Road opened from National City to Fall Brook, 67 miles, January 2, 1882; to Colton, 126.86 miles, August 21, 1882; to San Bernardino, September 18, 1883, and to Barstow, November 15, 1885.

The extension from San Bernardino to Barstow, 80.67 miles, where connection is made with the Atlantic and Pacific RR., was built under an agreement made with the Atchison, Topeka and Santa Fé RR. Co., whereby the latter company provided the means for the construction of such extension, the California Southern RR. Co. reimbursing it with new first

mortgage 6 per cent. bonds limited to $10,000 per mile of the whole road, to an amount equal to the cost of building the new line and to refund any advances made to put the whole road in order. Under the agreement with the Atchison, stock was issued to that company to an amount equal to that held by the California Southern stockholders.

Rolling Stock, December 31, 1888.—Locomotive engines, 7. Cars—passenger, 7; baggage, mail and express, 3; freight (box, 31; platform, 47), 78; other cars, 7—total, 95.

DENVER AND RIO GRANDE WESTERN RAILWAY COMPANY.

Main Line of Road.—Colorado State Line to Ogden, Utah.....310.10 miles.

Branches:
- *Bingham:* Bingham Junction to Bingham, Utah 16.3
- *Little Cottonwood:* Bingham Junction to Alta, Utah.....18.2
- *Pleasant Valley:* Pleasant Valley Junction to Coal Mines...17.3
- Other Branches.....11.1— 62.90 miles.

Total length of all lines in Utah.....373.00 miles. Gauge, 3 ft. Rail (steel, 330 miles), 40, 45 and 56 lbs. to the yard.

History.—Organized in 1881, and in 1882 purchased the Utah and Pleasant Valley and Wasatch and Jordan Valley RRs. Leased to Denver and Rio Grande Ry. Co. August 1, 1882, lease abandoned July 11, 1884, default having been made in March previously, and a receiver appointed July 12, 1884. Company reorganized subsequently, bondholders accepting 5 per cent. scrip for all overdue coupons up to March 1, 1886, for an average of 50 per cent. of coupons up to September 1, 1889, the other 50 per cent. to be paid in cash, and full cash payments to be resumed September 1, 1889, the scrip being redeemable at the company's option within ten years from September 1, 1885.

A plan for the relief of the company has been proposed which calls for the issue of $7,500,000 common stock in exchange for the present issue, $7,500,000 preferred stock, and $16,000,000 trust mortgage 4 per cent. 50-year gold bonds, due July 1, 1939, interest payable January and July. The present bonds will receive dollar for dollar in new bonds and 60 per cent. in preferred stock as compensation for reduction in interest and to represent coupon certificates. The proceeds of $5,500,000 of the new bonds will be used in widening the gauge, providing new equipment and for extensions. The balance of the preferred stock and new bonds will be reserved for future use. In the reorganization the name of the company will be changed to *Rio Grande Western Ry. Co.*, and in case of default in interest on new bonds, the bondholders will have the power to appoint a majority of the board of directors. The old bonds will be kept alive till all are exchanged, as security for the new issue.

Operations for year ending December 31, 1888.—Train mileage and passenger traffic not reported. Gross earnings, $1,369,892; operating expenses, $991,729; net earnings, $378,163. Payments not reported.

Total length of all lines operated .....182.0 miles.

Sidings, 8 miles. Gauge, 3 ft. Rail, 28 and 35 lbs.

History.—This narrow-gauge road is owned by the Oregonian Ry. Co., Limited, a Scotch corporation organized in 1879, and having its general office in Dundee, Scotland. The capital stock is £420,000 (par, £10), of which there have been paid £6 per share, or £192,000. There are also two issues of 6 per cent. bonds, dated 1880 and 1881, and in amounts £95,000 and £119,700 respectively. On October 1, 1881, the road was leased to the Oregon Railway and Navigation Co. for 92 years, at an annual rental of £28,000 and £600 for organization expenses. In May, 1884, the lessee repudiated the lease, alleging its invalidity, and refused to pay the rental then due. On November 15, 1884, the lessee ceased to operate the road, and surrendered to representatives of the Oregonian Ry. Co. In April, 1885, the road was placed in the hands of a receiver on application of the bondholders. The receiver was authorized in May, 1886, to borrow $100,000, and in November following an additional $50,000 to rebuild bridges and put the road in order. In the litigation between this company and the Oregon Ry. and Navigation Co., regarding the validity of the lease, the Oregon courts, in September, 1886, decided in favor of this company for £71,500 back rental. In January, 1887, connection was made with the Portland and Willamette Valley Road, running from Dundee Junction to Portland, 29.6 miles, and the roads are now operated as one. In June, 1888, the receiver was authorized to borrow an additional $125,000 to pay off accrued indebtedness and put new ties in road-bed and repair trestles and bridges; on November 19, 1888, a further issue of $25,000 certificates to complete work begun, and in January, 1889, a further issue of $18,000 for additional ties to repair the track.

The company has furnished the following:

"The company has in operation 136 miles of continuous road from Yaquina Bay to Breitenbush, where it the immense tract of magnificent timber which borders the railroad on either side all the way through and he summit divide of the Cascade Mountains. The increased fleet of steamboats on the Willamette River modates the business seeking this short cheap route to the sea by the Oregon Pacific Railroad and Yaquina San Francisco by the Oregon Development Co.'s Steamship Line, instead of by the long and expensive by way of the North and South Railroads through the Willamette Valley and Columbia River. The Willa- River being situated between the two lines of the Oregon and California Railroad and the two lines of the nian Railroad running north and south through the Willamette Valley, this company's steamboats on that rove that the Oregon Pacific RR. Co. can maintain profitable competition by the river at one-fifth the cost railroad parallel to it."

Funded debt consisted, June 30th, 1888, of $5,441,000 ($6,000,000 authorized) 1st mortgage 6 per cent. 30-year gold sinking fund $1,000 coupon bonds, due July 1, 1909, interest payable January and July, and $10,843,000 consolidated mortgage 5 per cent. gold coupon and registered 40-year $1,000 bonds, due June 1, 1925, interest payable June and December.

At above date, June 30, 1888, the mortgage indebtedness of this company per mile of road owned, 749.1 miles, was $21,738.08—$7,263.38 per mile of 1st mortgage bonds and $14,474.70 per mile of consols. Total annual interest charge on amount then outstanding, $868,610, or $1,159.54 per mile. Total annual interest and sinking fund charge, $962,150, or $80,179.17 per month.

The consolidated mortgage bonds are authorized at the rate of $25,000 per mile of completed standard-gauge road. The first 6,000 bonds issued under this mortgage—Nos. 1 to 6,000 inclusive—are deposited with the Farmers' Loan and Trust Co., trustee, against the $6,000,000 1st mortgage bonds.

In October, 1887, the company filed supplemental articles of incorporation covering several proposed lines in the State of Oregon and Territories of Washington, Idaho and Montana, and at the close of the year 1888 it had completed the following new lines: In Oregon, from Willows Junction to Heppner, 45.2 miles; in Washington Territory, from Riparia to La Crosse Junction, 24.6 miles; from Farmington to Rockford, 33.7 miles; from Seltice Junction to Oakesdale, 9.2 miles, and from Winona Junction to Palouse River, 1.5 miles—a total of 114.2 miles. Work is now under way on a line from Rockford, W. T., to Mullan, I. T., and it is proposed to extend it eventually to Missoula, Mont. Ter. Work is also in progress on a 50-mile branch in Pleasant Valley, W. T., and about 20 miles of it had been completed by May 1, 1889.

Annual meeting, third Monday in June, at Portland, Oregon. Books close about 25 days prior thereto, and reopen about June 21st. Dividends payable January, April, July and October 1, at the treasurer's office, New York, N. Y. Dividends declared generally twenty days before payment; books reopen day after payment. Whole number of dividends paid to date, 38. Voting power attaches to stock if held at time of closing of transfer books. Trustee of bonds and registrar of stock, Farmers' Loan and Trust Co., New York. Stock and bonds listed on New York Stock Exchange.

Union Pacific made considerable advances of track material in 1882 and 1883. That company was unable to meet its debts, and in 1885 the property was sold to the present company. The Union Pacific Ry. Co. advanced $4,490.01 in settlement of liens prior to its own, and received the entire capital stock of the company, 1,000 shares, and certain equipment and appurtenances owned by it. Road not operated during the past year.

SOUTHERN PACIFIC COMPANY.

History.—Chartered under the laws of the State of Kentucky, and company organized August 14, 1884. Authorized capital, $150,000,000. No bonds.

"ORGANIZATION.—The Southern Pacific Company is a corporation created by special charter from the State of Kentucky, authorizing it, among other things, to contract for and acquire, by purchase or otherwise, stocks, bonds, or securities of any company, corporation or association; to enter into contracts in respect to the construction, establishment, acquisition, owning, equipment, leasing, maintenance or operation of any railroads, telegraphs or steamship lines, or any public or private improvements; and to buy, hold, sell and deal in all kinds of private and public stocks, bonds and securities.

"The capital fixed by the charter was $1,000,000, with power to increase the amount from time to time, as might be determined by the board of directors, with the approval of at least two-thirds in interest of the stockholders. In 1884 the original amount of $1,000,000 was paid in cash, and the authorized capital was increased to $100,000,000. With the issue of $87,076,200 of this new stock, the greater part of the capital stock was acquired in the proprietary lines included in the Omnibus lease. For the purpose of acquiring the proprietorship of additional lines, the authorized capital was fixed in 1888 at $150,000,000.

"The practical operations of the company commenced March 1, 1885, on which date the Omnibus lease went into effect. On April 1st following, the lease of the Central Pacific lines went into operation. The leasehold terms are hereinafter stated."

The Southern Pacific Company acquired control of the Central Pacific, 1,690.52 miles, April 1, 1885; of the Southern Pacific, 1,441.30 miles, March 1, 1885; of the Atlantic System (excepting the New York, Texas and Mexican), 1,697.55 miles, March 31, 1885; of the New York, Texas and Mexican, September 1, 1885; and of the South Pacific Coast RR. July 1, 1887. The steamers of the company were acquired through Morgan's Louisiana and Texas Company. The following statement shows the mileage of all lines operated December 31, 1888:

"In addition to the above mileage, there are second tracks for 28.28 miles on the Northern Railway, for 8.96 miles of the South Pacific Coast Ry., and for 7.34 miles on the Central Pacific Railroad. There are also 32.97 additional miles of the Southern Pacific Railroad of California completed at the close of the year, but not in operation at that time.

"The line between Mojave, Cal., and the Needles, amounting to 242.51 miles, does not appear in the above table, though it is a part of the Southern Pacific Railroad of California, and is covered by its 30-year 6 per cent. bonds. This line is perpetually leased, and a contract is delivered for its sale to the Atlantic and Pacific Railroad Company. That company pays as rental an amount equal to the interest on the bonds which were issued on the line at $30,000 per mile. This rental, amounting to the annual sum of $436,266, appears in the income account of the Southern Pacific Company, as the interest paid by this company as lessee of the S. P. RR. includes that on all the bonds."

TERMS OF LEASES.

Omnibus Lease.—The lease which has received this name includes the lines forming nearly all of the Southern, or "Sunset," route from San Francisco to New Orleans by rail, and

thence to New York by steamer, together with their lateral lines and branches. The Southern Pacific Company agrees to maintain said roads, to pay all fixed and other charges, including interest on bonds and floating debt, and to divide the surplus net profits between the parties to the agreement, in the following proportions :

Southern Pacific Railroad Co. of California	26½ p. c.
Southern Pacific Railroad Co. of Arizona	12 "
Southern Pacific Railroad Co. of New Mexico	4 "
Galveston, Harrisburg and San Antonio Railway Company	16½ "
Texas and New Orleans Railway Company	7½ "
Louisiana Western Railroad Company	3½ "
Morgan's Louisiana and Texas RR. & S. S. Co. (including G., W. Tex. & Pac. Ry.)	22½ "
Southern Pacific Company	7½ "

Betterments and additions to leased lines and equipment are currently made by the lessee, and the payments therefor become annually a charge to the lessor companies, each being charged with the cost of the additions to its separate property. The lease is for 99 years.

Northern Railway Company.—A new lease was made with this company July 1, 1888, to run for 99 years from that date, covering all of the company's lines as consolidated, and which now are or hereafter may be constructed. The lessee pays from net earnings of the property interest on bonded and floating debt, and any surplus up to 6 per cent. on its capital stock goes to lessor, the lessee retaining all over that amount. Betterments are made by lessee, and charged annually against lessor.

New York, Texas and Mexican Railway.—This line is operated for current account, the balance of profit or loss being credited or charged to lessor.

South Pacific Coast Railway Company.—Lease is for 55 years from July 1, 1887. Lessee pays from net earnings all fixed and other charges, including interest on bonded and floating debt, and charges for betterments and additions, and any balance is retained by or charged to the lessee.

Central Pacific Railroad Company.—Leased February 17, 1885, and lease modified January 1, 1888. Lessee pays from net earnings all interest on bonded and floating debt, except debt to United States, and all sinking fund requirements, and from the balance pays a minimum annual rental of $1,360,000, which may be increased according to the net profits from the leased property to a maximum of $4,080,000, and any surplus over the latter sum is retained by the lessee.

Oregon and California Railroad Company.—Lease is for 40 years from July 1, 1887, at a rental equal to interest on bonds and all current fixed charges, and dividends up to 6 per cent. on common and 7 per cent. on preferred, any surplus over dividends being retained by lessee.

California Pacific Railroad.—Leased for 50 years from November 1, 1886, at a rental of $600,000 per annum. Betterments and additions are made by lessee, and will be charged to lessor at the termination of the lease, at their then cost value. The terms of the agreement, including the amount of rental, are subject to change every five years, if wished, and any revision proposed is to be determined by arbitration.

Proprietary Properties.

Of the total capital stock of proprietary lines named below, amounting at par to the sum of $143,678,252, the amount of $140,257,300 is owned by the Southern Pacific Company, as shown elsewhere. This stock has been acquired by issuing stock of the Southern Pacific Company at par and receiving in payment therefor stock of the several railroad companies named at the rate set opposite each, namely :

The acquisition of the capital stock of Morgan's Louisiana and Texas Railroad and Steamship Co. carried with it the proprietorship of the Gulf, Western Texas and Pacific Railway Co. and several Transportation Lines in Texas and Louisiana.

The Morgan Company also owns a majority interest in the capital stock of the Houston and Texas Central Railway Co.; and this last-named company owns a controlling interest in the capital stock of the Texas Central Railway Company. The Houston and Texas Central and the Texas Central Railways are at present operated by receivers. Their operations do not therefore appear in this report. The terms for the reorganization of the affairs of the former company have been agreed to, and are now being carried out.

For cash and for obligations assumed by the terms of leases, the stock has also been acquired of the South Pacific Coast Railway Co. and the New York, Texas and Mexican Railway Co.

Further exchanges are being made for additional stock of some of the above companies, so that the Southern Pacific Company has practically the ownership of them all. These properties therefore, though separate corporations, comprise in effect the Southern Pacific Company. A full statement of the Southern Pacific Company's affairs thus requires a consolidation of the exhibits for both the proprietor company and its proprietary lines.

The company also owns 41,721 shares of stock in the Mexican International Railroad Co., of the par value of $4,172,100, out of the total capital outstanding, amounting to $11,835,500. For these shares the Southern Pacific Company issued its stock to the amount of $834,420. As the stock owned in this line is not a majority of the whole, and as it is not operated by the Southern Pacific Company, its financial affairs do not appear in this report.

The greater amount of the capital stock of the Southern Pacific Company having been issued to acquire the stocks of proprietary lines, the amount so issued stands practically in lieu of that received, and the stocks thus received covering practically all the capital stock of the several companies, the stock issued therefor by the Southern Pacific Company represents the actual ownership of the proprietary properties. To guard against the circulation of this double capital, the stock of the proprietary lines owned by the Southern Pacific Company has been deposited in trust with the Union Trust Co., and stamped not negotiable till the Southern Pacific stock issued therefor has been canceled.

The total capital stock outstanding of the Southern Pacific Company and its proprietary companies was on December 31, 1888, as follows:

Southern Pacific Company	$107,299,270	
Proprietary companies	145,117,327	
Total stock at par value		$252,416,597

This outstanding stock of proprietary companies includes that for which Southern Pacific Company's stock has been issued in exchange, and which is deposited with the Union Trust Company of New York for the following amounts:

Stock of Southern Pacific Railroad Co. of California	$58,914,900	
Stock of Southern Pacific Railroad Co. of Arizona	19,992,600

This balance of capital stock of the Southern Pacific Company and its proprietary lines is in effect the capital outstanding on the property as a whole, and as practically consolidated into the Southern Pacific Company. This property, as operated, consists of 4,014.42 miles of main track railroad, and 28.28 miles of second track, also all sidings, spurs, switches, turn-outs, and other tracks required for use in operation therewith. These lines are equipped with and own 612 locomotives, 640 passenger-train cars, 14,962 freight-train cars, and 243 work cars. They also own fourteen ocean steamships, five ferry and transfer steamers on San Francisco Bay, five ferry and river steamers in Louisiana, and thirty-one tugs, barges, etc. Included in the property of the Southern Pacific Company are the materials, fuel and supplies required for the maintenance and operation of both proprietary and other leased lines. The value of these on hand, December 31, 1888, was $7,371,729.76.

2d mtge. Western Division (M. A. P. Ext.) 6% 50-year gold bonds, due July 1, 1931, int. Jan. and July...	6,354,000

The $4,756,000 1st mortgage 6 per cent. gold bonds, due 1910, are secured upon the entire main line east of San Antonio, on the La Grange Branch, and on the old lands of the company. The $1,000,000 2d mortgage 7s of 1905 are also secured on the main line east of San Antonio and upon the land grant. The proceeds from the sale of the lands go to the trustees, to be used in the purchase of bonds. The 1st mortgage bonds are further secured by a sinking fund of 1 per cent., commencing in 1880 and for which bonds are drawn annually. It is optional with the holders, however, whether they surrender or retain their bonds. In case of their retention the interest continues and the bonds remain as if they had never been drawn.

The $13,418,000 1st mortgage Mexican and Pacific Extension 5 per cent. gold bonds, of $20,000 per mile, due 1931, are secured upon the line from San Antonio to El Paso, and the Eagle Pass branch. The $6,354,000 2d mortgage 6 per cent. gold bonds, due 1931, are secured upon the line from San Antonio to El Paso, subject to the 1st mortgage, and are also secured by the lands due from the State for construction of the M. & P. Division, by which the company became entitled to 110,750 sections of 640 acres each, equal to 6,880,000 acres.

Annual meeting, first Tuesday in July. All issues of bonds are listed on New York Stock Exchange; $1,200,000 1st mortgage 6 per cent. bonds of 1910 are also listed on Stock Exchange at London, Eng.

LOUISIANA WESTERN RAILROAD.—Lafayette, La., to Orange, Tex., 112.03 miles. Sidings, etc., 12.78 miles. Gauge, 4 ft. 8½ in. Rail (steel, 112.03 miles), 52 lbs. The route of this road originally formed the western extension of what is now known as the New Orleans and Mobile RR. (which see). Some preliminary work had been done in the way of grading, etc., when, in 1876, it was sold under foreclosure, and this portion purchased by Morgan's Louisiana and Texas RR. Co., which subsequently transferred it to the Louisiana Western RR. Co. The construction of the road was commenced in 1879, and the whole line put in operation in August, 1880. This road is included in the "Omnibus Lease" to the Southern Pacific Company. Its proportion of net profits is 3½ per cent. See statement for Southern Pacific Company. On February 10, 1885, a lease of this property was made to the Southern Pacific Company for 99 years from March 1, 1885, by which that company agrees to keep the leased property in good repair, operate, maintain, add to and better the same at its expense, pay all taxes assessed against or levied thereon, and discharge all liabilities and obligations of every kind except the obligations to pay the principal of the bonded indebtedness now outstanding, or which may be hereafter created, and that as to such bonded indebtedness the lessee will pay off and discharge at maturity the interest upon the same, and furthermore to pay to lessor annually, on May 1st of each year as rental, a sum equal to 3½ per cent. of the lessee's net profits for the year ending December 31, preceding, that may remain from the operation of all the properties embraced in said lease.

History.—The Southern Pacific Railroad Company of California, as at present constituted, was formed May 4, 1888, by the consolidation of the Southern Pacific RR. Co. (for history, see MANUAL for 1888, page 948), the San José and Almaden RR. Co. (see page 950 of MANUAL for 1888), the Pajaro and Santa Cruz RR. Co. (MANUAL for 1888, page 950), the Monterey RR. Co (MANUAL for 1888, page 950), the Monterey Extension RR. Co., the Stockton and Copperopolis RR. Co. (MANUAL for 1888, page 947), the San Pablo and Tulare RR. Co. (MANUAL for 1888, page 947), the San Pablo and Tulare Extension RR. Co., the San Ramon Valley RR. Co., the Stockton and Tulare RR. Co., the San Joaquin Valley and Yosemite RR. Co., the Los Angeles and San Diego RR. Co. (MANUAL for 1888, page 950), the Los Angeles and Independence RR. Co. (MANUAL for 1888, page 950), the Southern Pacific Branch Ry. Co. (MANUAL for 1888, page 1105), the Long Beach, Whittier and Los Angeles County RR. Co., the Long Beach RR. Co., the Southern Pacific Railroad Extension Co., and the Ramona and San Bernardino RR. Co. By the consolidation the company acquired 1,094.51 miles, aside from the Colorado Division, which though technically the property of this company is leased and contract for its sale has been delivered to the Atlantic and Pacific RR. Co. During 1888 the following new mileage was constructed and put in operation: Monte Vista branch extended 2 miles; Thenard to Long Beach, 3.80 miles; Studebaker to Whittier, 5.90 miles; Fresno to Porterville, 69.30 miles; Tracy to Newman, 37.10 miles; Huron to Alcalde, 20.60 miles; Miraflores to Tustin, 10.80 miles;—making the total length of lines in operation at the close of the year 1,244.01 miles. In addition there were 32.97 miles completed but not in operation at the close of the year, and bonds were issued therefor under date December 28, 1888. Including the Colorado Division and the above-mentioned 32.97 miles, the total road covered by bonds outstanding on December 31, 1888, was 1,519.49.

The capital stock of the Southern Pacific RR. Co. on December 31, 1887, was $45,994,800. In the consolidation this amount was by exchange for stocks of consolidating companies, $7,712,000, and for construction of new lines it was further increased $5,785,800; making the total stock outstanding December 31, 1888, $59,292,800.

The Southern Pacific of California, the Southern Pacific of Arizona and the Southern Pacific of New Mexico

are included in the "Omnibus Lease" to the Southern Pacific Company. For terms of lease, etc., see statement for lessor company.

By agreement with the Atlantic and Pacific (35th parallel) RR. Co., the Southern Pacific built, during 1882 and 1883, a branch line of 242.51 miles in length, extending from Mojave Junction to a connection with the main line of the A. & P. Co., at the crossing of the Great Colorado River, near The Needles. The whole line was operated through, *via* Albuquerque and the Atchison, Topeka and Santa Fé RR., upon an agreed traffic basis, until October 1, 1884, when the Colorado Division was transferred to the Atlantic and Pacific RR. Co. under lease, at an annual rental of $1,800 per mile per annum, with the option of purchase at $30,000 per mile.

There is a sinking fund of $100,000 per annum for retirement of the 1st mortgage 6 per cent. 30-year bonds of the Southern Pacific RR. Co., Classes A to F. The gross receipts from sale of lands are also pledged to the redemption of the bonds. A sinking fund of $90,000 per annum for retirement of 1st 5's of 1938 commences in 1898, and one of $50,000 per annum for redemption of Southern Pacific Branch bonds commences in 1897.

The new consolidated mortgage 5 per cent. bonds are limited in issue to $38,000,000, or on newly built road to $23,500 per mile for single track and $7,500 additional for double tracking, additional equipment and other betterments and additions. The outstanding bonds of the Pajaro and Santa Cruz, the Monterey, the San Pablo and Tulare, and the Los Angeles and San Diego Railroads, amounting to $2,329,000, are to be retired and canceled, and new consols issued in place of them. Provision is also made in the mortgage for the ultimate exchange of consols for the Southern Pacific Branch bonds. The consols are a lien, subject to prior mortgages, on all property now owned or which may hereafter be acquired, excepting the Colorado Division. Trustees, Central Trust Company, New York.

Company Sinking Funds.

The company has established eight sinking funds for the redemption of its funded debt, as follows:

Central Pacific 1st Mortgage (Series A, B, C, D) Sinking Fund	commencing 1870,	$50,000 per annum.
Central Pacific 1st Mortgage (Series E, F, G, H, I) Sinking Fund	commencing 1872,	50,000 per annum.
Western Pacific 1st Mortgage (Series A, B)	commencing 1876,	25,000 per annum.
California and Oregon (Series A, B)	commencing 1876,	100,000 per annum.
San Francisco, Oakland and Alameda (ended 1886)	commencing 1880,	100,000 per annum.
San Joaquin Branch	commencing 1880,	50,000 per annum.
Income Bonds		bonds now all paid.

Statement for 1888.—Balance in Sinking Funds, December 31, 1887, $6,241,652.75; receipts during the year —annual requirements paid by S. P. Co., $275,000; interest earned on investments, $397,004.67—total of all, $6,913,657.42. Payments for bonds redeemed, $380,000. Balance in funds, December 31, 1888, 6,553,657.42.

The amount in the funds for retirement of California State Aid bonds and San Francisco, Oakland and Alameda RR. Co. bonds equals the amount of bonds outstanding.

The land grant mortgage bonds are redeemable from the proceeds of the sale of the company's land.

In addition to the above, the company guarantees principal and interest on $500,000 1st mortgage 5 per cent. bonds of the Stockton and Copperopolis RR. Co.

Land Subsidy.—Every alternate section of public land designated by odd numbers, to the amount of 10 alternate sections per mile on each side of said road on the line thereof, and within the limit of 20 miles on each side of said railroad, not sold, reserved, or otherwise disposed of by the United States, and to which a pre-emption or homestead claim may not have attached.

Land Grant.—The total amount of lands granted to the Central and California and Oregon Cos., 20 sections to the mile, is estimated at 12,000,000 acres. These lands are covered by the land trust mortgages. The sales during the year 1888 equalled 69,464.88 acres for $205,410.94. Total sales to close of 1887, 2,470,042 acres for $8,196,463.81.

Annual meeting, second Tuesday in April. Capital stock listed on New York Stock Exchange.

Government Sinking Fund.

The Government of the United States, by Act of Congress approved July 1, 1862, and other Acts amendatory thereof, granted to the Central Pacific and other railroad companies subsidies of bonds and lands to aid in the construction of a railroad and telegraph line from the Missouri River to the Pacific Ocean, and to secure to the Government the use of the same for postal, military, and other purposes. By the Act of July 2, 1864, the lien of these bonds was made subordinate to the lien of the company's first mortgage bonds. The total amount issued to the Central Pacific Railroad Company was $25,885,120; to the Western Pacific Railroad Company, $1,970,560; total to consolidated company, $28,855,680, the annual interest on which is $1,671,340.80.

By the Act of 1864, the Government was entitled to withhold one half the charges of transportation on its account, and to receive from the company 5 per cent. of its net earnings, to be applied to the retirement of the principal and interest of the subsidy bonds. By an Act passed May 8, 1878, commonly known as the "Thurman Bill," it was provided that—

"There shall be carried to the credit of the said sinking fund, on the first day of February in each year, the one half of the compensation for services hereinbefore named rendered for the Government by said Central Pacific Railroad Company, not applied in liquidation of interest; and in addition thereto the said company shall, on said day in each year, pay into the treasury to the credit of said sinking fund, $1,200,000, or as much thereof as shall make the 5 per centum of the net earnings of its road payable to the United States under said Act of 1862, and the whole sum earned by it as a compensation for services rendered for the United States, together with the sum by this section required to be paid, amount in aggregate to 25 per centum of the whole net earnings of said railroad company, ascertained and defined as hereinbefore provided, for the year ending December 31 next preceding."

The requirement for the year under the Thurman Act amounts to $467,217.50, applicable as follows: To United States bonds and interest, $272,217.52; to sinking fund in United States Treasury, $194,999.98—$467,217.50.

The payments to the Government to December 31, 1888, as per settlements with the United States Commissioner of Railroads, are: For United States bonds and interest, $7,013,965.76; for sinking fund in United States Treasury, $3,494,973.92—total payments, $10,508,939.68.

The condition of the sinking fund in the United States Treasury is reported by the Secretary of the Treasury to December 31, 1888, as follows: Deposits by the company—cash and transportation charges, $3,469,641.62. Investments by Secretary of the Treasury—United States 6 per cent. currency bonds, $2,548,000; Union Pacific Railroad bonds, $232,000; Central Pacific Railroad bonds, $241,000—$3,021,000; cash uninvested, $48,689.06—total par value of bonds and cash, $3,069,689.06. Balance, deposits by company in excess of value of funds, $399,952.56; premiums paid for bonds by Secretary of Treasury, $1,021,701.78; less interest and premium received, $621,749.22 —balance, loss on investments to date, $399,952.56.

The bonds in which the funds are invested are those issued under the Pacific Railway Acts of 1862 and 1864. They mature at the same time that the debt matures for which the fund is established. They will then be payable at par. The premium paid will therefore all be lost. The fund has now been in operation since July 1, 1878—ten and one-half years. Under the Government's management, instead of increasing at compound interest, there is now $399,952.56 less on hand than has been deposited by the company.

There remained due on December 31, 1887, from the United States for transportation on non-aided lines of the Central Pacific and on lines which were formerly leased by the Central Pacific but are now leased and operated by the Southern Pacific Company, the sum of $2,584,052.56. This is in excess of all requirements, and is payable by the United States in cash. Of this sum, $1,068,161.67 is payable to the Central Pacific, and $1,515,890.89 is payable to the Southern Pacific Company.

ALBERT RAILWAY COMPANY.

Line of Road.—Salisbury, N. B., to Hopewell and Harvey, N. B..... .....52 miles. Sidings, etc., 2.25 miles. Gauge, 4 ft. 8½ in. Rail, 56 lbs.

History.—Road opened in 1877. Connects at Salisbury with Intercolonial Railway, and runs to Chignecto Inlet. On November 15, 1888, this road was sold under foreclosure and purchased for account of the bondholders, by whom a new company will be organized. Under the terms of reorganization new stock will be issued in exchange for old bonds at rate of 25 per cent. of face value of bonds and £7,500 debenture 5 per cent. bonds will be issued to provide the means to repair the road, etc.

Rolling Stock.—Locomotive engines, 3. Cars—passenger, 3; baggage, 1; box, 10; platform, 20—total, 34.

Operations for year ending June 30, 1887.—Trains run—passenger, 256; freight, 1,740; mixed, 26,592—total, 28,588 miles. Passengers carried, 10,515. Freight hauled, 20,994 tons. Gross earnings—passenger, $4,846.58; freight, $10,116.54; mails and express, $2,119.68; other, $864.83—total, $17,947.63. Operating expenses, $24,406.35. Deficit, $6,458.72.

Financial Statement, June 30, 1888.—Capital stock (authorized, $1,000,000; par, $50) paid in, $659,500; funded debt, $599,573.33; first mortgage 6 per cent. bonds; Government aid (loan, $15,000; bonus, $469,665) paid up, $484,213.99; municipal bonus (paid up), $70,-

000—total paid up capital, $1,813,287.33. First mortgage 6 per cent. bonds are authorized to the amount of $600,000. Cost of road, etc., $1,784,073.33.

The bonds are for £200 each, interest payable June and December; principal December 1, 1897. As a guarantee fund for payment of interest £29,000 were deposited in London and invested in consols to June 1, 1887, at which time the fund became exhausted. Trustees in London for bondholders and shareholders: P. W. Blyth, Viscount Churston and F. C. Drummond.

Of the total amount of authorized stock ($1,000,000), $950,000 was offered for sale in London in May and September, 1883 (and $362,500 disposed of at first offering), at a price of £59 per 10-share certificate. On these shares a minimum dividend of 4 per cent. per annum is guaranteed until January 1, 1891, by the deposit of a sufficient amount of Canadian Government 4 per cent. stock for that purpose. The remaining $50,000 of stock is held in New Brunswick and is only entitled to dividends out of net earnings.

History.—Incorporated February 17, 1881. The charter confers large powers on the company, such as the right of constructing branches along the entire length of line, of establishing steamship lines at its termini, and of constructing and working telegraph lines. The company was subsidized by the Dominion Government to the extent of $25,000,000 in money and 25,000,000 acres of land, and has had transferred to it by the Government, free of cost, 718 miles of railroad, built by the Government at an expense of about $35,000,000. Of the main line 345 miles, from Montreal to Callender, together with the St. Lin, St. Jerôme, St.

Digitized by Google

Eustache, Aylmer, Brockville and Perth Branches, aggregating 98 miles, in all 443 miles, were acquired by purchase.

On June 9, 1881, the Canadian Pacific Railway acquired all the rights of the Canada Central Railway, extended it to Callender, and incorporated it with the Canadian Pacific system. In March, 1882, the western section of the Quebec, Montreal, Ottawa and Occidental Railway from Ottawa to Montreal (120 miles and branches) was also purchased. The line from Callender to Port Arthur was completed by May, 1885. The whole line was completed by November 7, 1885, but was not opened for through traffic until June 28, 1886. The extension of the main line from Port Moody to Vancouver (14 miles) was opened for traffic on May 26, 1887, and that of the Algoma Branch from Algoma Mills to Sault Ste. Marie in January, 1888.

During the year 1884 the company took a perpetual lease of the Ontario and Quebec Ry., its extensions and its leased lines, the Credit Valley, the Toronto, Grey and Bruce, and the Atlantic and Northwest Rys. The company pays 5 per cent. on $16,708,100 debenture stock and 6 per cent. on $2,000,000 common stock of the Ontario and Quebec, and a rental of the Toronto, Grey and Bruce Ry. of $140,000 per annum. On September 20, 1885, the company acquired control of the North Shore Ry., from St. Martin's Junction to Quebec, and branches, 159.1 miles, at an annual cost of about $200,000. The company has also acquired by lease the Manitoba Southwestern Colonization Ry., and the St. Lawrence and Ottawa Ry.

In the session of 1884 the Dominion Parliament authorized a loan to this company of $29,880,912, due May 1, 1891, with interest at 5 per cent. per annum, the money to be paid to the company as the work of construction proceeded, the company on its part agreeing, in consideration of such loan, to proceed with the work of construction and complete it by the end of May, 1886. To secure repayment of this loan a lien was created upon the entire property of the company, including the land grant, subject, however, to the outstanding land grant bonds and to existing mortgages on the line from Callender to Montreal. The Government was to hold the balance of the company's unissued stock, $35,000,000; but by legislation in 1885 this lien was removed, the company being authorized to issue $35,000,000 5 per cent. bonds in lieu of the $35,000,000 stock held by the Government, which has been cancelled. The Government accepted $20,000,000 of these bonds as security for a like amount of the loan; and for the balance of the loan, $9,880,912, held a lien, subject to the outstanding land grant bonds, on the unsold lands of the company. On March 30, 1885, a new agreement was made with the Government, under which the company repaid all its obligations to the Government, paying in cash the $20,000,000 secured by the 5 per cent. bonds held by Government and the balance, $9,880,912, in lands at the rate of $1.50 per acre.

In 1884 the Government of British Columbia granted, in consideration of extension of main line, about 9 square miles of land upon which a city has been laid out and named Vancouver. Arrangements have been made with the Pacific Coast SS. Co. for a connection between Pacific terminus and San Francisco. Early in 1887 a steamship line was opened between Port Moody and China and Japan, the first steamer leaving Yokohama, April 20, 1887.

"The freight traffic to and from China and Japan continues to increase, but the steamships forming the present temporary line on the Pacific have accommodation for very few passengers, and the passenger business in that direction, which should afford to the railway far greater profit than the freight, is consequently limited.

"The company has obtained the authority of Parliament to issue debentures to cover the cost of steamships, with especial reference to a service between Vancouver and China and Japan; but the Dominion Government being in negotiation with an independent company for a fast Atlantic Steamship service, and a first-class service between Vancouver and Australia, your Directors are disposed to surrender the proposed Japan and China service to the same company if favorable arrangements can be made; otherwise you will be asked to confer upon the Board the necessary authority to carry out the contract with the Imperial Government, the terms of which have already been arranged, for a line of steamships between Vancouver and Yokohama and Hong Kong."

Rolling Stock, December 31, 1888.—Locomotive engines, 406. Cars—passenger, baggage and emigrant sleeping, 354; sleeping and dining, 56; parlor, pay and official, 24; freight and cattle, 11,020; vans, 202; boarding, tool and auxiliary, 86—total, 11,742. In addition to the above rolling stock, the company owns the lake steamers "Alberta" and "Athabasca."

Land Grant.—The company has a land grant from the Dominion Government of 25,000,000 acres, in alternate sections of 640 acres each, within 24 miles of the road on either side from Winnipeg to the base of the mountains, of which 6,793,014 acres were surrendered to the Government under agreement of March 30, 1886. The company has issued $25,000,000 1st mortgage 5 per cent. 50-year land grant bonds, due October 1, 1931, $1,000,000 of which are held by the Government without interest, $20,558,000 have been redeemed and cancelled, and the balance, $3,442,000, is outstanding. Against this balance the company holds $1,272,487 interest-bearing obligations on land sales contracts. Sold to December 31, 1888, 3,410,750 acres; cancelled, 11,300; leaving net, 3,399,450 acres sold. The sales of lands during the year were 138,001 acres, at an average price of $3.21 per acre.

"In addition to the lands embraced in the foregoing statement, the company holds 1,209,494 acres of land in Southern Manitoba, which came to it through the purchase of the Manitoba Southwestern Railway. These lands are among the best and most available in the Northwest, and at the average of the sales last year, $4.88 per acre, their value is $5,944,785. They are subject only to a lien of $884,873 in favor of the Province of Manitoba.

"These lands have not as yet appeared in the accounts of the company. The net proceeds have been applied to the principal and interest of the lien of the Province, and will continue to be so applied until it is paid off.

"The sales of these Manitoba Southwestern Railway lands last year were 24,509 acres for $110,284, as against 6,190 acres for $23,869 in 1887; and for the first four months of 1889 there have been sold 17,493 acres for $[illegible], as compared with 3,982 acres for $17,604 during the same four months, 1888.

"Taking the Canadian Pacific and Manitoba Southwestern lands together, the sales for 1888 were 102,[illegible] for $553,910, as against 59,998 acres for $303,682 in 1887, and for the first four months, 1889, 72,441 acres for $[illegible] 992 as against 24,970 acres for $89,860 during the same four months, 1888."

The expenditures ($1,804,659.29 as per above statement) for construction and improvements were on the following divisions and branches:

"The interest on the land-grant bonds, while an obligation of the company, is not included in fixed charges, because the interest paid is chargeable against the land grant and will ultimately be returned to the holders. The proceeds of land sales, less the expenses of the Land Department, going for the present to the extinguishment of the debt upon the lands, the arrangement works practically as a sinking fund. It is expected that the annual receipts from Vancouver and other town sites, together with the surplus proceeds of Manitoba Southwestern lands (the property of the company) will cover the interest on the land-grant bonds, leaving the ordinary revenues of the company intact."

Dividends have been paid as follows: February, 1882, 6 per cent.; August, 1[illegible] cent.; February, 1883, 3 per cent.; August, 1883, February, 1884, August, 1884, [illegible] ary, 1885, 2½ per cent. each; August, 1885, February and August, 1886, and [illegible] since, 1½ per cent. each.

Bros., London, principal July 1, 1915, and interest semi-annually, January and July. The $2,433,333 5 per cent. Canada Central 1st mortgage bonds (for redemption of which, and payment of interest, a sinking fund of $1,500,000 has been deposited with the Government, leaving $850,000 as amount necessary to redeem bonds at maturity) are due September 1, 1899; the 2d mortgage bonds November 1, 1910. The mortgage to the Government of Quebec is payable March 4, 1902, interest 5 per cent., semi-annually. These mortgages apply only to the purchased lines they cover—the Canada Central, the North Shore, and the Q., M., O. & O.—and are not a charge on the Canadian Pacific Ry. proper.

LAND GRANT BONDS.—The company executed a mortgage and issued bonds for $25,000,000 on their entire land grant of 25,000,000 acres. Of these bonds the Government accepted, in 1881, $5,000,000 as security for the maintenance and continuous working of the railway for ten years after completion, but under the agreement of March 30, 1886, $4,000,000 of these bonds were returned, and on the bonds returned, the Government will not require payment of interest so long as no default occurs. Authority to cancel the said $4,000,000 bonds was given under the agreement of April 18, 1888. A further $8,996,000 of the bonds were deposited with the Government as security without interest under the Loan Act, 1884, but were cancelled under the latter agreement of March 30, 1886. The principal is redeemable at Montreal, on October 1, 1931, unless previously tendered in payment of lands at 110 per cent. and accrued interest, or redeemed out of the proceeds of land sales, either by purchase or by drawings at 10 per cent. premium. (See also statement of Land Grant, elsewhere.)

Algoma Branch Five per cent. First Mortgage Bonds.—Secured by a first mortgage on the Algoma branch (183 miles in length), which extends from Sudbury on the company's main line, to the bridge over the River Ste. Marie, and was opened for traffic on January 2, 1889. There are 250 bonds of £1,000 (numbers 1 to 250), 400 of £500 (numbers 251 to 650), and 3,000 of £100 (numbers 651 to 3,650), all bearing interest at the rate of 5 per cent. per annum from January 1, 1888, payable at Messrs. Baring Bros. & Co. on January 1 and July 1, where the principal is also repayable on July 1, 1937. The bonds may be exchanged for registered certificates at the same place. Sir Charles Tupper and Lord Revelstoke are the trustees for the bondholders.

Three and-a-half per cent. Fifty-year Land Grant Bonds or Inscribed Stock.—By an agreement dated April 18, 1888, and subsequently ratified, this company was authorized to issue $15,000,000 fifty-year three-and-a-half per cent. land grant bonds, secured by a mortgage on its unsold lands, consisting of 14,934,230 acres, free from all liabilities except about $2,300,000 in respect of old land grant bonds. The interest is guaranteed by the Dominion Government, and the net proceeds of the sales of land are to be deposited with the Government to constitute a sinking fund for the said bonds, and to bear interest at 3½ per cent. per annum, to be applied toward satisfying the interest on the bonds; and when the money thus deposited with the Government, whether from land sales or other sources, is sufficient to redeem the principal of the outstanding bonds, the mortgage on the land is to be discharged and the Government will assume and pay all the future interest as well as the principal, the company being freed from any liability in respect thereof, the bonds thus becoming the direct obligation of the Dominion Government. The inscribed stock amounts to £163,800, and will be transferable in any amount divisible by £10. There are 800 A bonds of £1,000 (numbers 1 to 800), 2,000 B bonds of £500 (numbers 1,001 to 3,000), and 11,299 C bonds of £100 (numbers 5,001 to 16,299). Bonds to bearer may at any time be converted into registered stock at a fee of one-eighth per cent., but registered stock cannot be converted into bonds to bearer. Interest will run from July 1, 1888, payable semi-annually on January 1 and July 1, and the principal will become due on July 1, 1938.

COMMON STOCK.—The original share capital was $5,000,000, issued at par, which was increased to $25,000,000 at the first annual meeting held in Montreal on May 10, 1882, the $20,000,000 new stock being sold to shareholders at the rate of 25 cents per dollar. The capital was further increased by $75,000,000 at a special general meeting held on Nov. 28, 1882. $30,000,000 of this was sold at an average price of 52 per cent. By an Act of 1885 the balance of $35,000,000 common stock, which had been deposited with the Canadian Government was

cancelled, and the common stock thus reduced to $65,000,000. All certificates of stock now issued are stamped so as to show this reduction. On November 10, 1883, a contract was executed between the company, the Canadian Government and the Bank of Montreal, under which the Government, in consideration of securities and cash deposited with it, bound itself to pay into the Bank as trustee for the shareholders, on February 17 and August 17 in each year, until August 17, 1893, inclusive, a sum of money sufficient to pay a semi-annual dividend of one and one-half per cent. on the entire outstanding capital stock of the company. Out of this sum, by the same contract, the Bank of Montreal covenants with the Railway Company to pay the stockholders half-yearly dividends at the above rate. This arrangement was confirmed by an Act passed in 1884. During the construction of the railway, the Railway Company arranged to make up the guaranteed dividend to five per cent. per annum by the payment of an additional one per cent. semi-annually. After construction, any dividends declared would be in addition to the guaranteed dividends of three per cent. per annum. In August, 1885, only the three per cent. dividend guaranteed by the Canadian Government was paid, it not being deemed "expedient to pay any further supplementary dividend out of capital, during the short period which will be occupied in completing construction." Since then only the guaranteed dividend of three per cent. has been distributed. The interest on the shares on the London Register is payable in London at the fixed rate of 4*s.* 1½*d.* per dollar.

Annual meeting, second Wednesday in May. Books close in New York and Montreal one week, and in London not less than two weeks before meeting. For dividends, books close in New York and Montreal two weeks, and in London not less than three weeks before payment. Stock listed in New York, London, Montreal, Amsterdam and Berlin.

"The leased portion of the Atlantic and Northwest Ry. is completed. Its cost, owing to various causes, was much larger than was anticipated, and the proceeds of the bonds issued for its construction proved inadequate. This work was carried on by the A. & N.-W. Ry. Co., for account of the Canadian Pacific, and the deficit had therefore to be provided by the latter to recover which deficit, together with the over-expenditure on the Montreal new entrance and station (also built under the powers of the A. & N.-W. Ry. Co.), it is proposed to issue 4 per cent. consolidated debenture stock in lieu of the $3,240,000 Atlantic and Northwest guaranteed preferred stock referred to in the statement for that company.

"An agreement has been reached with the Government, subject to the ratification of Parliament, respecting that section of the A. & N.-W. Ry. from Harvey to Moncton, N. B. (about 115 miles), whereby the Government agreed to construct the line, and the company to work it for 20 years without rental, and to pay thereafter a rental of $73,400 per annum.

"The extension of the Ontario & Quebec Railway (under perpetual lease to this company) from London, Ontario, to the Detroit River is advancing rapidly, and the line will be ready for traffic before another winter.

"Aside from the Detroit extension, and the eastern entrance to Toronto, the only new work now in hand is a branch of 10 miles from Mission, in British Columbia, 43 miles east of Vancouver, to the International boundary, to connect with a railway that is being made by an independent company extending southward to the important city of Seattle, on Puget Sound. This short branch is the last link in the chain of railway connections along the Pacific coast from the Canadian Pacific Railway to the Gulf of California.

"The connections necessary to the full completion of the railway system are now few in number. The most important are between Toronto (or Cookesville) and Hamilton, Hamilton and Niagara Falls, and Hamilton and Woodstock, and will require short lines of 30, 43 and 47 miles respectively. *The South Ontario Pacific Ry. Co.*, a friendly organization, is likely soon to provide these connections.

"The only other connection that remains to be established is one from the south end of your St. Lawrence Bridge, near Montreal, southwesterly to a junction with the Rome, Watertown and Ogdensburg Railway near Dundee. This line, 55 miles in length, is proposed to be constructed by the *Southwestern Railway Company*, another friendly organization, and will extend through a chain of towns on the south bank of the St. Lawrence River.

"In order to effectually secure the company's interests west of Sault Ste. Marie, certain advances have been made in connection with the system of railways extending from that point. These are included in the Accounts Receivable and Miscellaneous Securities, as shown in the Balance Sheet, and represent the major portion of the increase under that head.

"At the last Session of the Dominion Parliament, an Act was passed providing for the consolidation of the various obligations of the company into a perpetual debenture stock, bearing a rate of interest not exceeding four per cent.; and it is hoped that arrangements will be made for the conversion of a considerable portion of the existing securities on terms that will be advantageous to the company. It was deemed wise, at the same time, to obtain power to provide, to a reasonable extent, for future requirements in the way of improvements, equipment and facilities, not alone for the lines owned by the company, but for those leased to it; but the authority to issue debentures at the rate of £500 per mile for these purposes will not have to be used at present."

ATLANTIC AND NORTHWEST RAILWAY.—Incorporated with power to construct a railway and telegraph line from the Atlantic seaboard, within the limits of the Dominion, to a port on the east side of Lake Superior, *via* Lake Megantic, Sherbrook, Montreal, Ottawa and French River; also to construct a part thereof across the State of Maine; and to acquire any railway, either in the United States or Canada, between these points. Under these powers the company, on November 2, 1886, purchased the line of the International Railway of Canada, with its interest in the International Railway of Maine, and, having assumed the obligations of that company, obtained the subsidy of $250,000 per annum for 20 years granted by the Dominion Government in aid of a line of railway from the south bank of the St. Lawrence River near Caughnawaga to the harbors of St. Andrews, St. John and Halifax. The subsidy was made applicable as follows: In aid of the section from the St. Lawrence to a junction with the International Railway at Lennoxville, $71,100 per annum; in aid of the section from a point of junction with the International Railway at the international boundary to a point of junction with the Maine Central Railway at Mattawamkeag, $115,500 per annum; and the remainder, $63,400 per annum, in aid

of the remaining portion of the line for which the subsidy was granted. In November, 1887, 35 miles of the railway—from the south end of the Lachine Bridge over the St. Lawrence, the western terminus, to Farnham—had been completed and opened for traffic, and a further section of about 130 miles was opened on January 1, 1889. The line extends from Farnham through Lennoxville to Mattawamkeag, there joining the Maine Central Railway, over which trackage rights have been secured, to Vanceboro' at the New Brunswick boundary, where connection is made with the railway system of the Maritime Provinces of Canada. The railway was, by an indenture dated December 6, 1886, leased in perpetuity to the Canadian Pacific Railway Company, for an annual rental of £28,013 15s. for the first twenty years, and of £66,500 thereafter. The subsidy applicable to the completed portion of the line amounts to $136,600, or £28,486 5s., which will be applied toward payment of interest on bonds described below, the C. P. Ry. Co. advancing the balance required (£28,013 15s.) to meet full interest charges, under the terms of its lease.

To provide the means for the construction of this line there was issued in April, 1887, in London £1,330,000 first mortgage 5 per cent. 50-year £100, £500 and £1,000 coupon bonds (with registration privilege), due January 1, 1887, interest payable January 1 and July 1 by Baring Bros. & Co., London. The interest on these bonds amounts to £66,500 annually, which is guaranteed in the manner shown above. The proceeds of these bonds proving inadequate for the construction of the road, the C. P. Ry Co., on March 27, 1889, made a further guarantee of 5 per cent. annually on $3,200,000 preferred stock, which the company issued to complete the road. It is now proposed to retire this stock, as shown elsewhere.

CREDIT VALLEY RAILWAY.—Toronto, Ont., to St. Thomas, Ont., 116 miles; Orangeville Branch, 31.6 miles; Elora Branch, 27.5 miles—total, 175.1. Total Track (steel), 197.70 miles. Chartered February 15, 1871, and road completed in 1879. *Financial Statement.*—Government bonus, $531,000; municipal bonus, $1,085,000—total, $1,616,000. See Canadian Pacific Ry. Co., by which it is leased.

MANITOBA SOUTHWESTERN COLONIZATION RAILWAY.—Winnipeg to Glenboro, 104.2 miles; Manitou to Deloraine, 101 miles; Maryland branch, 6 miles—total (steel), 211.2 miles. Incorporated by an Act of the Dominion Parliament in 1879 to build a road from Winnipeg to Rock Lake. Charter amended in 1880 to extend to terminus of Souris River, 312 miles from Winnipeg. The sections from Holland to Glenboro, (20 miles), and Boissvain to Deloraine (90 miles), were built in 1888. The company has a land grant of 6,400 acres per mile. Leased to the Canadian Pacific Ry. Co. *Financial Statement.*—Capital stock, $700,000; funded debt, 1st mortgage (5 per cent. $1,000 bonds, due June, 1934, interest June and December), $2,544,000. Government loan, $900,000—total, $4,144,000. The bonds are a first charge on the road, but not on the land grant.

ONTARIO AND QUEBEC RAILWAY.—Montreal to Toronto Junction, 334 miles. Road opened early in 1884. This company leased for 999 years, August 1, 1883, the Atlantic and Northwest, the Credit Valley and the Toronto, Grey and Bruce Rys., and transferred them with its own line to the Canadian Pacific Ry. Co. under lease for 999 years from November 1, 1883, the lessee paying as rental 5 per cent. interest on debentures and 6 per cent. dividends on stock ($2,000,000) of this company, the lessor agreeing to extend its line from Smith's Falls to Montreal, and to build a bridge across the St. Lawrence River at Montreal, both of which were completed and put in operation early in 1887. The company also completed a line from Woodstock to London, 27 miles, and is now building an extension of this latter line from London to the Detroit River. Total projected mileage, 728 miles. *Financial Statement.*—Capital stock, $2,000,000; bonded debt, $16,708,333—total, $18,708,333. E. B. Osler, *President*, Toronto, Ont.

ST. LAWRENCE AND OTTAWA RAILWAY.—Prescott, Ont., to Ottawa, Ont., 53 miles; branch, Junction to Chandière, 5 miles—total, 58 miles. Total track (steel, 50), 68 miles. Rail, 56, 57½ and 75 lbs. Chartered as By Town and Prescott Ry. Co. May 19, 1850; road opened May 10, 1854. Sold under foreclosure in 1866, and present company organized; Chaudière Branch, built in 1871. Capital stock, $789,909.20; funded debt, 6 per cent. bonds, interest June 15 and December 15, payable in London, England, $973,334; municipal aid, $390,000—total, $2,153,243.20. Cost of road, $1,908,488.99.

TORONTO, GREY AND BRUCE RAILWAY.—Toronto, Ont., to Owen Sound, 121.5; Glenannan to Wingham, 5 miles; Western Orangeville to Teeswater and Cardwell Junc., 69.5 miles—total, 191.0 miles. Total track (steel, 186.50 miles), 206.5 miles. Chartered in 1868; main line opened in June, 1873; branch in May, 1874. Leased to Ontario and Quebec Ry. Co. for 999 years; rental, $140,000, and transferred November 1, 1883, to the Canadian Pacific Ry. Co. The Wingham branch was built during 1887. Capital stock, $785,490; 4 per cent. 999 years, dated July 26, 1883, interest January and July, in London, England, $3,500,000; Government aid, $392,594; municipal aid, $969,561.44; capital from other sources, $322,583.30—total, $5,970,228.74. Cost of road and equipment, $5,547,338.12.

CANADA ATLANTIC RAILWAY COMPANY.

Line of Road.—Ottawa, Ont., to Lacolle Junction ..... 130.30 miles.
Sidings, etc., 17 miles. Gauge, 4 ft. 8½ in. Rail (steel), 56 lbs.

The authorized line of this road carries it to the International Boundary line, beyond

Lacolle, to which point the road is located, with an extension from Ottawa terminus to Chaudière Falls, which has recently been completed. The extensions of this line lately authorized and undertaken (Clarks Island to the International Boundary and the Chaudière Extension) were accompanied by a subsidy of $184,400, of which $92,864 was paid to December 31, 1888. The line is now being operated to Rouse's Point, N. Y., by use of twelve miles of the Grand Trunk Ry.

The company is authorized to build a bridge 405 feet long over the St. Lawrence River at Coteau, and a subsidy of $180,000 has been granted to aid in its construction. To provide the means for this and other purposes, the company has recently issued $3,500,000 first mortgage 5 per cent. 20-year gold bonds, due January 5, 1909, interest payable in New York January and July. Trustee, Farmers' Loan and Trust Co. of New York. Of these bonds, $1,000,000 are reserved for the construction of the bridge.

History.—On August 12, 1882, the Grand Trunk Railway Co. and the Great Western Ry. Co. were consolidated under the name of the former, the capital stock of the united company consisting of two classes: the Grand Trunk capital and the Great Western capital. Under power granted by Act of Parliament, entitled "The Grand Trunk Railway Act, 1884," and which came into operation July 1, 1884, the Great Western capital has been converted into 4 per cent. guaranteed stock, and ordinary stock has been issued in extinction of the contingent rights of the Great Western capital, and of the first, second and third preference stocks (see MANUAL for 1884).

See MANUAL for 1888, page 978, for historical sketches of progress of Grand Trunk Railway.

By deed of Union, January 24, 1888, the Northern of Canada and its leased line, the Hamilton and Northwestern, became amalgamated with the Grand Trunk Ry. Co., upon the following terms : The borrowed capital of the three companies to be the borrowed capital of the united company ; the preference shares of the Northern and Northwestern to be entitled to a dividend at a rate equal to the rate of dividend paid upon the Grand Trunk first preference stock up to but not exceeding 8 per cent. per annum, and a further dividend at a rate equal to the rate of dividend paid upon the Grand Trunk second preference stock up

to but not exceeding 3 per cent. per annum, and the ordinary stock of the three companies to be the ordinary stock of the united company. Under powers of "The Grand Trunk Ry. Act, 1888," the preference stocks of the Northern and Hamilton and Northwestern Companies have been converted into the Grand Trunk first and second preference stocks, receiving 62 per cent. of each description of stock.

Four per cent. Guaranteed Stock.—Created by Act of 1884, and issued to holders of Great Western preference stock and ordinary shares, and is entitled to a non-cumulative dividend not exceeding 4 per cent. per annum of the net earnings of the company. Ranks next in priority to debenture stock. Listed on London Stock Exchange, and also quoted at Aberdeen, Birmingham, Bristol, Dublin, Edinburgh, Glasgow, Leeds, Liverpool, Manchester and Sheffield.

First Preference Stock.—Under the Acts of 1873 and 1884 this stock is now entitled to a dividend of 5 per cent. per annum in perpetuity charged on the available net profits of each separate year after payment of dividend on guaranteed stock. Listings same as above, except not quoted at Aberdeen.

Second Preference Stock.—Ranking next to the first preference stock and otherwise identical in security with it. A dividend of £1 13*s.* per cent. was paid for the first half of 1873, but no further dividend was paid till 1880, when the full dividend of 5 per cent. for the year was paid. The full dividend was also paid for the six half-years ending December 31, 1888; but there has been no distribution since, except ½ per cent. for second half of 1887. Listings same as above, except not quoted at Aberdeen and Bristol.

Third Preference Stock.—Under Acts of 1873 and 1884 this stock is entitled to a dividend of 4 per cent. per annum in perpetuity out of net earnings of each separate year, subject to the priority of the first and second preference stocks.

Perpetual Five per cent. Debenture Stock (Grand Trunk Section).—Created by Act of May 26, 1874. Secured by first mortgage on all the company's property, as also upon the company's interest in the International Bridge and in leased and operated lines, subject, however, to the priorities of all other preferential charges existing at date of issue; ranks immediately after the Equipment Mortgage Bonds; interest 5 per cent. in perpetuity, payable January and July. Listings same as for third preference stock.

Second Equipment Mortgage Bonds.—Issued March 1870; interest 6 per cent. per annum and redeemable at par in fifty years from July 1, 1869. In 1884 £9,700 of these bonds were purchased by the company and are held as security for debenture stocks. Listed on London Stock Exchange, and also quoted at Edinburgh, Glasgow, Liverpool and Manchester.

Five per cent. Perpetual Debenture Bonds (Great Western Section).—Issued in bonds of £100 each; coupon, with privilege of registration; interest payable February and August. In common with the terminal bonds of the company, these are a first mortgage upon the railway, tolls, land and other property of this company. Listings same as for 2d equipment mortgage bonds, except also quoted at Sheffield.

Six per cent. Terminal Bonds.—Mature December 1, 1890; interest June and December.

Bonds are coupon and of £100 each. Listed on the London Stock Exchange, and also quoted at Aberdeen, Edinburgh, Glasgow, Liverpool and Manchester.

Perpetual Four per cent. Consolidated Debenture Stock.—In April, 1883, £750,000 of this stock was issued to replace £226,300 advanced for redemption of securities of company, to provide for £289,000 6 per cent. securities falling due in April and October, 1888, and in July, 1884, to provide for purchase of rolling stock, and for improvements to the line. Further issues have been made since that date in exchange for Great Western 5 per cent. debenture stocks, and bonds of the Wellington, Grey and Bruce Ry. Co., and shares of the Chicago, Detroit and Canada Grand Trunk Junction line, for acquisition of the Welland Ry., and for other purposes. In June, 1888, £687,700 was issued for acquisition of £307,800 Northern and Pacific Junction mortgage bonds, £200,000 joint equipment bonds of Northern and Northwestern, and for payment of £131,700 indebtedness for cars of the Chicago and Grand Trunk Ry. Co. By the terms of the Grand Trunk Ry. Act, 1888, securities acquired by exchange for this stock are held alive for the benefit of the holders of the stock. The conversion into this stock of the pre-preference securities (including the 5 per cent. Grand Trunk and Great Western debenture stock), and the bonds of the controlled and subsidiary lines, will from time to time be proceeded with by an arrangement with the holders. Interest payable January, April, July and October. Listed on the London Stock Exchange, and also quoted at Dublin, Edinburgh, Glasgow, Leeds, Liverpool, Manchester and Sheffield.

First Mortgage Five per cent. Sterling Bonds (Northern Ry. of Canada).—Issued in July, 1877, and mature in 1902. These bonds are a first lien on the entire property of the Northern Ry. Co. Listed on the London Stock Exchange, and also quoted at Glasgow and Manchester.

Four per cent. Perpetual Debenture Stock (Northern Ry. of Canada).—Is entitled to privileges and priorities of 2d preference bonds which matured August 1, 1884. Issued in July, 1884, 2d preference bonds being received in payment at £100 bond for £125 stock. Interest payable February and August in London. Listed on London Stock Exchange, and also quoted at Manchester.

Third Preference Irredeemable Six per cent. Bonds, Class A (Northern Ry. of Canada).—Issued under the Companies Act of 1868, and representing the third charge on the undertaking. Holders of these bonds are offered by the company £125 of 4 per cent. debenture stock for £100 bond, and £35,000 bonds had been thus converted to December 31, 1888. Listed on London Stock Exchange, and also quoted at Manchester.

Third Preference Irredeemable Six per cent. Bonds, Class B (Northern Ry. of Canada).—Issued under resolution of February 10, 1869, and powers of Companies Act of 1868, in substitution of the arrears of interest bonds, and ranking for dividends immediately after the Class A bonds, and before the preference stock of 1876. The company offers £125 4 per cent. debenture stock for every £100 of these bonds, and £40,300 had been thus converted to December 31, 1888. Listed on London Stock Exchange, and also quoted at Manchester.

First Preference Six per cent. Northern Extension Bonds.—Interest payable January and July; principal due July 1, 1893. Listed on London Stock Exchange.

Northern Extension Improvement Mortgage Six per cent. Bonds.—Interest payable January and July; principal due July 1, 1893. Listed on London Stock Exchange.

First Mortgage Six per cent. Bonds (Hamilton and Northwestern Ry. Co.).—Issued in June, 1878, in bonds of £100 each. Interest payable June and December, at the office of the Grand Trunk Company; principal matures in June, 1898. Under the Grand Trunk Railway Act, 1888, £12,400 of these bonds have been converted into 4 per cent. debenture stock. Listed on the London Stock Exchange.

Sidings, etc., 33.60 miles. Gauge, 4 ft. 8½ in. Rail (steel, 418 miles), 52 and 56 lbs.

History.—Chartered as a narrow-gauge road in 1870. Road completed to Woodstock May 1, 1873; to Florenceville June 9, 1875; to Grand Falls in December, 1877; to Edmundston October 1, 1878.

In October, 1880, the company sold its entire land grant, amounting to 1,648,000 acres, to the New Brunswick Land and Lumber Co., taking in part payment therefor £513,000 five per cent. 50-year gold bonds issued by Land and Lumber Co., and secured on the whole property of that company. These bonds received the guarantee of the Railway Co. for the due payment of both principal and interest, and were then sold. Part of the proceeds are being applied to the relaying of the whole track with steel rails, the alterations of the gauge, and the purchase of new equipment.

The New Brunswick and Canada RR. is leased for 999 years from July 1, 1882. On July 1, 1883, the company took possession of the St. John and Maine RR., under a lease for 997 years from that date.

NEWFOUNDLAND RAILWAY.

Line of Road.—St. John's to Hall's Bay, Newfoundland 840
Southern Division : St. John's to Carbonear.....100—440 miles.
Completed : St. John's to terminus..... ..... 96 miles.
Sidings, 5 miles. Gauge, 3 ft. 6 in. Rail (steel, 45 miles), 35 lbs.

History.—Chartered May 9, 1881 ; road opened to Holyrood July, 1882 ; to Salmon Cove about November of same year.

The Government of Newfoundland has granted the company a subsidy of $180,000 yearly for 35 years, payable in gold in London, Eng., January and July, as each section of 5 miles is completed. The company has a land grant of 5,000 acres per mile for every 5-mile section completed. The proceeds of the sales of land are to be applied to the redemption of the bonds of the company by purchase at a price not exceeding 120 per cent., or, if such purchases cannot be effected, by drawings at 120 per cent., the bonds drawn to be payable on the following half-yearly day of payment of interest, the interest thereon then to cease. They will also be received in payment for lands, at 120 per cent. The Government of Newfoundland has power to purchase the railway at any time after 35 years, at a valuation, the railway and property to be then vested in the Crown, subject to all bonded and other indebtedness of the railway company at the time of valuation. The coupon due January 1, 1885, and subsequent coupons are in arrear. The Government withholds the cash subsidy on the ground that the liability only comes into force on the completion of the whole system, and not section by section ; and the Government further claims damages for the non-completion of the railway. The Newfoundland courts decided in favor of the company ; but the Government appealed to the Privy Council, who decided that the bondholders were entitled to receive payment of the cash subsidy, and were also entitled to the land grants, while the Government might counter-claim damages against the claim of the bondholders to the subsidy. The road was placed in the receiver's hands January 30, 1885, since which time there have been issued receiver's certificates for £19,987. on which interest to the amount of £1,798 was accrued to December 31, 1887.

NORTHERN AND WESTERN RAILWAY COMPANY.

Main Line of Road.—Chatham Junction to Fredericton, N. B. 108
Blackville Branch: Blackville to Indiantown, N. B..... 9—117 miles.
Sidings, etc., 5 miles. Gauge, 4 ft. 8½ in. Rail (steel), 56½ and 61 lbs.

History.—Chartered in 1870. In 1888 the Dominion Parliament granted this company a subsidy of $102,400, in aid of the construction of 32 miles of its road, from the Intercolonial Ry., near Miramichi, to Moran's, N. B. In 1884 (no work having been commenced in the meantime) Parliament voted money for the construction, by the Government, of a portion of this line, extending from Derby Station on I. C. Ry. to Indiantown, and granted a subsidy of $128,000 for the construction of the road from Fredericton to Miramichi, 40 miles (completed July 1, 1888), in lieu of the subsidy granted in 1883 ($102,400). In 1885 an additional subsidy of $19,200 was granted for the continuance of the line to Boiestown, 6 miles, which was completed November 1, 1886, the Government thereupon paying to the company $18,200—the balance, $1,000, being retained for the widening of certain cuttings. In the same year another subsidy of $140,800 was made for the line from Indiantown to its junction with the N. & W. Ry. at Boiestown, about 50 miles, to be completed by August 1, 1888. A further grant of $32,000 was made for an additional 10 miles for the portion of the road between the then existing termini of subsidized lines and of the two miles extending to deep water at Chatham, N. B.—$6,400 being granted for the deep-water branch. By December 31, 1887, the road from Gibson to Indiantown, 95.50 miles, was completed and in operation—the total subsidy for which was $313,600; of which $305,600 was found to be actually applicable and paid. On November 29, 1888, $6,300 of the deep-water branch subsidy was also paid to the company—the balance, $100, being retained for the completion of certain work.

Passengers carried, 66,385; freight moved, 60,900 tons. Earnings—passenger, $22,683.27; freight, $60,219.51; mail and express, $3,010.82; other, $329—total, $86,242.60. Expenses, $58,213.91. Net earnings, $28,028.69.

Financial Statement, June 30, 1888.—Capital stock (authorized, $6,000,000), $220,000; funded debt (authorized, $6,000,000), $993,000; Government bonuses (Que. and Dom.), $1,935,364; municipal aid, $450,000; floating debt, $383,800—total, $3,982,164. Cost of road, equipment, etc., $3,598,364.

On January 1, 1889, the company made an issue of £780,000 1st mortgage 5 per cent. 20-year £100 bonds, due January 1, 1909, interest payable January and July in London, first coupon being payable July 1, 1889.

These bonds, which amount to about £4,100 per mile, are secured by a first mortgage on the main line of the railway, 190 miles in length, the plant, rolling stock, and material used for the working thereof, the buildings, stations and station grounds, and upon all the lands, property, and material appertaining to the working and running of the main line of railway. By the Deed of Trust the company covenants that no further charge of any kind shall be created over the property mortgaged, except in subordination to the bonds of this issue.

Under the authority of Acts of the Quebec Legislature, the Government of that Province has undertaken and guaranteed the payment of the interest on the bonds for the term of ten years from January 1, 1889, to January 1, 1899, such payment being assumed by the Government irrespective of the earnings of the line.

Under the arrangement with the Government the net earnings of the road will not be required to meet the interest charges for the next ten years, and as an additional security, the company has covenanted with the trustees for the bondholders to pay over to them during that period the whole of the net earnings of the line until a sufficient amount has been accumulated in their hands, to provide for the interest for a further period of five years after the time during which it will be paid by the Provincial Government.

Application will be made in due course for a quotation for the bonds on the London and Provincial Stock Exchanges.

Quarries : Marbleton to Lime Quarries..... 2.5—156.5 miles
Leased : *Intercolonial RR.:* Harlaka to Lévis, Que..... 5.0 miles

Total length of line operated June 30, 1888.....161.5 miles
Sidings, etc., 10 miles. Gauge, 4 ft. 8½ in. Rail (steel, 78 miles), 56 lbs.

History.—Opened to Garthby in 1876; to Coleraine in 1879, and throughout in June 1881. Purchased Lévis and Kennebec Ry. in March, 1881, and through that line secured entrance into Quebec. A charter has been obtained under the name of the *Quebec & Maine Ry.* for an extension of the road to the Maine boundary.

In 1887 power was obtained to reconstruct the company and to provide means for extensions, etc. This agreement was carried through in 1888. The old first mortgage bonds with some others, were exchanged into income bonds and new prior liens were issued (as below). The prior lien bonds are secured on the entire road, lands, equipments, etc.

The 5 per cent. income bonds were issued in 1888 in exchange for "Committee Certificates," as follows: At a meeting of the bondholders held February 8, 1888, the recommendations of a committee appointed May 11, 1885, were adopted, and in the last Session of the Dominion Parliament an Act was obtained authorizing the issue of £300,000 bonds having a first lien on the whole undertaking, tolls and revenues of the company, to provide means for finishing the Chaudière Extension, paying off the floating debt, repairing the main line, etc.; that the existing bonds be exchanged for 5 per cent. income bonds of equal nominal amount as regards the main line bonds, and at the rate of £60 for every £100 of the Chaudière Extension bonds, and that the new bonds carry voting power at the rate of one vote for every £20; that the power to vote, vested in the holders of the preference shares of the company, be suspended until the company shall have paid for three consecutive years the full interest of 5 per cent. on the income bonds.

For the futherance of these ends, bondholders were invited to deposit their bonds with Messrs. Martin & Co., paying 5*s.* per bond for expenses (subsequently returned).

RAILROADS IN MEXICO.

MEXICAN CENTRAL RAILWAY COMPANY (LIMITED).

Main Line of Road.—Mexico City, Mex., to El Paso, Texas.....1,224.2 miles.
Guanajuato Branch: Siloa to Guanajuato, Mex..... 11.4 miles.
Branch to Stone Quarry..... 6.5 miles.
Tampico Division: Tampico, westerly.....117.8; Main Line Junction to San Luis Potosi.....130.7— 248.5 miles.
San Blas Division..... 16.6 miles.
Guadalajara Division: Irapuato to Guadalajara..... 161.0 miles.

Total length of lines owned December 31, 1888.....1,667.7 miles.
Average number of miles operated during the year.....1,316.4 miles.

Gauge, 4 ft. 8½ in. Rail (steel), 56 lbs.

History.—Incorporated in Massachusetts February 25, 1880, and in the same year purchased of the Guanajuato Ry. Co. 60 kilomètres of narrow-gauge railway, which was widened and incorporated into the main line. The entire main line was completed March 8, 1884, and opened April 10, 1884. The Guadalajara Division was opened as above May 21, 1888, and the line to San Luis Potosi was opened June 10, 1889.

Subsidies.—The company acquired a subsidy of about $15,200 per mile ($9,500 per kilomètre) covering the main line, the Tampico and the Guadalajara Divisions, the subsidy being payable from custom-house receipts, and the company having the right to import free of duty all material required for construction, maintenance and operation of its lines, and being exempted from taxes till the expiration of fifty years after completion of all the lines: also the right to construct and operate its railway and telegraph lines for 99 years. It also has small additional subsidies from the State Governments of San Luis Potosi, and Guanajuato. The Goverment of Mexico, on June 1, 1885, suspended the payment of its subsidy.

On June 30, 1886, an amendment was made to the company's concessions by agreement with the Executive, under the authority of the Act of the Mexican Congress of December 12, 1885. By the terms of this amendment the subsidy certificates are to be amortized with the following percentages of the revenue receipts at the several custom-houses, namely: July 1, 1886, to January 1, 1887, 0.75 per cent.; January 1, 1887, to July 1, 1887, 1 per cent.; July 1, 1887, to January 1, 1888, 2 per cent.; January 1, 1888, to July 1, 1888, 3 per cent.; July 1, 1888, to January 1, 1889, 4 per cent.; January 1, 1889, to July 1, 1889, 5 per cent.; July 1, 1889, to January 1, 1890, 6 per cent.; January 1, 1890, to July 1, 1900, 7 per cent.; from July 1, 1890, onward, 8 per cent. The time within which the company promised, as a condition of receiving the extra State subsidy, to connect the capital of the State of San Luis Potosi with the Gulf by rail, expired in June, 1888, but the State Government has extended the time eighteen months. The State has also released $150,000 of the company's first mortgage bonds, held as collateral security for the company's promise, and accepted as a substitute $150,000 of the Federal Government Subsidy certificates. These will revert to the company when its promise has been fulfilled.

Funded debt, 1st mortgage 7 per cent. 30-year bonds, due July 1, 1911, interest Jan[illegible] and July. The income bonds are convertible into stock, are dated July 1, 1881, and [illegible] issued at the rate of $6,400 per mile of road.

Default was made in January, 1886, on first mortgage bond interest. A plan was ag[illegible] upon with the bondholders for a reduction of interest charges, 4 per cent. to be paid in [illegible] yearly, and the remaining 3 per cent. (or any part of it) only if earned, non-cumulative.

In February, 1889, a funding plan was agreed upon under which there will be i[illegible] $8,000,000 5 per cent. prior lien consolidated mortgage bonds, $32,000 per mile in 4 per [illegible] consolidated mortgage bonds, dated January 1, 1889, due July 1, 1911 ; 50-year gold [illegible] consolidated income mortgage bonds, limited in amount to three-tenths of the present [illegible] mortgage bonds, and 2d consolidated income mortgage 50-year gold bonds, limited to [illegible] present amount of incomes.

Of the priority consols, $7,000,000 will be used in paying off the coupon no[illegible] debentures and in providing for the expenses of making the several issues and cha[illegible] volved, and the other $1,000,000 will be reserved for additional rolling stock. The 4 p[illegible] consols will be issued dollar for dollar for present firsts, and the first consolidated [illegible] will go with them as a bonus, $300 for every $1,000. The 2d consolidated incomes [illegible] issued dollar for dollar for present incomes.

The prior liens and the 4 per cent. consols will be a mortgage on the entire prop[illegible] the company and will be additionally secured by deposit with the Boston Safe Depo[illegible] Trust Co., trustee, of the present 1st mortgage bonds, which will be kept alive, and [illegible] 270,000 subsidy to which the company is or will be entitled for construction of the [illegible] Guadalajara and the Tampico Divisions. The trustee will collect any payments [illegible]

account of the 3 per cent. contingent interest on first mortgage bonds and apply same to payment of interest on new incomes, in the order of their priority, and any balance will go to stockholders. The new incomes are entitled, the firsts having the preference, to 3 per cent. per annum if earned. They are issued under one indenture, dated January 1, 1889, to the American Loan and Trust Company, of Boston, trustee, and the present incomes remain in force and will be deposited with the trustee. The company has the option of paying off the 2d consolidated incomes on or before July 10, 1929, at 50 per cent., U. S. currency.

Practically all of the security holders interested have at this date (June 21, 1889) assented to the plan and deposited their securities, the coupon notes have been paid off and the debentures can be called for payment April 2, 1890, and will be retired as soon as practicable.

THE MEXICAN INTERNATIONAL RAILROAD COMPANY.

Main Line of Road.—Piedras Negras, Mexico, to Torreon, Mexico.....383.11 miles.
Lampazos Branch: Completed from near Sabinas Station on Main Line to Hondo. 12.31 miles.

Total extent of road constructed and in operation March 1, 1888..... ....395.42 miles.
Gauge, 4 ft. 8½ in. Rail (steel), 54 lbs.

History.—This company was organized December 9, 1882, under special charter from the State of Connecticut. In 1883 it acquired certain concessions granted by the Government of Mexico under date of June 7, 1881, November 4, 1881, and April 21, 1882, which authorize the construction and operation of a line of railroad and telegraph between the City of Mexico and the Rio Grande, terminating at or near Piedras Negras, with the right to construct another line from a convenient point on the main line to some point on the Gulf of Mexico between Matamoros and Vera Cruz; also another line to the Pacific Ocean at some point between Mazatlan and Zihuatanejo, and also such branches as the company may deem desirable from each side of the lines above mentioned, said branches to be subject to the approval of the Department of Public Works and not to exceed 100 miles each in length.

It is stipulated in said concessions that the road and its appurtenances shall be exempt from taxation for fifty years, and that materials required for the construction, operation and repair of the road shall be free from import or other duties. No subvention is granted, but the Government has obligated itself not to give a subvention to any other line of railroad within 50 miles on each side of the lines so authorized.

About 70 miles, extending from Piedras Negras to Sabinas and including the part within Mexican territory of the International Bridge over the Rio Grande, were completed in 1883. In 1884, 89.37 miles of the main line were completed, and also 10.84 miles of the Lampazos branch, the latter thus reaching the coal fields of San Felipe. The track of the main line was completed January 12, 1888, to Torreon, where connection is made with the Mexican Central Railroad. The operation of the road to Torreon was commenced March 1, 1888.

Rolling Stock.—Locomotive engines, 23. Cars—passenger, 15; M., B. & E., 6; freight (box, 400; flat, 150; stock, 100; coal, 503; caboose, 15), 1,168—total, 1,189. Also, 2 officers', 1 pile-driver, 1 wrecking.

STATEMENTS OF MISCELLANEOUS CORPORATIONS.

THE ALABAMA, NEW ORLEANS, TEXAS AND PACIFIC JUNCTION RAILWAYS CO., LIMITED.—This is an English corporation registered in London, June 1881, to provide the means for acquiring the control of certain railways which it was considered could be advantageously associated with the Alabama Great Southern Ry. Co. Capital stock consists of £2,500,000 deferred "B" shares, £1,500,000 preferred or "A" shares, £200,000 pre-preference shares—the latter unissued; also £1,425,700 (of an authorized issue of £1,500,000) first 6 per cent. debentures, and £446,400 (of an authorized issue of £700,000) second 6 per cent. debentures.

The preferred ("A") shares are entitled to preference in capital and a cumulative preferential dividend of 6 per cent. over the "B" shares. The pre-preference stock is entitled, in addition to all the rights and privileges held by the "A" shares, to 7 per cent. cumulative dividends until such time as the net profits of one year become sufficient to pay, in addition to such dividend and arrears thereof, a dividend of 6 per cent. upon the "A" stock, after which the rate shall be reduced to 6 per cent.; and when the "A" stock shall have received after payment of pre-preferential dividends and all arrears of same, all dividends and arrears of dividends to which it shall be entitled, the right of pre-preference shall cease, and the new shares shall rank thenceforth, in all respects, *pari passu*, with the original "A" shares. Par value of stock, £10 per share; of debentures, £100 each. The deferred "B" shares, £2,500,000, were used in acquiring the interests in the various undertakings. No dividend has yet been paid on either classes of stock.

The first debentures are of £100 each, are secured on the entire property and assets of the company by a deed dated October 13, 1882, and are redeemable at par on April 1, 1907, at any time on six months' notice. Interest payable in London semi-annually, April 1 and October 1. The coupons maturing to the 1st of April, 1887, were paid 5 per cent. in cash and the balance, 1 per cent., in scrip, redeemable out of the proceeds of the second debentures deposited with the trustees. On the October, 1887, coupon, default was made and a receiver was appointed.

The second debentures are of £100 each, redeemable on same date or in same manner as the firsts, secured on the property and assets next in lien to the firsts, are coupon with privileges of registration, mature June 1, 1907, and bear interest at rate of 6 per cent., payable in London semi-annually, June 1 and December 1. In October, 1885, holders of these debentures agreed to accept payment of coupons maturing up to June 1, 1887, in scrip of the same kind, ranking for interest as from June 1, 1887. The debentures were stamped to that effect. Coupon due December, 1887, and since in arrear. The amount of £446,400, given above, is exclusive of debentures issued to trustees for the first debentures and of scrip issued for interest on the second debentures, which are included in the £700,000 authorized. (See foot-note.)

The company owns a controlling interest in the following railroads in the U. S., viz.:

Vicksburg and Meridian RR.	142 miles
Vicksburg, Shreveport and Pacific RR	189 miles
New Orleans and Northeastern RR	195 miles
And in the Cincinnati, New Orleans and Texas Pacific Ry. Co., lessee of the Cincinnati Southern RR.	about 336 miles
Aggregate mileage controlled by the company	862 miles

The Alabama Great Southern RR. (295 miles)—a separate organization—is operated under the same management.

Whole system is under one general management, although each road is maintained and operated, primarily in its own interest, as a separate organization.

The New Orleans and Northeastern RR. was opened through November 1, 1886; the Vicksburg, Shreveport and Pacific RR. in July, 1884.

Net earnings, 1888, $2,414,205.22; add miscellaneous credits, $22,258.34—total, $2,436,463.56. Dividends paid—regular dividend, 1888, $1,192,152; extra dividend, 1888, $597,726—total dividends, 1888, $1,789,878. Balance, surplus, for year, $646,585.56, of which $600,000 was credited to reserve fund for general depreciation, and $46,585.56 to reserve fund for depreciation of instruments, leaving the surplus from last year ($2,028,085.92) unchanged.

"The lines of the American Telephone and Telegraph Company have been extended during the year 1888 from Albany to Buffalo, and new lines have been built from Chicago to Milwaukee, and from Boston to Providence. An additional pole line has also been constructed between New York and New Haven. Altogether, about $2,200,000 has been spent on the long lines, which now comprise 26,038 miles of wire. The greater part of this money has been obtained by the issue on the 1st of August last of $3,000,000 7 per cent. debenture bonds of the American Bell Telephone Company, which were offered to the stockholders at par. The whole amount was subscribed for, except 12 bonds of $1,000 each, which were afterwards sold at auction.

"The success of the long lines has convinced the Directors that the system should be extended. To provide money for the work and for other contingencies, the Legislature has been asked to authorize an increase in the capital stock of the American Bell Telephone Company."

OREGON AND TRANSCONTINENTAL COMPANY.—The Oregon and Transcontinental Company was organized June 28, 1881, under the laws of the State of Oregon for the general purpose of constructing railroads, to secure harmony of action between the Oregon Railway and Navigation Co. and the Northern Pacific RR. Co., by a purchase of a controlling interest in the stocks of these two companies, and to furnish the means to build and equip branch lines to the Northern Pacific RR. Co. (which that company cannot under its charter construct), in order to increase the value of its land and its traffic, by developments of the territory tributary to it, and to protect it from the encroachment of rival lines.

To carry out these plans the two companies agreed practically as follows :

"1. That the Oregon and Transcontinental Company should promote and bring about the actual construction, under the ownership of local companies to be specially organized for the purpose, of such branch lines and such only as would be recommended, surveyed, and located by the engineering department of the Northern Pacific Railroad Company from time to time.

"2. That the Northern Pacific Railroad Company should undertake the actual operation of these branch lines under traffic contracts, by the terms of which a minimum net annual income of $1,400 per mile of operated road should accrue to the branch companies, being equal to 6 per cent. per annum on $20,000 per mile of bonded indebtedness and a sinking fund charge of 1 per cent. The Northern Pacific however, not to become liable for such net income for two years after the completion and acceptance of each line, upon proper inspection and recommendation of its engineering department.

"3. That the Oregon and Transcontinental Company should provide the money required for the construction of the branch lines, including interest on the bonds until the same shall be provided for under the traffic contracts as above mentioned.

"4. That the share capital of each branch company constructed by the Oregon and Transcontinental Company should be deposited in trust, so that the Northern Pacific would exercise all the rights of ownership during the continuance of the trust, subject to compliance with the payment of the net income before mentioned, and would become the absolute owner of it upon the extinction of the funded indebtedness of each company by the operation of the sinking fund."

OREGON IMPROVEMENT COMPANY.—The properties of this company are divided into four general classes: the steamship, the coal, the railroad, and the real estate and miscellaneous properties.

The steamship property embraces the lines of the Pacific Coast Steamship Co., a California corporation of whose 20,000 shares of capital stock this company owns 19,800 shares. It operates five steamship lines: The Puget Sound route, from San Francisco to Victoria, Port Moody, Port Townsend, Seattle and Tacoma; the Alaska route, from Portland to Sitka and other Alaskan ports ; the Oregon route, from San Francisco to Portland ; the California northern coast route, from San Francisco to Point Arenas, Cuffey's Cove, Whitesboro', Little River, Mendocino City and Fort Bragg ; and the California southern coast route, from San Francisco to San Diego, including 29 intermediate landings. In its coastwise traffic the company employs 15 steamships.

The railroad property embraces the Columbia and Puget Sound RR., a narrow-gauge road extending from Seattle to Franklin, Wash. Ter., 33.60 miles, with 9.15 miles of branches, and the Pacific Coast Ry., also a narrow-gauge road extending from Port Harford to Los Olivos, Cal., about 73 miles. The entire capital stock, $1,000,000, of the Columbia and Puget Sound RR. Co. is owned by the Oregon Improvement Co. The Improvement Co. owns the whole capital stock, $1,370,400, of the Pacific Coast Ry. Co., and the whole issue of $1,370,000 first mortgage bonds. The Columbia and Puget Sound RR. Co. owns a coal wharf and bunkers at Seattle, and two adjoining wharves, also a large quantity of city property in Seattle, including a saw-mill and sash factory.

Embraced under the head of coal properties are the New Castle Coal Fields, 1,320 acres, located about two miles from the shore of Lake Washington and 22 from Seattle, Wash. Ter.; the Green River Coal Fields, 1,248 acres, situated about 34 miles southeast of Seattle: the Wilkeson Coal Fields, 1,120 acres, about 31 miles east of New Tacoma—all three lying among the foot-hills between the Cascade Mountain and Puget Sound; three steam colliers for transportation of coal from Seattle to Portland and San Francisco.

The real estate and miscellaneous properties comprise the Beale Street Wharf property and the dock property formerly owned by the Union Lumber Co. in San Francisco; the town site of Prescott; two flumes, one terminating at Dayton, the other at Milton, on the Oregon Ry. and Navigation Company's road; also, 5,620 acres of timber lands at the heads of the flumes, and about 3,120 acres of farm lands located in the Grande Ronde Valley, Oregon.

Operations for year ending November 30, 1888, of the several departments of the company:

NOTE.—The above includes accounts of the Columbia and Puget Sound Railroad Company and the Seattle Coal and Transportation Company, all of the stock of which is owned by the Oregon Improvement Company.

For the purpose of providing funds for the construction of branches to the railroads, for the construction of additional steamers for the Pacific Coast Steamship Co., for the payment of floating debt, and for other purposes, the stockholders in May, 1887, authorized an issue of $2,000,000 preferred stock, to be offered to stockholders and bondholders *pro rata* at par. Of this amount there has been issued to date (May, 1889), $1,794,100.

Funded debt consists of 1st mortgage (on all the Co.'s property) 6 per cent. 30-year sinking fund bonds, due December 1, 1910, interest June and December, of which $449,000 have been retired by the sinking fund.

"Bonds for the sinking fund may be purchased by the trustee at any time during the calendar year, at 106 flat; if the money in the sinking fund is not absorbed by such purchases, then the bonds can be drawn on January 1st of each year, at par flat, but interest on such drawn bonds does not cease until June 1st following the date of the drawing.

"In June, 1888, a settlement of the accounts between the Oregon and Transcontinental Company and the Oregon Improvement Company, which had been standing since 1883, was made by the payment to the former company of $150,000. This settlement has been the subject of many and troublesome negotiations for several years, and is regarded as a fair and equitable disposition of the questions involved relating to the payments of the Oregon and Transcontinental Co. on account of the extension of the Columbia and Puget Sound Railroad, the coal explorations of the Northern Transcontinental survey and the Seattle Saw Mill belonging to the Oregon Improvement Co., and the payments by the Oregon Improvement Co. on account of the Puget Sound Shore Railroad belonging to the Oregon and Transcontinental Co.

"The Pacific Coast Steamship Company was the owner of 1,285 shares out of 13,704 of the stock of the Pacific Coast Railway Company, which had cost it $102,750. It was considered desirable that this stock should be owned by the Oregon Improvement Company, and during the past year the purchase was made for the amount named, and this places the ownership in the Oregon Improvement Company of the entire issue of stock (13,704 shares) and of the bonds ($1,370,000) of the Railway Company; the amount paid made but little difference to the Oregon Improvement Company, as it owned all but 301 shares of the Pacific Coast Steamship Company, to which the amount was paid."

Annual meeting, third Monday in June. Interest payable at office of the company, New York, N. Y. Stock and $5,000,000 bonds listed on New York Stock Exchange.

OSCEOLA CONSOLIDATED MINING COMPANY.—In 1885, it was decided by the directors of this company to move its stamp mill from Portage Lake to Torch Lake, and to participate in the building of a railroad to connect its mines with that point. On May 20, 1886, the stamp mill was stopped and the work of removal begun, and on November 17 following, the mill resumed work at its new location, with the new railroad owned by the Hancock and Calumet RR. Co. running regular rock trains from the mines. The aggregate cost of removal, etc., was $132,342.43.

During the past year this company has sold its production of copper for about three years to "*La Société Industrielle et Commerciale des Métaux de Paris*," at 13 cents per pound, and in addition, such sum as shall be equal to one-half the net profits realized above this price on re-sales thereafter made of said copper. This sale was consummated April 20, and expires December 31, 1890, and, as a guaranty, a letter of credit in favor of this company was opened by "Comptoir d'Escompte de Paris," with J. & W. Seligman & Co. of New York, for $520,000. Thirty days before May 1, 1889, a similar letter of credit is to be furnished, and the same is true of the year following. Up to December 31, 1888, this letter of credit was reduced to about $410,000, by deliveries of copper unsold. On re-sales the credits are not drawn against.

PHILADELPHIA COMPANY.—The company was incorporated by special Act in Pennsylvania, March 22, 1871, as the Empire Contract Company, and took the present name June 11, 1884. In 1887 the Chartiers Company was leased for 99 years at a rental of 21.7 per cent. of Philadelphia Company's net earnings monthly. The Philadelphia Company controls a large share of the natural gas production about Pittsburgh and vicinity, owning or leasing a large quantity of gas territory and 706 miles of pipes. The first mortgage of 1888 (Trustee, Mercantile Trust Co., New York) covers its whole property, gas lands, leases, wells, pipes, etc. In year ending March 31, 1889, gross earnings were $2,756,217 ; net, $1,059,923 ; surplus over dividends (12 per cent.), $159,923. Capital stock (natural gas), $7,500,000 ; funded debt, first mortgage 6 per cent. 10-year bonds, due December 1, 1898, interest payable June and December, $1,500,000. Stock pays dividends of 1 per cent. monthly. GEO. WESTINGHOUSE, Jr., *President*, Pittsburgh.

PULLMAN'S PALACE CAR COMPANY.—This company was organized under the laws of Illinois, February 22, 1867. It is engaged in the sleeping and parlor car business; also, in manufacturing all kinds of railway cars. It has in operation over 1,420 sleeping and parlor cars. Its business extends over about 106,000 miles of the principal railroads throughout the United States, Canada and Mexico ; also to some extent in Europe.

RAILROAD EQUIPMENT COMPANY.—Organized August 25, 1879, to sell rolling stock to railroad companies on the "Car Trust" plan, the purchasing railroad company to pay part in cash, as a margin at the outset, and give its notes, maturing monthly or quarterly, for the balance ; such notes to cover both principal and interest, and to be a first lien on the rolling stock until they are paid in full. The payments are arranged to extend over periods running from five to ten years, the railroad company meanwhile using the rolling stock as lessee only, and agreeing to keep it in proper repair, etc., etc. In case of default in any of the payments, or of non-performance of the other provisions of the contract, the lessor has the right to sell the rolling stock, and to apply the proceeds to the payment of any indebtedness arising under the contract. Each car trust is the basis of a separate issue of bonds by this company, which deposits with a trust company all the securities of such car trust, including the title, contract, promissory notes and insurance policies, for the further security of the bonds.

Financial Statement, January 1, 1888.—Capital stock (authorized, $1,500,000) paid in, $900,000 ; car trust securities outstanding, $5,846,000. The total issue of car trust bonds under the various trusts aggregates $16,635,000, of which matured and paid off, $10,789,000.

THE FEDERAL VALLEY COAL COMPANY.—"This company is miner and "owner of several thousand acres of the best bituminous coal lands in Ohio, 30 miles west "of Marietta, on the Marietta, Columbus and Northern RR. Capacity of mines, 1,000 tons "per day.

"The seams are from 9 to 14 feet thick, and produce a coke equal to any made in the "country, as tested by experts, and is the only coal in Ohio which yields coke adapted to the "manufacture of iron and steel. The company will deliver to all lake ports in Ohio and to "all towns and cities accessible by rail and river at the lowest rates. The distance to Cin"cinnati, Cleveland, Chicago, St. Louis and Toledo is 150 to 200 miles less than Pittsburgh "coal and coke operations. This coal for steam and making gas is unexcelled in Ohio. "WM. R. UTLEY, *President*, St. Nicholas Building, 7 Wall Street, New York ; Robert E. "Phillips, *Manager*, Marietta, Ohio."

TENNESSEE COAL, IRON AND RAILROAD COMPANY.—This company was incorporated by special Act of the Legislature of Tennessee in 1852, as the Sewanee Mining Company; charter amended in 1860, changing the title to Tennessee Coal and Railroad Company, and again amended in September, 1881, and name changed to the existing title. On September 13, 1881, it purchased the property of the Sewanee Furnace Company, and on February 1, 1882, purchased the property of the Southern States Coal, Iron and Land Co. (Limited), the property of those companies thereby being merged into this company. On September 29; 1886, this company purchased and consolidated with the Pratt Coal and Iron Co., which company had previously been formed by absorbing the Pratt Coal and Coke Co., the Alice Furnace Co., and the Lynn Iron Works, and all debts and obligations of those companies having been assumed and provided for by this company.

The business of the company is the mining of iron ore, making pig iron, mining coal and making coke for use in converting this ore into pig iron and for the market.

The property of the company is divided into divisions, as follows :

The *Tracy City Division* comprises coal mines with monthly outputs of 52,000 tons ; 8 openings from daylight ; 20 miles of iron track underground ; 800 coal buggies ; 100 mules ; 2 pump engines and boilers ; 4 engines and boilers for conveying coal to coke ovens ; 3 coal crushers ; 4 chutes and tipples ; 530 coke ovens, 2 saw-mills; 1 brick building ; 200 tenement houses and 25,552 acres of land. Also, 2 locomotives.

The *Cowan Division* comprises 1 blast furnace ; 2 engines ; 3 blast stoves ; 12 tubular boilers ; 1 stock house ; 1 engine house ; 1 cast house ; 1 steam elevator ; 1 mile of iron track ; 2 frame houses ; 1 smith shop ; 1 stable ; 71 tenement houses ; 94 acres of land, and 1 locomotive.

The *South Pittsburg Division* comprises 3 blast furnaces ; 10 blast stoves ; 36 double boilers ; 6 blast engines ; 2 locomotives ; 60 iron slag cars ; 2 heaters ; 5 pumps ; 3 elevators ; 1 crusher ; 1 cast house ; 1 stock house ; 1 engine house ; 1 machine shop ; 1 foundry ; 1

car shop; 1 saw-mill; 1 limestone quarry; 1 colliery; 20 tenement houses; 1 brick store-house and 2 locomotives. At Victoria, Tenn., are located 110 coke ovens, 1 brick house and about 40 tenement houses. At Inman, Tenn., are located ore mines of about 6,500 acres of land of red fossiliferous ore, 4 feet 6 inches thick, and containing enough lime to be self-fluxing. Also, 2 miles of iron track, 2 Rand air-drill plants, and about 40 tenement houses. At Buzzards Roost, Tenn., the company owns large tracts of ore lands, heavily timbered, and valuable deposits of barytes, manganese and granites. The land comprised in this division is 98,000 acres. Also, 100 coke ovens at Whitwell and a colliery with 800 tons daily capacity.

The *Pratt Mines Division* comprises 76,056 acres of coal land. There are in operation at these mines 700 coke ovens, in addition to 125 more which are being completed. At Birmingham, Ala., this division owns one city block and about 24 acres of land. Also, 4 locomotives, 200 cars and 30 miles of standard-gauge track.

The *Alice Division* comprises 8,949 acres of land, besides the underlying minerals in 3,255 acres and 86 acres adjoining the corporate limits of the city of Birmingham, Ala., upon which its two furnaces are located, two red ore mines and one brown ore mine; two city blocks in Birmingham, Ala., on which are 21 tenement houses, also two miles of railroad and 250 beehive coke ovens with coal bins, and several other lots. It also includes the *Lynn Iron Works*, situated on a whole block in Birmingham, Ala., fronting the Louisville and Nashville RR. and the Alabama Great Southern Ry. It embraces one machine shop, blacksmith shop, foundry, boiler shop, locomotive shop and pattern shop, besides store-room, offices, stable, brass foundry, houses, tools and machinery.

The *Ensley Division* includes four of the largest-sized modern blast furnaces, 600 tons daily capacity, with elevators, stock and cast houses, pumps and all other appliances, including four large Gordon stoves and three large Weimer engines to each furnace. All necessary houses, water works, and usual arrangements.

retire prior issues at maturity. The prior bonds on the Tenn. portion of the property are mostly refunded into the above new issue of Tenn. Div. bonds, due 1917. In pursuance of the proposals made to the stockholders on April 24, 1888, and approved and adopted by the special general meeting, held on June 28, 1888, $1,000,000 of common stock was withdrawn and cancelled, and $1,000,000 of 8 per cent. cumulative preference stock was issued in its place. Of the common stock so retired, $170,000 was held by the company last year as unsold treasury stock on a valuation of 50 cents; the remainder of the million was purchased from assenting bondholders at 30 cents. The million of preferred being sold at 90 cents, the balance, less expenses of issue, was credited to profit and loss account. The Birmingham Division bonds are secured on all the property of the Birmingham, Ala., Division (formerly the Pratt Coal and Iron Co.), and are also secured on all the property of the company in the State of Tennessee, but subordinate to the Tenn. Div. mortgage bonds, dated January 1, 1887. The Tennessee Div. bonds are similarly secured by a 2d mortgage on the Alabama property. A sinking fund of one per cent. has been provided on the Birmingham Div. and 1½ per cent. on the Tennessee Div. bonds.

In 1888 there were sold 8,771 acres and 6 town lots for $25,808. Rentals received from grazing lands, $18,458. Certificates of proprietary interest (par $100), $8,761,731.

WESTERN UNION TELEGRAPH COMPANY.—This company was chartered by the State of New York on the 4th of April, 1856, as the successor of the New York and Mississippi Valley Printing Telegraph Company. The share capital at the time was $500,000; this was increased from time to time by the acquisition of other lines, and by the payment of stock dividends, until May, 1864 when it reached $20,133,800. From that time until July 1, 1869, it increased to $41,063,800 by the following issues:

Atlantic and Ohio Telegraph Stock	$833,400	Equalization of Stock as per Consolidation	$468,000
Erie and Michigan Telegraph Stock	68,000	Fractions	55,100
House Telegraph Stock	5,700	Trumansburg and Seneca Falls Stock	3,500

Missouri and Kansas Telegraph Stock	80,000	Total issued previously	20,133,800
United States Telegraph Stock	3,885,200		
U. S. Pacific Telegraph Stock	3,333,300	Total Capital Stock July 1, 1869	$41,063,100

In June, 1879, although the stock nominally amounted to the sum named ($41,068,100), there was in the treasury $5,978,125, derived from net earnings, which were divided at that time by a scrip dividend to the amount of 17 per cent.

On January 19, 1881, the company was consolidated by purchase with the American Union and the Atlantic and Pacific Telegraph Cos. By the terms of purchase, the W. U. Co. increased its capital stock (by $38,926,590) to $80,000,000, with which it paid par for the 100,000 shares stock of the American Union Co., amounting to $10,000,000, and $5,000,000 of new stock for a like amount of that Co.'s bonds. The stock of the A. & P. Tel. Co., amounting to $14,000,000, was purchased at 60 per cent. of its par value, and paid for in new W. U. stock, amounting to $8,400,000. The balance of stock, $15,526,590, was issued to holders of old W. U. stock. The transfer of property, etc., of the purchased companies was made February 3, 1881, since which time the entire system has been under one management.

The W. U. Tel. Co. owns a majority of the stock of the International Ocean Telegraph Co., and nearly one-half the stock of the Gold and Stock Telegraph Co. During the year 1880–81 contracts were made with the Northwestern Telegraph Co., absorbing by lease for ninety-nine years its lines, properties and franchises in Wisconsin, Iowa and Minnesota; and on the Northern Pacific RR., with the Great Northwestern Telegraph Co. of Canada, subleasing to that company the lines acquired from the Dominion Telegraph Co. west of the Province of New Brunswick, and with said last-mentioned company and the Montreal Telegraph Co., guaranteeing to the latter a fixed revenue from the operation of its lines undertaken to be operated by the Great Northwestern Co.

Contracts, dating from January 1, 1882, were entered into with the Gold and Stock Tel. Co. and with the International Ocean Tel. Co., by the terms of which this company will operate the lines, properties and businesses of those companies for a term of ninety-nine years, guaranteeing to the stockholders quarterly dividends at the rate of 6 per cent. per annum, this company being entitled to all the revenues.

On February 10, 1888, the Mutual Union Telegraph Company was absorbed by lease, the rental being the interest at 6 per cent. on $5,000,000 bonds, and 6 per cent. per annum on $2,500,000 capital stock.

During the past year the capital stock was increased by $5,000,000 for the special purpose of acquiring the Baltimore and Ohio Telegraph. The sterling bonds of 1900 to the amount of £4,100 and building bonds of 1902 to the amount of $11,000 were redeemed by the sinking fund trustees.

In addition to the acquisition of the Baltimore and Ohio Telegraph system, consisting of 6 711 miles of lines, carrying 54,087 miles of wire, and of the New York and Southern Telegraph system of 1,528 miles of lines and 5,090 miles of wire, there was constructed during the past year directly by the company and paid for out of the treasury 6,322 miles of line and 32,430 miles of wire; on which account there was appropriated $1,219,590.67 in cash.

There was also taken and paid for in cash $400,000 of additional stock in the Metropolitan Telegraph and Telephone Company at par.

Supplementary statement of earnings, expenses, etc., for 9 months ending March 31, 1889 (last quarter partly estimated):

Funded debt consists of real estate gold 30-year bonds, dated May 1, 1872, interest 7 per cent., payable May and November, by Union Trust Co., of New York, $1,325,000 ; 7 per cent. 25-year coupon bonds, dated May 1, 1875, interest payable May and November at treasurer's office, $4,920.000 ; sterling 6 per cent. gold 25-year bonds, dated March 1, 1875, interest payable March and September by Morton, Rose & Co., London, $871,398. Sinking fund held by Union Trust Co., trustee, $379,359.68.

In January, 1889, there were listed on the New York Stock Exchange $264,000 collateral trust 5s, being part of an additional issue of $2,500,000 of those bonds which are to be used only, from time to time, in purchasing stock and bonds of the New York Mutual Telegraph Company. There have been issued $7,500,000 of these bonds to retire an equal amount of stock and bonds of various telegraph and cable companies for the interest or dividends on which the W. U. T. Co. is liable, these when retired to be held as securities for the new bonds. The latter are 5 per cent. 50-year bonds, due January 1, 1938, interest payable January and July. Trustee, Mercantile Trust Co.

Annual meeting, second Wednesday in October. Books close about September 20, and reopen immediately after meeting. Stock and bonds listed on the New York Stock Exchange.

Surplus, June 30, 1888	7,498,548 94	
		$24,583,340 97
On Account of these Assets, a Stock Distribution was made in 1881 to the amount of		15,526,590 00
Deducting which leaves a Balance of		$9,056,750 97

"The above balance of $9,056,751 is the aggregate surplus not represented by any form of capitalization, and which has chiefly been invested in construction and new properties. The difference between this balance and that which is shown in the statement of 'business for the year' is because of appropriations for construction out of earnings previous to October 1, 1881, over and above the $15,526,590 capitalized by the issue of capital stock in 1881, and which, previous to October of that year, had been carried into the quarterly statements. Since that period, in compliance with a resolution of the Board of Directors, a separate account of construction and purchase of new properties has been kept, which, as shown in the last previous report, has been credited with $1,000,000 received from the sale of bonds; with $143,976.87 from the sale of telephone properties; and with $1,199,852.06 capitalized by the issue of scrip dividend since converted into stock—all of which were applied as a credit to this account.

"Of the $51,185,565.07, which has been paid to stockholders in cash dividends since July, 1866, $30,051,682.73 have been paid since the consolidation with the American Union and Atlantic and Pacific Companies in January, 1881, and in addition thereto, $12,193,823.83 have been advanced and paid within the same period for new and additional properties, on account of which, however, $1,143,976.87 has been derived, as before stated, and the balance advanced and paid in cash out of the treasury of the company. A fraction less than $1,200,000 was capitalized by the issue of the scrip dividend, and credited to this account."

"The foregoing table exhibits the growth and increase of the property and business of the company year by year for twenty-three years. The traffic shows an increase of over four millions of messages handled, and of 30 per cent. in the revenues derived from the hire of leased wires mainly to the press and to business houses, the messages over which are not taken into the count. The increase in gross revenues was over two and a half millions, and over one million in net profits, as compared with the business of the previous year."

- *Richmond and Allegheny RR.* and branches.....256.88 miles.

Trackage: *Elizabethtown, Lexington & Big Sandy RR.*: Big Sandy River to Ashland, Ky.....8.00 miles.

Total length of lines operated.....921.65 miles.

Sidings, etc., 189.25 miles. Gauge, 4 ft. 9 in. Rail (steel), 56, 60 and 75 lbs.

History.—This company was organized July 1, 1878, as successor to a company of the same name whose property was sold under foreclosure April 2, 1878. See MANUAL for 1888, page 603. The company having defaulted on its interest payments, a receiver was appointed October 28, 1887. Subsequently a plan of reorganization was agreed upon and carried out successfully without foreclosure, and the property has since been turned over to the reorganized company. The plan of reorganization was given in full in the MANUAL for 1888.

The company owns all the bonds and over two-thirds of the stock of the Maysville and Big Sandy RR. Co., and all the stock and bonds of the Covington and Cincinnati Elevated Railroad and Transfer and Bridge Company, including a bridge from Covington to Cincinnati, and an elevated railroad and depots in the latter city. The company also owns 4,800 out of 5,000 shares of stock of the Chesapeake and Ohio Elevator Company, owning grain elevator at Newport News on which there are outstanding $820,000 4 per cent. first mortgage bonds and $450,500 4 per cent. second mortgage income bonds. The first mortgage bonds are guaranteed by this company. An arrangement has also been made for the acquisition and ultimate ownership of the Richmond and Allegheny RR. from Richmond to Clifton Forge, Va., 230 miles, and 22 miles of branches, and pending its completion, the Richmond and Allegheny is operated by the Chesapeake and Ohio as a part of its system, the Chesapeake and Ohio paying for its use equal to the interest that would accrue on the new Richmond and Allegheny securities when they are issued.

Rolling Stock, December 31, 1887.—Locomotive engines, 163. Cars—passenger, 38; combination, 3; baggage, mail and express, 26; freight (box, 2,094; stock, 206; flat, 370; gondola, 2,480; coal, 853; coke, 94), 6,097; caboose, 145; other, 216—total cars, 6,525.

Operations for year ending December 31, 1888.—Train mileage, traffic statistics and details of earnings and expenses not reported. Gross earnings (old line), $4,415,236.36; net earnings, $887,608.49.

Financial Statement, January 1, 1889.—Capital stock—common, $40,000,000; first per-

The Purchase Money Funding bonds were issued in exchange of purchase money obligations, and are secured by a mortgage upon the property and franchises of the company between Richmond and Huntington. Trustees, Joseph Bryan and Henry T. Wickham.

The first mortgage gold bonds of 1908, series A, are secured by a mortgage on the entire main line (Phœbus to Huntington) and franchises of the company, subject to the prior lien of the Purchase Money bonds. They were issued to provide means for the extension of the road from Richmond to Newport News, and provide terminal facilities, etc., at that point. Trustee, Central Trust Co., New York.

The Peninsula Extension bonds are secured on the line from Phœbus to Richmond, 75 miles. They are $1,000 coupon bonds with privilege of registration. Trustees, John Hillhouse and E. St. John.

The Terminal bonds are secured on the extension from Newport News to Old Point Comfort and terminals at those places. They are $500 and $1,000 bonds, and coupon with privilege of registration. Trustees, J. P. Lloyd and F. H. Davis.

The Equipment Trust bonds were issued and are payable at various dates and bear 6 per cent. interest, payable also at various dates. Trustee, Mercantile Trust Co., New York.

Annual meeting, third Thursday in March, at Richmond, Va.; books close about three weeks in advance of and reopen day after annual meeting. Voting power attaches to stock immediately after transfer. Transfer agent, Drexel, Morgan & Co., New York.

The first consolidated mortgage bonds were issued under the provisions of the plan of reorganization and cover the entire old line of the company and also (by deposit with trustee of the stocks and bonds issued by the companies owning them) the extension from Ashland to Covington and the bridge across the Ohio River from Covington to Cincinnati. Of the total issue, $7,284,000 are reserved to meet prior liens and $4,600,000 for future needs of the company; but the latter amount cannot be issued while the voting trust, provided in the plan of reorganization, shall continue, unless authorized by the board of directors and the voting trustees, and thereafter only to be used for the purchase of rolling stock, for betterments, for new construction or purchase of property. The coupon bonds are for $1,000 each, and may be registered as to principal, or may be exchanged for full registered bonds of $500, $1,000 and $10,000 each. Trustee of mortgage and registrar of transfers of registered bonds, Central Trust Co., New York.

Directors (elected January 8, 1889).—Melville E. Ingalls, C. H. Coster, George T. Bliss, Charles D. Dickey, Jr., Henry Villard, W. Salomon, W. P. Anderson, Ex. Norton, C. P. Huntington, George S. Scott, Henry T. Wickham.

CINCINNATI, HAMILTON AND DAYTON RAILROAD COMPANY.

Main Line of Road.—Cincinnati, Ohio, to Dayton, Ohio..... 59.93 miles.

Leased:
- *Dayton and Michigan RR.*.....142.10
- *Cincinnati, Hamilton and Indianapolis RR.*..... 98.90
- *Columbus, Findlay and Northern RR.*..... 17.60
- *Bowling Green RR.*..... 6.00
- *Piqua and Troy Branch RR.*..... 8.30
- *Cincinnati and Dayton RR.*..... 14.00—286.90 miles.

Total length of lines owned and operated.....346.83 miles.
2d track, owned, 27.80 miles; sidings—owned, 43.7; leased, 74.8. Gauge, 4 ft. 9 in. Rail (steel and iron), 60 lbs.

History.—Chartered March 2, 1846, and road opened September 20, 1851. The leased lines were added on the following dates: Dayton and Michigan, May 1, 1863; Cincinnati, Richmond and Chicago, February 15, 1859; Cincinnati and Indianapolis, November 26, 1872. The Columbus, Findlay and Northern was built in 1880 under the charter of the McComb, Deshler and Toledo RR. Co. It extends from McComb to Deshler, 8.9 miles. The name was changed in 1887, and an extension from McComb to Findlay, 8.80 miles, was completed July 5, 1888. The Bowling Green RR., from Tantogany to Bowling Green, 6 miles, was purchased in 1887, and the Piqua and Troy Branch was constructed in the same year. See MANUAL for 1888, page 1082.

During the past year the company purchased the completed section of the Louisville, Cincinnati and Dayton RR., from Middletown to Hamilton, O., a distance of 14 miles.

In the contract for the sale of the Cincinnati, Richmond and Chicago RR. to the Chicago, St. Louis and Pittsburgh RR. Co., taking effect August 19, 1888, provision was made for the use of the line between the terminus of the Piqua and Troy Branch RR. at Piqua and the intersection with the Dayton and Michigan RR. The same contract provides for use (by the Chicago, St. Louis and Pittsburgh RR. Co.) of this company's tracks between New River and North Hamilton, and also for the interchange use of terminal facilities at Cincinnati, and traffic rights between Hamilton and Cincinnati to either party.

The Columbus, Findlay and Northern RR. was completed and opened for traffic to Findlay August 1, 1888.

Rolling Stock, March 31, 1889.—Locomotive engines, 98. Cars—passenger, 97; baggage, mail and express, 21; postal, 3; freight (box, 2,768; stock, 125; flat, 403; coal, 1,717; caboose, 80), 5,043; wrecking, 6—total cars, 5,170.

Railroads Leased or Owned by the C., H. & D. RR.

CINCINNATI, HAMILTON AND INDIANAPOLIS RAILROAD.—Hamilton, O., to Indianapolis, Ind., 98.90 miles; total track (steel, 56.7 miles), 116.40 miles. Chartered as Junction RR.—in Indiana, February 18, 1848; in Ohio, March 8, 1849. Road opened August 9, 1867. Sold under foreclosure November 26, 1872, and reorganized under present name. The C., H. & D. RR. Company owns the whole of its capital stock ($2,500,000), and $706,000 of its bonded debt. The road has never earned interest on its bonds, and up to January 1, 1880, about $350,000 was due, for which the C., H. & D. RR. Co., as lessee, was liable. On January 23, 1880, arbitrators agreed upon by the lessees and bondholders awarded that the bondholders should exchange their coupons for a new 7 per cent. (non-cumulative) preferred stock, and that thereafter the accruing coupons should be paid by the C., H. & D. RR. Co.; annual interest charge, $126,000. Year ending March 31, 1889: Surplus, $9,166.56. Paid Indiana Union Ry. Co.: Rental of track, $25,672.33; for construction, $1,363.11—total, $27,035.44. Deficit, $17,868.88. COLORADO EASTERN RAILWAY COMPANY.

Main Line of Road.—Denver, Col., to Scranton, Col.....17.0
Branch toward Union Depot, Denver, Col..... 0.5—17.5 miles.
Gauge, 3 ft. Rail (steel), 18 and 21 lbs.

History.—Chartered as Denver RR., Land and Coal Co. January 25, 1886, and road opened as above September 1, 1886. Name changed and company reorganized in 1888. The length of the branch as projected from present terminus of the main line near Grant Smelter, Denver, to Union Depot is 2 miles. The present company has rebuilt the bridges, widened banks and cuts, and made arrangements for changing the gauge to the standard, relaying the road with 60-lb. steel rail and completing it through to the east line of the State of Colorado. These improvements are retarded by litigation with the Union Pacific over the right of occupancy of the terminals in Denver.

In addition to the railroad the company's property consists of 3,360 acres of coal lands owned in fee simple, 640 acres leased from the State of Colorado, besides valuable terminals, franchises, etc., in the city of Denver.

Rolling Stock.—Locomotive engines, 2. Cars—passenger, 2; baggage, etc., 2; coal, 99; other, 3—total cars, 106. Also a complete equipment at the mines, coal chutes, etc.

Financial Stock.—Capital stock, $500,000. Funded debt, $500,000 first mortgage bonds 6 per cent. 20-year gold bonds, due 1907, interest and principal payable in New York. Trustee, Knickerbocker Trust Co.

ELGIN, JOLIET AND EASTERN RAILWAY COMPANY.

Main Line of Road.—Spaulding, Ill., to McCool, Ind..... 89.5 miles.
Aurora Branch: Normantown, Ill., to Aurora, Ill..... 8.5 miles.
Operated: Gardner, Coal City and Northern Railway..... 31.5 miles.

Total length of lines owned and operated.....129.5 miles.

2d track, 13; yard track, 17 miles. Gauge, 4 ft. 8½ in. Rail (steel), 60 lbs.

History.—Chartered in 1887. Absorbed the Joliet, Aurora and Northern Ry., built in 1886 from Joliet to Aurora, Ill., 25 miles, and by the close of 1888 had built extensions to it as shown above. The Gardner, Coal City and Northern Ry. is operated by this company at cost, and another line, which is about to be built at once by a separate corporation, from Spaulding, Ill., to a point on Lake Michigan will probably also be operated by this company.

Digitized by Google

This road and the line from Spaulding to Lake Michigan will, when the latter is completed, form a great belt line around Chicago, intersecting all railroads reaching that place from every direction.

Rolling Stock, June 1, 1889.—Locomotive engines, 23. Cars—freight, 101; other, 32—total, 133.

Financial Statement, April 1, 1889.—Capital stock, $4,000,000; funded debt, $3,427,000; sundry dues, $50,646.39; rent account, $56.64; Gardner, Coal City and Northern Ry. Co., $1,709.29; income account, $7,624.90—total liabilities, $7,487,037.22. *Contra:* Cost of road and equipment, $7,224,900; cash, 13,071.49; current dues, $27,566.84; taxes, $7,522.08; materials and supplies, $11,896.53; insurance, $841.66; new construction, $1,238.62; cash on hand to pay coupons, $200,000—total assets, $7,487,037.22.

Funded debt consists of first mortgage 5 per cent. $1,000 gold coupon bonds (with privilege of registration of principal), dated November 1, 1888, due November 1, 1936, interest payable May and November, principal and interest payable at the company's agency in New York. The bonds are limited in issue to $30,000 per mile of single track railway and equipment, and an additional $10,000 per mile second track of railway and equipment, with an additional $5,000 per mile of railway, whether of single or double track, for real estate and improvements, and not to exceed an aggregate for all purposes of $6,000,000. The bonds pass by delivery, or by transfer on the books of the company at its agency in the city of New York. After a registration of ownership no transfer is valid except upon the books at the transfer agency, unless the last transfer be to bearer, in which case the transferability by delivery is restored. But the bond is subject to successive registrations and transfers, at the option of each holder, provided the coupons yet to mature are attached to the bond. The coupons are payable to bearer in all cases, whether the bond itself is registered or not. Trustees: Union Trust Co., New York, and John M. Butler, Indianapolis, Ind.

GARDNER, COAL CITY AND NORTHERN RAILWAY.—Walker to Coster, Ill., 31.5 miles. Gauge, 4 ft. 8½ in. Rail (steel), 60 lbs. Chartered in 1888, and road completed in same year. WISCONSIN CENTRAL COMPANY.

This company was formed June 17, 1887, under the general laws of Wisconsin for the purpose of acquiring possession, ownership and control of the Minnesota, St. Croix and Wisconsin, the Wisconsin and Minnesota, the Chippewa Falls and Western, the St. Paul and St. Croix Falls, the Wisconsin Central, the Penokee, and the Packwaukee and Montello Railroads, which were independent corporations, constituting (with their leased lines, viz., Milwaukee and Lake Winnebago, and Chicago, Wisconsin and Minnesota Railroads) the Wisconsin Central trunk-line system, connecting Ashland on Lake Superior, St. Paul and Minneapolis in Minnesota, the Gogebic Iron Range in Michigan, with the cities of Milwaukee and Chicago. On December 31, 1888, its books showed :

Its first mortgage bonds are 50-year 5 per cent., January and July, coupon or registered at holder's option, and are dated July 1, 1887. Trustees, John A. Stewart and Edwin H. Abbot. Registrar, Farmers' Loan and Trust Company, New York. Its income bonds are 6 per cent., April and October, non-cumulative. Its preferred stock draws cumulative dividends from July 1, 1887. All these securities were listed on the New York Stock Exchange in June, 1889.

The balance of securities in treasury is available for general purposes of the company carrying out the objects of its incorporation.

The Wisconsin Central Company has received due conveyance and delivery of the entire property and franchises, and is now the owner in fee of the following lines :

On July 1, 1888, the Wisconsin Central Company entered upon the actual possession, operation and management of the entire Wisconsin Central system, so-called, excepting the Wisconsin Central Railroad proper, and its leased line, the Milwaukee and Lake Winnebago Railroad. These railroads continue to be possessed and operated by Stewart and Abbot, trustees in possession of the Wisconsin Central Railroad. But the Wisconsin Central Company will eventually operate and control all the road now in possession of these trustees, since it has already bought about seven-eighths of the stock and owns or controls about two-thirds of the outstanding bonds issued by the Wisconsin Central Railroad Company. A large reduction in capitalization has thus been affected by the Wisconsin Central Company acquiring ownership of the Wisconsin Central system.

LINES OWNED, LEASED OR OPERATED BY THE WISCONSIN CENTRAL COMPANY.

MILWAUKEE AND LAKE WINNEBAGO RAILROAD.—Schleisingerville to Neenah, Wis., 65.28 miles. Rail (steel), 57 lbs. Chartered March 24, 1882; road opened December 18, 1882, and leased, with full equipment of rolling stock and motive power, from that date, for 99 years, to the Wisconsin Central RR. Co., in the interest of which it was built, the lessee paying as rental 37½ per cent. of the gross earnings, until the annual rental amounts to $175,000, any surplus over which sum in any one year is to be equally divided between the two companies. The company uses the tracks of the Chicago, Milwaukee and St. Paul Ry., between Milwaukee and Rugby, 27.60 miles, and those of the Chicago, Wisconsin and Minnesota from Rugby into Schleisingerville, 4.90 miles. Capital stock—preferred, $780,000; common, $520,000—$1,300,000; funded debt (1st mortgage 6 per cent. 30-year gold coupon or registered bonds, due July 1, 1912, interest January and July, $1,430,000; income gold coupon or registered cumulative 5 per cent. 30-year bonds, due July 1, 1912, interest January and July, $520,000), $1,950,000—total, $3,250,000. It issues, under supplemental lease, 20-year 6 per cent. (interest payable April and October), debentures to pay for additions to and improvements upon the demised property, when and as made from time to time. Amount of debentures issued to June 1, 1888, is $226,000. Preferred stock has priority of common to extent of 6 per cent. cumulative dividends, and shares equally with common in larger dividends declared on whole stock. Income bond coupons are regularly paid when due, under standing order of directors. Dividend of three dollars per share was declared to holders of preferred stock on July 1, 1888, out of surplus net earnings of 1887, $52,560.63, leaving in treasury undivided assets receivable and cash, $20,160.63, and on July 1, 1888, after dividend was paid. Lessee pays the interest on all debentures for first ten years, and lessor pays all subsequent interest and the principal, and gives option to holders to convert into common stock at any time coupon matures. John A. Stewart, Edwin H. Abbot and George Hoffman, Trustees. New York transfer office, Farmers' Loan & Trust Co.; Boston transfer office, 50 State Street. Annual meeting, last Tuesday in May. Stocks and bonds (except debentures) are listed on the New York Stock Exchange. CHARLES L. COLBY, *President and Treasurer*, Milwaukee, Wis.; Edwin H. Abbot, *Vice-President and Secretary*.

HOUSTON, EAST AND WEST TEXAS RAILWAY.—Gross earnings for year ending March 31, 1889, $394,015; expenses and taxes, $236,094; net earnings, $157,606. The company's financial condition is the same as heretofore published, except that there has recently been executed a new issue of consolidated first mortgage 5 per cent. 40-year gold bonds to the amount of $3,456,000, being at the rate of $18,000 per mile of existing road. The new bonds are secured by a mortgage to the American Loan and Trust Co. of New York, covering the road and equipment and 75,000 acres of land. The land is not embraced in the original first mortgage, but is covered by the second mortgage, all of which latter bonds are owned by the company, but are pledged as collateral security for a loan of $250,000. The new bonds will be used in retiring present firsts and overdue coupons, and to provide means for paying off the floating debt, retiring the notes secured by the second mortgage bonds, and changing the gauge to the standard. A plan of reorganization has been agreed upon, by which all classes of creditors are provided for. *Directors:* E. L. Bremond, J. J. McKeever, S. K. McIlhenny, Houston, Tex.; J. C. Short, J. C. NORTHERN PACIFIC AND CASCADE RAILROAD.—South Prairie Junction to Carbonado, Wash. Ter., 10.4 miles. Built in 1885 and operated as a branch of the Northern Pacific RR., under a contract to run for 99 years from August 1, 1885. Capital stock, $225,000, all owned by the Northern Pacific RR. Co.

NORTHERN PACIFIC AND MONTANA RAILROAD.—During the year ending June 30, 1888, there was built in the Territory of Montana four lines of railroad: the *Drummond and Phillipsburg RR.*, from Drummond to Phillipsburg, 25.8 miles; the *Helena, Boulder Valley and Butte RR.*, from Jefferson to Calvin, 30 miles; the *Helena and Northern RR.*, from Clough Junction to Marysville, 12.5 miles; and the *Missoula and Bitter Root Valley RR.*, from Missoula to Grantsdale, 50 miles—a total of 118.3 miles. These roads were built by S. T. Hauser and associates, under an agreement with the Northern Pacific RR. Co., whereby the contractors were paid one half their outlay in bonds of the branch roads and the other half in freights over the branch roads and the Northern Pacific RR. There were issued on the roads first mortgage 5 per cent. 50-year bonds, due June 1, 1937, interest payable June and December, to the amount of $20,000 per mile, being an aggregate of $2,366,000 on the 118.3 miles built. In 1888 the Northern Pacific and Montana RR. Co. was organized, and purchased the roads above named. The new company made an issue of first mortgage 6 per cent. 50-year $1,000 bonds, due September 1, 1938, interest payable March and September, authorized at the rate of $25,000 per mile. Of these bonds there are now outstanding and listed on the New York Stock Exchange $3,131,000, and the bonds of the consolidating companies have been stricken from the list. The proceeds of the new issue were to be used in retiring the branch lines' bonds mentioned above, in paying the balance due to the contractors, and in building new roads. The Northern Pacific RR. Co. guarantees payment of interest and sinking fund contributions sufficient to retire the bonds at maturity.

Alabama.—Under Adjustment Act of Feb. 23, 1876, State issued in exchange for old "Straight State bonds," substitution (A) bonds, bearing 2 per cent. interest for first 5 years; 3 per cent. for next 5 years; 4 per cent. for next 10 years; and 5 per cent. thereafter to maturity. Railroad indorsements were exchanged for bonds (B), bearing full interest, 5 per cent. State indorsements for the Alabama and Chattanooga RR. were exchanged for bonds (C), bearing 2 per cent. interest until 1885, and 4 per cent. thereafter. All these bonds run 30 years, and are payable (except 6's of 1880, which are payable in Montgomery), principal and interest, at American Exchange National Bank, New York. The new sixes were issued in 1880, in exchange for 8 per cent. obligations. The State has the option of retiring them after 10 years at 106. Interest payable in New York or at State Treasury. Total funded debt, $9,214,300. The limit of each issue is stated in the table above. Assessed valuation, 1880, $123,757,073; 1881, $152,920,115; 1882, $151,520,551; 1883, $158,518,157; 1884, $167,124,594; 1885-86, $172,528,928; 1886-87, $214,925,869. State receipts for year ending October 1, 1888, $1,589,066.36; expenditures, $1,309,503.73; excess, receipts, $279,552.63. Tax levy, 1886, $1,063,327; tax-rate, 55 cents per $100; population, 1,500,000; valuation per capita, $143.30; tax levy per capita, $0.71.

Arkansas.—Interest in default on all securities except the sinking fund and the 10-year bonds of 1874. The old bank bonds are held by the U. S. Treasury. The State has been in default on interest payments since 1841, but under Act of 1887 overdue coupons were made exchangeable for certificates of indebtedness, which are receivable for certain accounts and dues. The Levee bonds were declared by the State Supreme Court to be invalid. The railroad debt was repudiated under the plea that it had been created by "alien adventurers." Total acknowledged debt, $2,029,100; total, including overdue interest, $4,862,015. Acknowledged debt on which interest is paid, $598,500. Assessed valuation of real estate, $90,760,142; personal estate, $57,499,512; total, $148,259,654. Rate of taxation for 1887, 5 mills; population, 1,200,000; valuation per capita, $117.11, taxation per capita, $0.60.

ing bonds only $488,100 were fundable. The aggregate amount funded to January 1, 1879, including general fund warrants, interest warrants, past due coupons detached from old bonds, and Consolidated Planters' Association bonds, is placed at $19,550,122.85, and the amount outstanding at $4,547,890.92. Of the aggregate of the outstanding debt only $676,890.92 was fundable, the remainder having been declared not fundable. A Constitutional Convention was held in 1879, at which a resolution was adopted instructing the State officers not to pay the July interest until ordered to do so by the Convention. A majority report of the committee made the debt as it stood on January 1, 1879, $3,168,813, and provided for 4 per cent. bonds payable in 30 years, the existing accepted bonds to be exchanged on or before January 1, 1882. The minority report declared the debt as shown to exist a valid obligation to remain inviolate, but that the interest shall be reduced to 3 per cent. for 5 years from January 1, and be 4 per cent. thereafter—the 5½ mill tax to be reduced to 3 mills. Both reports were rejected: but on the Convention adopted a substitute for the minority report, recognizing the State debt as constituted under the Funding Act, but reducing the interest to 2 per cent. for 5 years, 3 per cent. for 15 years—thereafter 4 per cent., the first coupon to be paid July 1, 1880. In June, 1882, a constitutional amendment passed the Legislature was confirmed at the election in April, 1884, giving 4 per cent. interest after Jan., 1885, and nullifying the 3 per cent. provision. Total amount of consol. bonds limited to $15,000,000. Assessed value, 1888, $[illegible]. Rate of tax for State purposes, 6 mills.

Maine.—Total debt, $3,985,400: annual charge, $236,124; sinking fund, January 1, 1889, $[illegible]; funds held by State, on which interest is paid, $799,090.51. It is proposed to issue 3 per cent. bonds in exchange for those falling due in 1889. Receipts in 1888, $1,087,388.90; expenditures, $1,127,893.58. Valuation, $[illegible]. Rate of tax, 2.75 mills. Population, 660,139. Valuation per capita, $357.47.

Maryland.—Total debt, $10,370,535.56. As an offset to this debt the State holds the following bank stocks, on which interest or dividends are promptly paid, to wit: Preferred stock in the B. & O. RR. Co., 615.70; stock in Washington Branch B. & O. RR. Co., $550,000; stock in Farmers' National Bank, Annapolis, 470; stock in Annapolis Water Co., $30,000; bonds of Northern Central RR. Co. (mortgage), $1,[illegible]; and bonds to the credit of the sinking funds, $1,487,415.90; cash to credit of sinking funds, $[illegible], $4,715,181.34. Net present debt after deducting productive assets above given, $5,655,354.22. There are debts for which a tax, aggregating 8½ cents on the hundred dollars, is provided, to wit: The Defence Redemption Loan, for which a tax of 5½ cents on the hundred dollars is imposed, amounting to $[illegible]; the Exchange Loan (a part), for which a tax of ¼ of 1 cent is imposed, amounting to $100,000; the Maryland Loan, for which a tax of 1 cent is imposed, amounting to $465,000; the Deaf and Dumb Loan, for which a ¼ of 1 cent is imposed, amounting to $125,000; the Treasury Relief Loan, for which a tax of 1½ cents is imposed, amounting to $500,000—making a total of $4,190,000. The interest on the remaining portion of the State's indebtedness is provided for by revenues coming into the treasury from other sources than direct taxation. The funds now, or will be, before July 1, 1888, to the credit of the sinking funds, maintained to pay off the three above-mentioned debts, to wit: The Maryland Hospital loan, the Deaf and Dumb loan, and the Treasury Relief loan—are equal to such debts." Taxable property for 1888, real and personal, $490,016,183: levy, 17½ cents per $100, a total of $869,778.63. Of the total levy, 10½ is for school tax; 5½ for bounty tax; 1½ for treasury relief for exchange loan of 1886. Total receipts from all sources (1888), $1,860,106.50; expenditures (including debt, $472,837.50), $2,910,060.24. Balance, October 1, 1888, $532,069.46. Population, 1,[illegible]. Valuation per capita, $437.

Massachusetts.—Total debt, $[illegible]; annual charge, $1,442,580.98. Sinking funds, $[illegible]. Taxable property, etc., as follows:

Revenue receipts are derived from general and special taxes, licenses, fees, railroad rents, tolls, etc., etc. Revenue payments are for support of government, interest on debt, town distribution, charities, etc., etc. The Funds Accounts are strictly separate.

The receipts for 1888 were, on revenue account, $14,749,108.43; fund account, $8,796,969.63; total, $23,546,078.11. Payments: Revenue, $14,173,108.14; funds, $8,796,895.03; total, $22,970,003.17. Excess of receipts, $576,074.94. Population, 2,005,768.

Michigan.—Total debt, $239,992.83. Trust funds held by State, and upon which it pays interest, $5,178,518.70. Receipts, 1887-88, $3,183,088.11; payments, $2,869,318.94. Surplus for year, $313,779.17; total surplus in treasury, $1,188,567.70. Assessed valuation of real and personal property, $945,000,000. State tax, $1,202,161.67. Population, 2,078,653. Valuation per capita, $450.

Minnesota.—The people several times refused to recognize the old railroad debt of $2,275,000, but a compromise was finally effected. Amount of bonds held in school fund, $1,931,000; permanent university fund, $288,000; a total of $2,269,000. Valuation, 1888, real, $474,677,586; personal, $122,626,000; total, $577,303,586. State tax, levy, 1887, $642,883.52. Total receipts in treasury, $12,476,580.37. Payments, $2,839,227.76. Population, 1,400,000.

Mississippi.—The State Treasury holds $175,000 of the 4 per cent. bonds on account of the deposits of Insurance Companies. In 1830 the State of Mississippi chartered the Planters' Bank, and in 1833 subscribed to its stock 6 per cent. bonds to the amount of $2,000,000. In 1838 a subscription of $5,000,000 in 5 per cent. bonds was made to the Union Bank. Interest was paid on these bonds to November 1, 1840, since which time not a dollar of principal or interest has been attempted to be paid. In 1842 the Legislature repudiated the entire debt. The State Courts have affirmed the constitutionality of the issue of these bonds, and that they are binding obligations on the State. In 1853 the people voted against their payment, and the matter so remains. Valuation, 1887, $129,887,254. Rate of tax, 3.5 mills. Population, 1,400,000.

Missouri.—Total debt (including bonds issued to Hannibal and St. Joseph RR. Co.), $9,525,000; annual charge $396,500. There are also $3,672,000 State school fund certificates of indebtedness, the annual charge upon which equals $213,910. Taxable property 1888—real estate, $552,946,976; personal, $185,474,107; railroad, etc., $51,271,162.83—total, $789,692,245.83. Tax-rate, 4 mills. Gross receipts, year ending December 31, 1888, $3,463,211.19; gross expenditures, $3,346,694.04. Surplus revenue, $116,517.15. Balance January 1, 1889, $585,499.07. Population, 3,125,000. Valuation per capita, $252.70.

Nebraska.—Total debt, $449,267.33; annual charge, $35,941.39. Gross revenue in 1887-88 (two years), $5,180,881.70; gross disbursements, $4,244,582.98; excess of revenue, $936,298.72. The State school funds hold $326,267, and the sinking fund $123,000. Valuation, $176,012,821.45. Rate of tax, 7.50 mills = $1,325,887.79. Population, 1,000,000. Valuation per capita, $176.01. Tax per capita, $1.33.

Population, 5,709,969. Valuation per capita, $607.57. State tax per capita, $1.59. Cost of new capital to date, $18,082,832.62.

North Carolina.—This State commenced the issue, in 1849, of its bonds in aid of various internal improvements, such as plank roads, railroads, canals and rivers, and had issued, prior to May 20, 1861, the date of its attempted secession, bonds amounting to $8,371,400. It also issued, during the existence of the rebellion, and prior to May, 1865, $914,000 in bonds for similar purposes. The interest on these was unpaid during the rebellion, and by Act of March 10, 1866, a portion was funded by an issue of bonds amounting to $2,231,000, and another portion, by Act of August 20, 1868, by bonds to the amount of $1,657,600. Bonds in aid of internal improvement were also issued during the same period, to the amount of $3,408,000. In 1869, so-called "special tax bonds" were issued, and of these so-called bonds there are now outstanding $11,366,000. The Legislature soon after repealed the Act under which these latter bonds were issued, and prohibited the payment of interest thereon. The bonds have never since been recognized by the State authorities. In 1875 an attempt was made under an "Act to compromise, commute and settle the State debt," to arrive at an adjustment, but without success. At the close of the year 1878, the recognized debt amounted to $16,046,045, on which there was interest unpaid to the amount of $9,485,493, making a total of acknowledged valid debt equal to $25,531,538. The issue during the rebellion, with unpaid interest, reached the sum of $1,568,090, and the special tax bonds, with interest, were $17,610,470, making an aggregate of $44,730,608, for which the State held, in stocks and bonds of various kinds, mostly unproductive, $21,707,700. Under these circumstances, an Act was passed March 4, 1879, directing the payment of bonds issued prior to May 20, 1861, at 40 cents on the dollar: those issued since May, 1865, under prior Acts and by Acts of 1866 and 1867, at 25 cents on the dollar; and those issued under the Funding Acts of 1866 and 1868, at 15 cents on the dollar, the payment to be made in a new issue of 4 per cent. bonds, dated July 1, 1880, and payable in 30 years. The bonds issued to the North Carolina RR. Co. remain unchanged. This will make the total consolidated debt, when duly exchanged—4 per cent. bonds, $3,613,511.25; 6 per cent. bonds, $2,795,000—total, $6,408,511.25. The receipts into the treasury for year ending December 1, 1888, were $724,506.45; disbursements, $819,029.62: excess of expenditures, $94,522.57. Tennessee.—By the compromise and funding Act of May 20, 1882, the State funded its old bonds, with all accrued interest, at 60 per cent. of the face value, in new 30-year bonds of 1892, bearing 3 per cent. for 2 years, 4 per cent. for following 2 years, 5 per cent. for third 2 years, and 6 per cent. thereafter. In 1883 this Act was repealed and the debt funded in new 3s at 50 per cent. of the face value except the old State debt proper bonds, bearing 6, 5‡ and 5 per cent., which were exchanged for new bonds, bearing the same rates of interest as the old, at 76, 79 and 80 per cent. respectively. By a recent decision of the Supreme Court of the State the compromise bonds (principal and accrued interest to July 1, 1883) are fundable into new settlement 3s at five-sixths of their face value. The settlement bonds are redeemable at the option of the State after July 1, 1888. Assessed valuation, 1883—real estate, $254,126,350; other property, $43,078,704; railroads, $28,290,302—total, $329,495,356. Receipts for two years ending December 19, 1888, $2,756,032.13; expenditures, $2,773,447.96. Tax rate, 3 mills. Population, 1,700,000. Valuation per capita, $193.82.

Texas.—Total debt, $4,237,730; annual charge, $256,062. Special funds hold $3,017,100 of the bonds, leaving $1,220,630 in hands of individuals. Sinking fund, 2 per cent. per annum. Taxable values for 1888—real, $441,076,925; personal, $240,007,979; total, $681,084,904. Tax levy, $2,078,162.80, being at the rate of 10 cents per $100 for State *ad valorem* tax, 12½ cents per $100 for school tax, 50 cents per capita for State revenue poll, and $1 per capita for school poll. Population, 2,705,967. Valuation per capita, $240.36.

Utah.—The bonds were issued to meet appropriations made for educational and charitable institutions. The entire issue was taken by Wells, Fargo & Co. Assessed valuation, $46,879,073. Estimated population, January 1, 1889, 215,000.

Vermont.—Total debt, $135,500, held by the Agricultural College Fund. The receipts for year ending Aug. 1, 1888, were $710,000; payments, $643,000; net receipts, $67,000. Population, 332,286. Valuation, $1604 7,080. No State tax in 1888. State tax in 1887, 12 cents on $100, valuation and polls. Tax rate, 1 cent. Valuation per capita, $482.98. Tax per capita, $1.11

Virginia.—The Act of March 30, 1871, allowed bondholders to exchange two-thirds of their holdings for new 6 per cent. tax receivable bonds, receiving for the other one-third a "deferred certificate" to be charged to West Virginia. The Act of 1872 repealed the tax receivable clause of the law, and bonds issued under it were called "Peale's." The McCulloch law of March 28, 1879, provided for a refunding of the State debt in non-taxable 10-40s, to bear interest at 3 per cent. for 10 years, 4 per cent. for 20 years, and 5 per cent. thereafter. That law was rejected by the people, and the Riddleberger readjustment law was adopted by the legislature. The Riddleberger Act provided for the funding of all outstanding bonds and interest thereon to and including July 1, 1883, into new 3 per cent. 18-50s at specified rates below par, varying from 47 to 31 on the different classes. This law was also amended, and all bonds offered for funding after January 1, 1885, were required to carry the coupon of July, 1885. The new 3 per cents. are coupon or registered, and are interchangeable. Registered bonds are for $100, $500, and $1,000; coupon bonds are for $500 and $1,000. The State sinking fund holds $2,357,577, the Board of Public Works of Virginia, $173,900, and the State literary fund, $1,179,127, or a total of $3,710,604, of the Riddleberger bonds, leaving $4,030,677 of that issue in the hands of the public. Assessed valuation—real estate, $299,251,019; personalty, $97,460,306—total, $396,711,325. Tax rate, 4 mills. State receipts, year ending October 31, 1888, $2,704,735.27; expenditures, $2,892,067.86. Population, 1,600,000. Valuation per capita, $247.94.

West Virginia.—The State Constitution prohibits the creation of any debt, except in an emergency like invasion or rebellion. After the admission of the State, in 1863, Virginia claimed that one-third of her State debt of $45,000,000 should be paid by West Virginia, and left out $15,239,371 in the adjustment of her debt (see Virginia). West Virginia claims that a very much smaller sum is her share, and the matter remains unadjusted. State receipts, year ending October 1, 1888, $1,205,119.71; expenditures, $1,199,601.48. Assessed valuation—real estate, $119,414,434; personal property, $44,469,235; railroad, $15,501,670—total, $179,385,339. Tax rate, 3.5 mills. Amount of taxes in 1888, $623,979.03. Population, 800,000. Valuation per capita, $224.23. Tax per capita, $1.03

Wisconsin.—Public debt absorbed in State funds, and no bonds on market. Amount held by school fund, $1,564,700; Normal School fund, $515,700; University fund, $111,000; Agricultural College fund, $60,600. Revenue Account for year ending September 30, 1888—receipts, $2,284,513.26; expenditures, $2,099,984.99; excess of receipts, $184,528.27. Valuation for 1887, $581,264,749. Tax rate, 1.58 mills. Taxes in 1886, $783,158.90. Population, 1,750,000. Valuation per capita, $333.15. State tax per capita, $0.45.

DIVIDENDS.

Statement showing the amount of the capital stocks (common and preferred) of the Railroad Companies in the United States paying dividends, with the rate per cent. paid during eight years, 1881 to 1888.

NOTE.—The numerals (1, 2, 3 and 4) represent the quarters of the CALENDAR year in which dividends *were paid*, such dividends being usually paid from the surplus of the quarter or half year preceding. This statement does not include companies which during the period covered by it have ceased to exist through consolidations or otherwise. For fuller details, see statements for the several companies in the body of the Manual.

Dividends marked * were paid either in stock, or in scrip convertible into stock. † Dividend periods have recently been made semi-annual. ‡ Capital stock was increased to its present amount during the period covered by this statement. § Dividend periods recently changed from semi-annual to quarterly. ¶ Also 10 per cent. in stock of C. S. & C. RR. For particulars, see statements of the several companies in the body of the Manual.

BOLIVIA.

No railroads in actual territory of Bolivia. Such small lines as had been constructed were on the sea-coast, which was taken by the Chilians. Latest information is to the effect that there were two proposed lines pending the decision of the Bolivian Congress—one from La Paz to Puerto Perez, on Titicaca Lake, 45 miles. This line will run in connection with the Peruvian RR. from Mollendo, passing by Arequipa and ending at Puno; but to avoid the navigation of the lake there is another proposed line going directly from Puno to La Paz, 90 miles. The second is the proposed line from the frontier of the Argentine Republic to La Paz, 1,200 miles, passing by Potosi and Ururo, with two branches, one from Ururo to Cochabamba, 135 miles, and the other from Potosi to Sucre, 90 miles, or, in all, 1,425. This line will run in connection with the Central National Railway of the Argentine Republic.

COSTA RICA.

Costa Rica Ry. Co. (Limited)—*Lines of Railway in Operation:* Punta Limon west to Carillo, 71 miles; Punta Arenas east toward San José (the capital) to Esparta, 13 miles, and from Cartago west *via* San José to Alajuela, 26 miles—total 110 miles. The Government of Costa Rica projected about seventeen years ago an interoceanic line to run from Punta Limon on the Atlantic to Punta Arenas on the Pacific side, a distance of 225 miles. Construction began in 1871, and three sections as above now completed. The Midland Division was opened January 19, 1872, the other sections as completed. The Midland and Pacific Divisions are operated by the Government, the Atlantic by Minor C. Keith, under five years' lease. In 1885-86 Mr. Keith effected an arrangement between the foreign bondholders and the Costa Rican Government, the outcome of which was the formation of the Costa Rica Ry. Co., Limited, which is registered in London April 22, 1886, under the Companies Acts of 1862 to 1883. Under this arrangement, the Government agreed to transfer its railways on the completion of certain new lines, the construction of which has been undertaken by this company (one of which, a line from the completed road between Limon and Carillo up the Reventazon Valley to Cartago, a distance of 48 miles, is now under construction) for a period of ninety-nine years, free of rent or charge, and granting to the company also 800,000 acres of land. The new lines are to be completed by August, 1889, and until then the existing system is to be worked by Mr. Keith, who undertakes to pay interest on the bonds during construction. The means for the prosecution of the new works was provided in London, in June, 1886, through the issue of £355,000 of the first debentures at 92½, and in March, 1887, the balance of £300.000 was issued at 96½. They are registered and of £100 each. Interest payable January and July, and the principal falls due July 1, 1916. The debentures issued are a first charge on the lands as well as the railways. The company has so far issued the first debentures as above; £382,000 of the second debentures (to the contractor), and £1,540,380 shares; £600,000 to the Costa Rican Government; £604,870 to the Costa Rican bondholders (a portion of this amount being represented by certificates), and £335,510 to the contractor. Second mortgage debentures to the amount of £600,000, and stock to amount of £1,800 are authorized. F. O. Smithers, *Secretary*, Dashwood House, London, E. C.; Minor C. Keith, *Manager Railway;* A. E. Brownell, *Superintendent Traffic;* Henry Cooke, *Master Machinist*, Punta Limon, Costa Rica.

Honduras Central RR.—Projected from Truxillo to Jutecalpo, 200 miles, and thence to the Bay of Fonseca on the Pacific side. Concession owned by a New York syndicate. W. W. Hungerford, *Chief Engineer*.

Honduras North Coast Railway and Improvement Co.—In July, 1884, this company received a concession, accompanied by a valuable land grant, estimated at 1,000,000 acres, for the construction of a line of railroad from Truxillo to Puerto Cortes, about 150 miles, with power to extend to the Guatemala boundary line. Preliminary survey completed March 20, 1885; construction begun July 8, 1885. Gauge, 3 ft. Estimated cost, $1,542,981, to be met by an issue of 6 per cent. bonds to the amount of $2,500,000, the excess to be used in equipping the road. S. B. McConnico, *President;* John C. Febiger, Jr., *Vice-President;* R. S. Charles, *Secretary and Treasurer*. OFFICE, New Orleans, La., and Truxillo, Hond.

Honduras Ry.—*In operation* from Puerto Cortes to St. Jago, 37 miles. This line was projected some years ago, under authority of a concession granted by the Government of Honduras, as an interoceanic line from Puerto Cortes to the Bay of Fonseca, and its construction was begun by a British Company. On September 3, 1871, it was opened as above, and subsequently was extended to San Pedro Sula, a total distance of 69 miles. The company becoming embarrassed, the construction of the road was abandoned and the completed portion sold to Colonel William Snyder, by whom the section to St. Jago is worked.

Truxillo and Roman River RR.—Projected from Truxillo to Roman River, 20 miles, with power to extend beyond that point up the Arenal Valley. Concession owned by William H. Warner, M. O. Sheldon and H. K. Wheeler, of New York.

Callao, Lima and Oroya RR.—*Line of Road:* Port of Callao to Chicla, 86.5 miles. Gauge, 4 ft. 8½ in. e construction of this railroad was begun in January, 1870, by the late Henry Meiggs, under a contract made in cember, 1869, with the Peruvian Government, which called for the completion of the whole line, Callao to oya, 135.3 miles, in 6 years, the contractor to receive $27,600,000 for the building of the line, which then was to ome the property of the Government. The road presents some of the most remarkable engineering achieve- nts in the world. Over sixty tunnels, or an average of about one every two miles, pierce the mountains in its h. Among these the most remarkable is the Galera, or Summit tunnel, 104.5 miles east of Callao, which is rly 4,000 feet long, and is 15,645 feet above sea-level. At Mount Meiggs the road reaches its highest elevation, 74 feet, from that point descending the eastern slope of the Andes to Oroya, 12,257 feet above sea-level. In dition to the large number of tunnels there are also about eighty bridges on the line of the road, the most portant being the Agua de Verrugas viaduct, 576 feet long and 253 feet high, constructed on the Fink truss plan. consequence of the great engineering difficulties which attended the construction of this line its cost greatly eeded the original estimates, and when the road reached Chicla, to which point it has been opened for several rs, the funds applicable to its construction had been exhausted. Recently the road has been leased to Michael Grace, of W. R. Grace & Co., New York, representing a syndicate of capitalists which agrees to complete the to Oroya, and develop and place in working order the celebrated Cerro del Pasco silver mines. Term of se, 99 years; rental first seven years, *nil;* thereafter, $35,000 per annum, increased by an additional $25,000 annum for each one per cent. of net profit over six per cent. on the capital invested. To complete and equip road and the mines will call for the expenditure of about $12,000,000 to $15,000,000. William H. Chilley, *Rep- sentative in Peru*, Lima, Peru; Jacob Backus, *Superintendent*, Callao, Peru. GENERAL OFFICE, Lima, Peru.

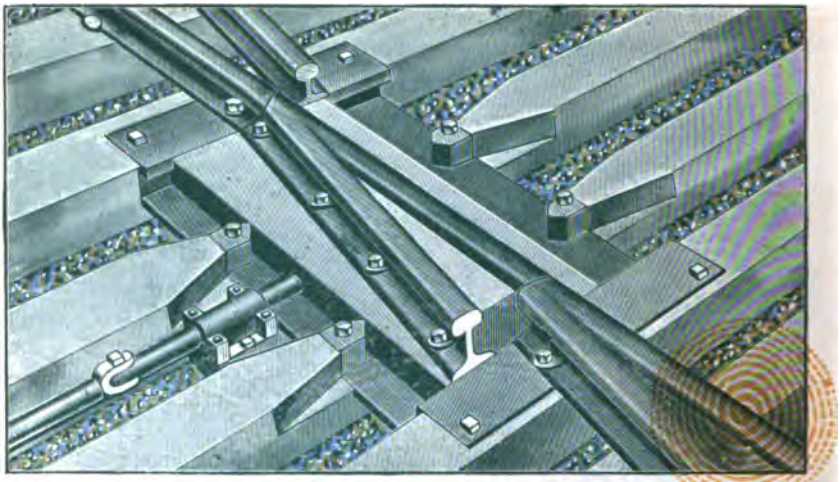
THE HOYT FROG AND CROSSING CO.
LA SALLE ST.
CAGO.
UNDER GRAND PACIFIC HOTEL
THE HOYT SUBSTITUTE for the OLD FASHIONED FROG.
Will absolutely prevent
fifty per cent. of accidents.
Dispenses entirely with Guard Rails.
Saves seventy per cent of the wear on rolling stock.

Digitized by Google



In presenting to your notice **The Hoyt Substitute for the Present Frog,** patented May 7, 1889, we simply desire to call your attention to the many benefits to be obtained by its use, in the wear on **Rolling Stock** and on the **device** itself, together with the safety to passengers and the saving of life and property from the prevention of accidents. By its use

First. It dispenses entirely with the use of **Guard Rails.**

Second. It will absolutely prevent over fifty per cent. of the accidents and derailment of trains.

Third. It will save fully seventy per cent. of the wear on rolling stock.

Fourth. It will last as long under the same service as **Ten Frogs** of any pattern now known or in use.

Fifth. It has no places in which a man can catch his foot, both headers being filled with wood or metal.

Sixth. It shortens the lead from the switch to **forty-five feet** on the main line, and to **thirty-five feet** in yard service, thereby saving from **sixty** to **seventy-five feet** of railage, or giving that much more sidetrack.

Seventh. It is simple in its construction, absolute in its action, requires no additional help and no more attention than the old-fashioned ordinary Frog, and practically **costs no more.**

Eighth. It prevents the breaking of flanges, or the taking the wrong side of the point; in fact, it does away with everything that is so destructive in the present open-jawed Frog.

Ninth. It is the **missing link found at last** to make perfect and safe our railroads, for it gives them **a solid continuous rail for the main track with beveled joints.** No pounding, no more extra wear at this point in the track than there is in the center of a thirty-foot rail. Also a solid sidetrack that can be run through as fast as on the main track if necessary, and will last without change longer than **ten of the present frogs.**

THE TRAVELERS'

OFFICIAL GUIDE

Of the Railway and Steam Navigation Lines of the U. S. and Canada,

(W. F. ALLEN, MANAGER,)

IS PUBLISHED UNDER THE AUSPICES OF THE

National Association of General Passenger and Ticket Agents.

The Time Tables published in its columns are compiled directly from the Official Time Tables which are used by the employés, and from information furnished by the officers in charge of Time Table Department of the several roads.

It contains, in addition to the Lists of Officers and their addresses, which are published at the head of the Time Tables, an Official List of the Officers in charge of General Ticket Department, with the names of the parties to whom remittances and on whom drafts for the settlement of such accounts should be made; an Official List of Purchasing Agents, with their addresses; an Official List of Officers in charge of Car Service Accounts, by whom reports are made, to whom reports should be sent, and upon whom drafts should be drawn; also a List of Railway Commissions, Traffic Associations, their Officers, etc.

The standard of time by which each road is run is noticed at the head of each table, and, in addition to this, a page is devoted to a table of the names of the roads running by the several standards. Upon the front page of the cover of the OFFICIAL GUIDE is a diagram showing the standards of time in use in the principal cities.

A large number of fine Sectional Maps, showing the lines of the several roads, embellish the pages of the book. Also a dissected map covering the whole United States, Canada, and Mexico (north of Vera Cruz).

A full list of all names by which the various railroads in the country have formerly been known, with their present official titles, is also a feature.

Telegraph stations and stations at which coupon tickets are sold are designated, and the gauge of each road shown. Morning trains are distinguished from afternoon trains by varying the style of type.

For sale at all prominent News Stands and on Railway Trains.

Subscription Price, $5.00 per Annum. Single Copies, 50 Cents.

(CORRECTED AND ISSUED MONTHLY.)

THE TENTH ANNUAL EDITION OF THE

National Car and Locomotive Builder

"SUPPLEMENT"

WILL BE PUBLISHED IN JUNE, 1890.

1st. WHAT WILL IT CONTAIN?

IT WILL CONTAIN complete lists of every **CAR** and **LOCOMOTIVE BUILDER, CAR AXLE, CAR WHEEL,** and **CAR SPRING MANUFACTURER,** and all the **RAIL MILLS** in the United States.

Complete lists of the **STREET RAILROADS** in the United States and Canada—their Gauge, Weight of Rail, Mileage, number of Cars and Horses, Officers' Names and Addresses.

The Railroads (both Steam and Street) in Mexico, Central and South America, and the West Indies, with the Gauge, Weight of Rail, Mileage, number of Cars and Locomotives, Officers' Names and Addresses, etc.

2d. HOW WILL IT BE CIRCULATED?

IT WILL BE DISTRIBUTED *gratuitously* to every person whose name appears in it, and in addition will be sent to every **GENERAL MANAGER, SUPERINTENDENT, PURCHASING AGENT, MASTER MECHANIC, MASTER CAR-BUILDER, MASTER CAR-PAINTER, CHIEF ENGINEER,** and **ROAD MASTER** of all Railroads in the United States and Canada.

3d. WILL IT PAY TO ADVERTISE IN IT?

YES: FOR THE REASON that the ADVERTISEMENTS in this paper form a conveniently indexed collection of **TRADE CIRCULARS** of nearly TWO HUNDRED of the best and most responsible Manufacturers of Railroad Material, a collection not to be obtained in any other way; and it is the experience of the publisher, during the past five years, that Railroad Officials and others keep the "Supplement" on their desks or hung near at hand throughout the year for reference, using it not only as a Directory, but as an Illustrated Catalogue.

ANOTHER REASON is that it enables you to show the different designs or large illustrations of whatever you manufacture, at a comparatively small cost, *less*, in fact, than it would cost you to send out circulars, and in a much better manner, for circulars are, as a rule, thrown away; but, by having your *circular* bound with others, and in such a convenient form, **IT WILL ALWAYS BE PRESERVED.** The size of the page is 14 inches deep by 9½ inches wide.

We respectfully refer to the prominent manufacturers who have advertised in the paper from its first issue, ***many of them now taking double the space they commenced with.***

4th. HOW MUCH WILL IT COST?

RATES OF ADVERTISING:

One Page (14 in. deep, 9½ in. wide), 4 columns to the page,	**$125.00**	**One-half Page,**	**$75.00**
Three-quarters Page,	**100.00**	**One-third Page,**	**60.00**
Two-thirds Page,	**90.00**	**One-quarter Page,**	**50.00**
		One-eighth Page,	**30.00**

Smaller Spaces, $10 for first inch, and $5 for each additional inch (single column, 2¾ in. wide). Space on the front cover, $25 per inch, single column. Space on the back cover, $10 per inch, single column.

The Scientific American.

THE MOST POPULAR SCIENTIFIC PAPER IN THE WORLD. ESTABLISHED 1845.

THIS unrivaled periodical, now in its **forty-fifth year**, continues to maintain its high reputation for excellence, and enjoys the largest circulation ever attained by any scientific publication. Every number contains sixteen large pages, beautifully printed, elegantly illustrated. It shows the progress of the World in respect to New Discoveries and Improvements, embracing Machinery, Mechanical Works, Engineering in all branches, Chemistry, Metallurgy, Electricity, Light, Heat, Architecture, Domestic Economy, Agriculture, Natural History, etc.

Terms, $3.00 a year; $1.50 six months. Specimen copies free. Remit by Postal Order or Check.

MUNN & CO., Publishers, 361 Broadway, New York.

PATENTS.

IN connection with the **Scientific American**, Messrs. MUNN & Co. are solicitors of American and Foreign Patents; have had forty-two years' experience. Patents are obtained on the best terms.

A special notice is made in the **Scientific American** of all inventions patented through this agency. By the immense circulation thus given, public attention is directed to the merits of the new patent.

Any person who has made a new discovery or invention can ascertain, free of charge, whether a patent can probably be obtained, by writing to MUNN & Co. We also send free our Hand Book about Patents, Caveats, Trade Marks, their costs, and how procured.

Building Edition of the Scientific American.

THIS is a special Trade Edition of the **Scientific American**, issued monthly. Each number contains about forty large quarto pages, illustrating examples of modern Architectural Construction.

A special feature is the presentation in each number of a variety of the latest plans for residences, including those of very moderate cost as well as the most expensive. Drawings in perspective and in color are given, together with full Plans, Costs, and Sheets of Details.

All who contemplate building or improving homes have before them in this work an almost *endless series of the latest and best examples* from which to make selections, thus saving time and money. Many other subjects, including Sewerage, Plumbing, Lighting, Warming, Ventilating, Decorating, etc., are illustrated. Terms, $2.50 a year; single copies, 25 cents.

Munn & Co., 361 Broadway, New York.

Building Plans and Specifications.

IN connection with the publication of the **Building Edition** of the **Scientific American**, Messrs. MUNN & Co. furnish plans and specifications for buildings of every kind, including Stores, Dwellings, Carriage Houses, Barns, etc.

In this work they are assisted by able and experienced architects. Full plans, details, and specifications, for the various buildings illustrated in this paper, can be supplied.

Those who contemplate building or who wish to alter, improve, extend, or add to existing buildings, are invited to communicate with the undersigned. Our work extends to all parts of the country. Estimates, plans, and drawings promptly prepared. Terms moderate. Address

SAFETY. PERMANENCY. ECONOMY.

The A. J. Hartford Steel Railway Tie Mfg. Company,

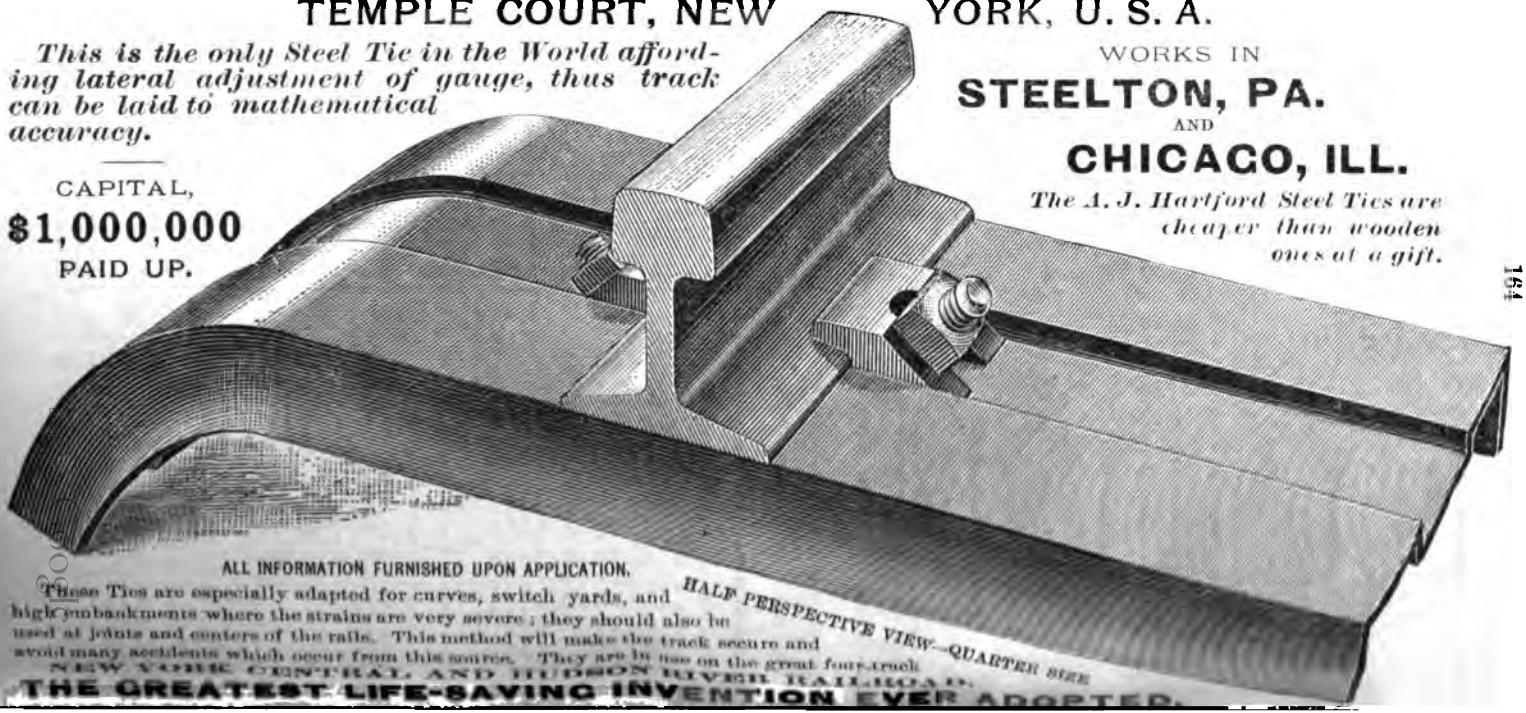
TEMPLE COURT, NEW YORK, U. S. A.

This is the only Steel Tie in the World affording lateral adjustment of gauge, thus track can be laid to mathematical accuracy.

CAPITAL,
$1,000,000
PAID UP.

WORKS IN
STEELTON, PA.
AND
CHICAGO, ILL.

The A. J. Hartford Steel Ties are cheaper than wooden ones at a gift.



HALF PERSPECTIVE VIEW—QUARTER SIZE

ALL INFORMATION FURNISHED UPON APPLICATION.

These Ties are especially adapted for curves, switch yards, and high embankments where the strains are very severe; they should also be used at joints and centers of the rails. This method will make the track secure and avoid many accidents which occur from this source. They are in use on the great four-track NEW YORK CENTRAL AND HUDSON RIVER RAILROAD.

THE GREATEST LIFE-SAVING INVENTION EVER ADOPTED.

THE INTERNATIONAL MANUFACTURING ASSOCIATION.

10 WALL STREET, NEW YORK,

PROPRIETORS OF THE

Morrell Reversible Trailing Deck Sash.

A NEW METHOD OF OPERATING THE DECK SASHES OF RAILWAY COACHES WITH A VIEW TO EFFECTING AN IMPROVEMENT IN VENTILATION.

The use of this device makes it possible to open all the sashes outward at the same time and at the same angle.

We thereby double the outward draft-producing power of old methods and distribute the ventilation evenly throughout the coach, removing the unduly heated and vitiated upper stratum of air.

The sashes are preferably operated simultaneously from either end of the car, but can be made to work independently of each other if desired.

"This device marks a decided advance in the art of railway ventilation."—*Extract from the opinion of Benjamin S. Church, Esq., Consulting Engineer, Croton Aqueduct.*

This Association is designed to encourage the inventors of mechanical devices and to act as a medium through which they may advantageously reach the public.

It is prepared to investigate the practical and commercial value of meritorious inventions and the expediency of procuring foreign or domestic patents upon them; to negotiate in proper cases for the construction of models and to develop good inventions and place them on the market.

The Association will undertake to direct the development of good inventions for the best interests of the inventor and itself but does not contemplate the purchase of them outright, nor the solicitation of patents.

Communications made by inventors before procuring their patents will be regarded as strictly confidential, and all drawings, models or descriptions will be returned if desired.

Correspondence in English, German, French or Spanish is invited, and will receive prompt attention.

As to its character and standing the Association refers by permission to

PRICE, $4.00 A YEAR. BALTIMORE, MD. SINGLE COPIES, 10 CENTS.

THE MANUFACTURERS' RECORD is a weekly paper devoted to the Manufacturing, Mining, and Railroad Interests, and the General Industrial Progress of the Southern States.

INFORMATION ABOUT THE SOUTH.

The marvelous mineral and timber wealth of the Southern States, their unrivaled capabilities as a manufacturing area, and the astonishing progress they are making in developing their natural resources and in utilizing their facilities for manufacture, are attracting the attention of the whole world. The extent of these resources and advantages is so fully and carefully set forth, and the progress of this development so faithfully chronicled, from week to week, in the MANUFACTURERS' RECORD, that it is now accepted everywhere as unquestioned authority on Southern affairs, and its statistics and statements are drawn upon by almost every writer or speaker on any Southern topic.

Its weekly issues constitute an authentic history of the industrial progress of the Southern States. It furnishes, every week, a vast variety of information on Southern affairs that can be gained from no other source. It discusses in its editorial columns and in its correspondence every topic of Southern interest. It will be found of value and interest, not to manufacturers only, but to the general reader as well. It presents the resources and the development of the South in all their phases. To all who are in any way interested or concerned in the prosperity of the South, or who care to keep posted as to the industrial and commercial progress of that section, the MANUFACTURERS' RECORD is indispensable.

SOUTHERN TRADE.

The MANUFACTURERS' RECORD is a paper that has identified itself with the development of the Southern States; it is the recognized exponent of the South's industrial interests. It has from the beginning made that its especial field of labor, and in it has practically no rival; it stands pre-eminent. In the South it has widespread influence. It is read, and quoted, and commended in every section of the fourteen Southern States. It numbers among its subscribers the most prominent houses and the officers of the largest corporations in the Southern States; the proprietors of mills and factories in every line of manufacture, leading contractors, hardware dealers, the presidents and managers of railroads, mining companies, pig-iron furnaces, cotton and woolen mills, banks, the owners and managers of saw mills, furniture factories, spoke and handle factories, and other wood-working establishments, flour mills, cotton-seed oil mills, stove foundries, etc., etc. It is not a mere advertising sheet; it is a pushing, live, enterprising, vigorous paper. Its matter is fresh, interesting, and original. It differs from all other industrial papers in that it has a specialty—a mission—viz.: the advancement of the South. It is a paper that is not thrown aside but read. Its utterances are considered of value, and every issue is looked for with interest by its subscribers.

In view of the importance of the special field of the MANUFACTURERS' RECORD—the South—and its standing and influence in that field, it offers to manufacturers of machinery of all kinds, mill, factory, mine, and railroad supplies, hardware, roofing, builders' material, etc., unequaled advantages as an aid in securing a share of the trade of the South, which is assuming such enormous proportions, and which must continue to grow indefinitely.

The Coal Trade Journal

PUBLISHED EVERY WEDNESDAY.

The only Newspaper in the United States entirely devoted to the interests of the Coal Trade.

ESTABLISHED APRIL 21, 1869.

FREDERICK E. SAWARD,

EDITOR AND PROPRIETOR.

PUBLICATION OFFICE, 111 BROADWAY, NEW YORK.

WESTERN OFFICE: No. 113 MONROE STREET, CHICAGO.

THE COAL TRADE JOURNAL is the acknowledged authority on the subject of coal. RELIABLE, PROMPT, CORRECT, INDEPENDENT. It is not local, but gives facts and figures from all parts of the United States. The business done in coal at every principal city, prices, tonnage, qualities dealt in, fully shown. New routes to coal fields, and new processes in the economy of fuel, form an important feature of this Journal.

SUBSCRIPTION, $3.00 A YEAR.

"THE COAL TRADE."

This is the title of our compendium of information relative to coal production, prices, transportation, etc., etc., at home and abroad. Every yearly edition contains facts not presented previously, and, therefore, it is well to have the several volumes.

PRICE, 50 CENTS PER COPY.

THE 16TH EDITION IS NOW READY.

MANUFACTURERS OF

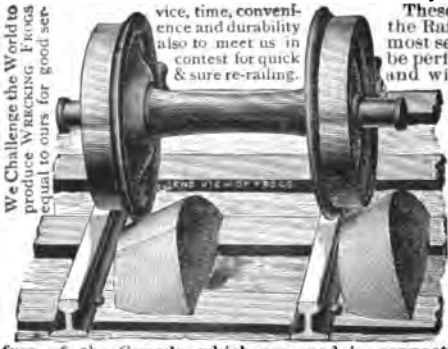
Railway Car and Locomotive Replacing Frogs,

Bridge Guards, Street Car Replacers, and Hose Bridges,

CLEVELAND, OHIO, U. S. A.



We Challenge the World to produce WRECKING FROGS equal to ours for good service, time, convenience and durability also to meet us in contest for quick & sure re-railing.

These Replacing Frogs are the greatest time savers in the Railroad Service. Dimensions fully developed by the most severe practical and theoretical tests, and found to be perfect. These Rerailing Frogs are positive Replacers, and will restore to the rails any Rolling Stock in about one-quarter the time consumed by any others. These standard size Wrecking Frogs are in use on between two and three hundred Railroads, and are giving perfect satisfaction. The Bridge Guards are the best possible protection. They are similar to the standard size Wrecking Frogs illustrated herewith, but longer. These Bridge Guards are placed outside of each rail, and opposite each other. They are effectual in replacing any derailed Rolling Stock, and at the same time are placed at a sufficient distance from the rails to allow Rolling Stock to pass upon the rails free of the Guards, which are used in connection with the usual Guard Rails. The small size Replacers for replacing Street Cars and carrying over Hose (when in use by fire departments), thus doing away with detention of Street Cars.

Price of Bridge Guards, for both ends of a Railway Bridge, or everything that is required but guard rails, per bridge set **$100.00**

The standard size Wrecking Frogs, that will replace any Railway Car or Locomotive not over eighty tons, per set **15.00**

The Street Car Replacers and Hose Bridge, per set **6.00**

Any of them delivered free by freight to Missouri River points or any railroad east thereof in the United States, or exports to seaboard. Any information relative to the above cheerfully given.

THE NEW INGERSOLL-SERGEANT
AIR COMPRESSOR.

In Design, Material, and Workmanship the Best in the Market.

Automatic and Adjustable Regulation for Air and Steam—Cooling by Water Circulation —Thorough and Automatic Lubrication; accomplishing the most Economical Production of Compressed Air Power.

INGERSOLL-SERGEANT

ROCK DRILLS.

Four-fifths of the rock on the new Croton Aqueduct was removed by Ingersoll Drills, where the AVERAGE record of tunnel progress shown by the Engineers' Tables was 20 per cent. in advance of others. Twenty-four of the twenty-eight large tunnels which have been driven with machine drills in this country have employed the Ingersoll Drill.

Seventy-five per cent. of the metal produced from machine-mined ore in the United States during 1888 was mined by Ingersoll and Sergeant Drills.

STONE CHANNELING MACHINES.

WIGAND'S GERMAN VERMILION.

"REGISTERED."

PALE, DEEP, AND DOUBLE DEEP SHADES.

Not a substitute, but superior to English Vermilion. The most permanent Vermilion made. Will neither turn dark or light when exposed to the sun and weather. Does not contain any Aniline or Eosine, nor is its base orange mineral. The best grade for all fine work where permanence of color is an object. Packed in 30-lb. bags, kegs, and barrels.

We will send a pound sample of our Wigand's German Vermilion, free of charges, on receipt of 60 cents. Mention shade and paper.

CARMINE.

German Carmine.

Not made from cochineal, and does not contain Aniline or Eosine. Is the same shade and tone of color as Pure No. 40 Carmine, glazes just as well, does not run. Has the advantage of being permanent, which No. 40 Carmine is not, and *SELLS FOR ONE-THIRD LESS. NOT ADAPTED TO CONFECTIONERS' USE.* **$12.00 lb., Dry.**

SOLE MANUFACTURERS,

GERMAN COLOR CO., Limited,

2016 N. 10th STREET, PHILADELPHIA, PA., } U. S. A.
And 4 LIBERTY SQUARE, BOSTON, MASS., }

The Pennsylvania Paint Co., Limited,

ERIE, PA.,

MANUFACTURERS OF

Brown's Fire-Proof Railway Paints,

FOR STATIONS, ROUND HOUSES, BRIDGES, FREIGHT CARS, Etc.

Manufactured from both Lead and Minerals, and are now being used by many of the leading railroads in the United States. These Paints are made from the best pigments, ground in the best Linseed Oil, and our Liquid Metal Fire Proofing is incorporated with our Paints in such quantities as the case may require, as we manufacture the paints adapted for the different purposes as to Fire Protection, etc. These paints are not only a protection from fire, but the best preservative of wood known, and we guarantee them to be the best and most durable paints made. Special attention is given to the manufacture of FREIGHT CAR PAINTS, as to fineness, durability, etc. We also manufacture a WHITE FIRE PROOFING which is the nature of a whitewash and not a paint, for use on unfinished lumber, interior of round-houses, etc. For further information, color card, etc., apply to

THE PENNSYLVANIA PAINT CO., Limited, ERIE, PA.

SANFORD MILLS,

MANUFACTURERS OF ALL GRADES OF

CAR PLUSH.

COLOR and QUALITY guaranteed SUPERIOR to goods of any foreign make.

BOSTON & LOCKPORT BLOCK CO.

162 Commercial St., BOSTON, MASS.

Factories at Boston, Mass., and Lockport, N. Y.

MANUFACTURERS OF

TACKLE BLOCKS OF EVERY VARIETY.

Improv'd Bale Snatch Block.

We would call the attention of the Railroad public to our new **Steel Tackle Block,** made of sheet steel, with rolled edges and partitions, which is one-half the weight of any Iron Block, being fully as durable and far more desirable. Also call attention to our **Self-Adjusting Five Roll Patent Roller Blocks,** the only Patent Roller Block in the market that can be relied on to hoist heavy weights without injury to the Sheaves, hoisting twice as easy as a plain bushed Block. The **Batt's Patent Hoist** is the most compact hoist in the market, one man only being required to hoist the load. Send us an order and, if not satisfactory, to be returned.

We show cut of an improved Bale Snatch Block, having a hook and shackle combined, giving the convenience of a hook and the strength of a shackle, just the thing for a Wrecking Block.

Send for an Illustrated Catalogue.

Batt's Patent Hoist.

IRON CLAD PAINT.

President.

JAMES WADE, JR,
Sec'y and Treas
No. 3 Case Building,
CLEVELAND, O

Trade Mark Patented—Paint Patented.

Address, IRON CLAD PAINT CO., CLEVELAND, O.

This Company owns and manufactures under WM. GREEN'S several patents, and is the only Company in the world that makes Paint from pure, hard Lake Superior Iron Ore, such as is used in furnaces for making Pig Iron.

The Most Economical, Most Fireproof, Most Waterproof, Most Durable and Most Useful Paint Made.

Used by L. S. & M. S. RY. I. & ST. L. R.R. D. & M. R.R. O. & M. RY. C., C., C. & I. R.R. The NORTHERN PACIFIC RY. The SOUTHERN PACIFIC CO. L., C. & L. R.R. T., W. & W. RY. C., T. V. & W. R.R. ERIE RY. N. O. & MOBILE R.R. MOBILE & OHIO R.R.

Adopted by U. S. Government for Iron Ships' Bottoms, and for Lighthouses.

OFFICE OF PURCHASING AGENT,
LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY,
CLEVELAND, O., February 1, 1878.

IRON CLAD PAINT Co., Cleveland, O.:

Gentlemen: Your "Metallic Paints," known as "*Iron Clad Paints*," have in the past eleven years been extensively used and thoroughly tested by this Company, as to their *covering capacity, durability and resistance to atmospheric changes*, latter "paint destroyer," the most difficult to overcome in outside paints. We have used over two hundred and fifty tons of your paints, and can emphatically accord them the highest position over any paint heretofore produced, for Cars, Roofs, Stations, Bridges, etc. The monthly increase of our orders is the best evidence that your paint is constantly growing in favor with our mechanics. Very respectfully yours,

A. C. ARMSTRONG.
Gen'l Purcha ing Agent L. S. & M. S. R'y Co.

BOSTON, MASS., Jan. 14, 1878

THIS IS TO CERTIFY, That I have given the "Iron Cl d Paint," of Cleveland, Ohio (which is claimed by the proprietors superior to "Red Lead," or anything yet discovered for the preservation of iron), a most thorough and testing trial. From the appearance of a piece of iron I have had immersed in salt water for nearly six months, it appears quite free from all matter of such nature as is sure to collect and form on ship bottoms: the surface and body of the paint remains perfectly sound and solid as when first applied. It has been my custom and practice to experiment somewhat extensively with compounds a d ingredients furnished by different parties in testing the merits of many articles for the purpose of coating ships' bottoms, both of wood and iron. I can truly state, both in a spirit of justice and feeling of great satisfaction, that the "Iron Clad Paint" is far superior to any mixture I have yet used, and furthermore it seems to be the long-sought-for article needed for the protection of iron from the effects of salt water and foul matter that collects on all iron surfaces exposed in this way.

In conclusion I can only say that I fully believe the "Iron Clad Paint" is the best article ye offered for a protection to iron from the effects of rust and other causes which tend to destroy the same. All of which I cheerfully subscribe to.

J. HOMER DGERLY,
Foreman Painter, Boston Navy Yard.

Chemical Laboratory of Professor P. B. Wilson, Analytical and Consulting Chemist and Metallurgist, Professor of Chemistry in the Washington University.

No. 30 SECOND STREET, BALTIMORE, MD., Oct 25, 1877.

To the Iron Clad Paint Co., Cleveland, O.:

GENTLEMEN: Inclosed please find analysis of the three samples of your "Iron Clad Paint," which I drew from the original packages. I find an entire absence of anything detrimental, under any circumstances, to either wood or metal (to which you apply either of the varieties) in their composition, and will when combined with linseed oil form an indurated covering for protection against the weather.

Respectfully,
P. B. WILSON.

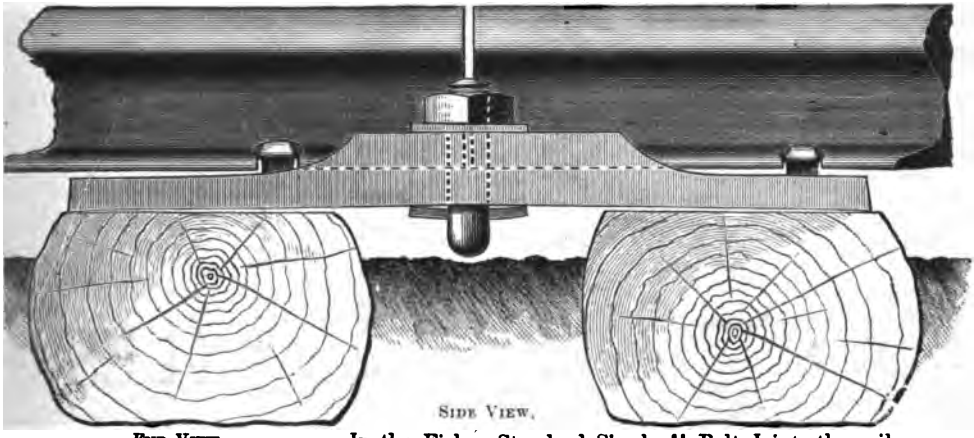
THE PATENT
STANDARD "FISHER" RAIL JOINT,

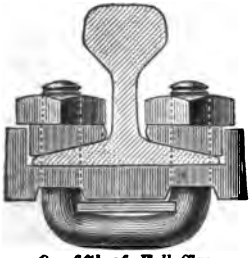
Made by the

FISHER RAIL JOINT WORKS, TRENTON, N. J.



SIDE VIEW.

END VIEW.



0 e-fifth of Full Size.

In the Fisher Standard Single **U** Bolt Joint, the rail ends are supported by the long-flanged beam which is secured on two ties by spikes passing through it. They are held *down* to it by the nuts and the two ends of the **U** Bolt passing up vertically through it and through the corners of the rail bases. This **U** Bolt is *one inch* in diameter.

The supporting beam is slightly arched upwards, to receive all the load at its middle point, for equal and simultaneous distributions on the two ties.

All the weight of a passing load is carried by the channel beam. The only function of the **U** bolt is to firmly hold the two rail ends *down* to the beam as the wheel approaches to or recedes from them. This tendency to upward movement of the rail ends has not until recently been recognized.

This Joint supports the rail at its weakest point—viz., its extremity—by having the flanged beam slightly arched upward, and so proportioned as to give the *same elasticity* vertically at that point as at other parts of the rail. It has the whole width of rail base for bearing, instead of only the narrow surface of the rail heads hanging on the thin edges of Fish or Angle Bars. It is a well-established fact that the ends of rails cannot be kept up properly by any joint which omits *exterior* support. In the FISHER LONG ARCHED JOINT, both ties receive the load at the same time. *The nuts do not become loose*, and this is because the vertical bolts are not subjected to jarring cross-strains. *No slotting* or punching of either rail, flanges or stem is necessary, the only cutting being a half-inch circular on the corner of the flanges, at the extreme end, for the **U** bolt, which also furnishes with the supporting beam spiked to the two ties, the most effectual stop at both ends of rails against "creeping" of track.

This Fisher Joint permits the use of any section of rail, and therefore the best shape for wear and strength is available with it.

A track laid with 64-pound steel rails, of full pear-shape head, with this Fisher Standard Joint, is more durable and capable of sustaining heavy traffic than if laid with 72-pound rails and Angle Bars—and with very much less cost for repairs.

☞ ***They are fully warranted against breakage of any part.***

THE ERIE CAR HEATING CO.

Principal Office and Works, ERIE, PA.

HEATS RAILWAY CARS WITH STEAM FROM THE LOCOMOTIVE WITHOUT THE USE OF RUBBER HOSE OR GROUND METALLIC JOINTS,

by passing the steam through coils of seamless brass tubing placed one under each platform of every car, and which readily meet all possible side and vertical motions between the cars. Our Slip-joints, to meet the end motion, are so constructed that in case the train parts, the plunger will pull out without disturbing the packing, and can be inserted again in an instant, when they will be steam tight, the same as before.

THESE CONNECTIONS CAN BE APPLIED TO ANY SYSTEM OF PIPING.

Patented September 7, 1886, Jan. 31, 1888.

OUR NEW METALLIC COUPLINGS

are automatic when desired, and not depending upon the tension of a spring to keep them closed, are *ABSOLUTELY* Steam Tight.

OUR TRAP, which readily removes all condensation, has been in service the past winter, with temperature at 35 degrees below zero, **AND DID NOT FREEZE IN A SINGLE INSTANCE.**

In continuous use on the Fort Wayne Division of the Pennsylvania Company's road since the spring of 1887; on the L. S. & M. S. and the N. Y., C. & St. L. roads for two seasons, and on the Duluth & Superior Branch of the N. P. R.R. and the St. Paul-Minneapolis Line of the Manitoba Railway the past winter, giving perfect satisfaction. ***We refer to the officials of any of the above roads.***

We had two trains equipped with our connections last winter, using the "Johnson Heater" hot water piping, with a trifling change, and it was a perfect success.

Our Coils **HAVE NEVER BROKEN,** unless injured by accident; our connections **NEVER** allow any steam to escape between the coaches, and can be applied to any system of heating cars that requires steam.

IT IS confidently claimed for wheels made by this process, that much better results can be obtained than by the ordinary method. Wheels are made perfectly cylindrical, and with greater depth and uniformity of chill, and with treads ground. From records already obtained, it is also believed the mileage of these wheels will very largely exceed any previous records for cast chilled wheels.

P. O. BOX 2878.

Represented by THOMAS PROSSER & SON.

These Works cover an area of 1200 acres, employ about 18,000 men, have the most improved plant, and stand unique, from the fact that they have their own Ore and Coal Mines, Blast Furnaces, etc., and that *every* stage of manufacture is under their own supervision, and are not (like others) dependent on the open market for a miscellaneous assortment of crude material; which, in connection with 75 years' experience, enables them to turn out a product of a very superior quality, second to none, and at the same time the different grades of Steel are always of the *same uniform* quality.

Locomotive Tires, Steel-Tired Wheels, Crank-Pins, Shafts,

AND

STEEL FORGINGS up to 50 TONS.

Steel of every description Forged, Rolled, etc., into any form or article desired.

After a test of over 25 years the "Krupp Tire" has proved itself to be the best in the market, and parties intending ordering Locomotives would do well to insert among their specifications that "Krupp Tires" be used on drivers, and thereby obtain an article which will give satisfaction.
